

HOOVER TAKES TASK OF FOOD CONTROL

Prohibition of Hoarding, Waste and Speculation Is Proposed Policy.

STOCKS SURVEY PLANNED

Production, Conservation and Marketing Are to Be Duties of Mr. Houston's Department, Under President's New Plan.

BY JOHN CALLAN O'LAUGHLIN.
WASHINGTON, May 19.—(Special.)—President Wilson announced today that Herbert C. Hoover, who has won international fame by feeding Belgium, has accepted the all-important task of food administration.

Moreover, the President has abandoned the food control measure devised by Secretary of Agriculture Houston and has come out squarely behind the views of Mr. Hoover. Mr. Hoover will administer an agency separate and distinct from the Department of Agriculture.

Hoarding to Be Prevented.

It will be his business, according to the President, to do these things:

1. Investigation of the existing available stocks of foodstuffs and of the costs and practices of the various food producing and distributing trades.
2. Prevention of hoarding and control of food by persons other than producers, dealers and traders.
3. Requisitioning, when necessary, of food supplies for public use and necessary handling equipment.
4. Licensing of wholesale and legitimate mixtures and milling percentages.

Waste to Be Prohibited.

5. Prohibition of the unnecessary or wasteful use of food.
6. Establishment of a minimum price.
7. Temporary fixing of reasonable prices, to break up corners and attempts at speculation.

The Department of Agriculture will devote itself to:

1. Food production.
2. Food conservation.
3. Marketing of food.

The President deemed it advisable to issue the statement in explanation of the very great power he is seeking from Congress to develop throughout the country and the feeling in the Senate and House against granting the extensive authority asked by Secretary Houston.

Powers Still Wanted.

Mr. Wilson still wants the powers, but they are to be exercised by Mr. Hoover.

The President asserts the powers are greater than those lodged in other governments and are intended to stimulate food production and conserve food and not to restrain arbitrarily or injuriously interfere with the normal processes of production.

Hoover Cites Blanders.

It appears, however, that the bill presented by Mr. Hoover in the Congressional agricultural committee proposed to confer additional powers upon the Agricultural Department, such, for example, as the power to make an immediate food survey, which, according to the President's statement today, would be done by the Food Administration to be organized.

Here is Mr. Hoover's comment on the department's bill:

"The result of three years of turmoil and enormous accumulation of blundering and experience has been the universal development in every European government of foodstuffs, and of shaping into administrative bodies of equal importance with the other administrative bodies of the government. That has been found necessary to give prestige to these organizations under which they may co-operate with the commercial interests of the country and to give the prestige with which they may co-operate with the similar departments of the allies, and, above all, to create in the minds of the people a certain imaginative alarm resulting in saving and arising from the very fact that you set up a food control in the country."

Cause for Concern Portrayed.

"The fact that it is set up and given powers is in itself an advertisement to the people that there is cause for concern. The operations of this department falling on those larger issues, they fall into attempt to secure better international distribution, to eliminate the overlapping of haulage and of the most equal importance, to secure the elimination of waste in consumption and voluntary restraint of the people as to extravagance both in food and in living. As the situation involves further degeneration in Europe, we may have to go further with the measures of self-restraint, but by appealing to the devotion and to their common sense and by keeping that appeal in front of them, morning, noon and night, we can

SHE DARKENED HER GRAY HAIR

A Kansas City Lady Darkened Her Gray Hair and Made It Soft and Glossy by a Simple Home Process.

She Tells How She Did It.

A well-known resident of Kansas City, Mo., who darkened her gray hair by a simple home process, says the following statement: "Any lady or gentleman can darken their gray or faded hair and make it soft and glossy with this simple recipe, which they can mix at home: To half pint of water add 1 ea. of bay rum, 1 small box of Barbo Compound and 1/4 oz. of glycerine. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day until the gray hair is darkened sufficiently. It is not sticky or greasy and does not rub off. It will make a gray-haired person look 10 to 20 years younger. Adv."

depend upon the American people to do their part in service and saving."

Other reasons were advanced by Mr. Hoover for setting up an independent executive organization operating directly under the President, an organization which would have authority and be effective.

Reasons Are Given.

"One of the reasons is this," he continued, "that there is no form of restraint on the activities of a people which is so onerous as the restraint on the normal occupations as that made necessary in food supply and its consumption. My feeling is that the whole basis of democracy lies in the free and rightful play of individual effort and here is the most tremendous restraint which can be put upon the play of individualism in the country and it is a most serious restraint to undertake. That restraint is only justified by the existence of a very great emergency and it should carry within itself the seeds of its own destruction."

SUNDAY SCHOOLS ELECT

MR. LANDRUM, VICE-PRESIDENT OF STATE ASSOCIATION.

Until the Indiana Present Programme at Session That Will Close at Pendleton Today.

PENDLETON, Or., May 19.—(Special.)—Marion Lawrence, of Chicago, general secretary of the International Association, Dr. J. D. Springfield, Portland, educational secretary of the State Association, and C. C. Knapp, Spokane, general secretary of the Inland Empire Association, were the principal speakers at the three sessions today of the Eastern division of the Oregon State Sunday School convention here.

Mr. Lawrence expressed the object of the association in his address in the morning session when he recalled that three weeks ago he had seen a throng of men and women "hit the trail" for Billy Sunday in New York.

"When I thought of the years they had wasted, I was more strongly impressed with the educational evangelism which reaches the young people as arrayed against the salvage I witnessed in the metropolis."

An interesting feature of the afternoon session was the music and remarks by Umatilla Indians from the reservation on the reservation near here. A large part of the day was occupied by county and denominational conferences. The convention will close tomorrow. Visitors will occupy the local pulpits in the morning and the convention work will be resumed in the afternoon. At the executive session William Landrum, of La Grande, was elected vice-president and the following members of the executive committee were chosen: W. H. Rice, Milton; Mrs. B. S. Farmer, Vale; Mrs. C. E. Woodson, Heppner.

U-BOAT REFUSES RESCUE

BRITON ON WRECKAGE INTIMIDATED AND LEFT TO FATE.

Deposition Reveals for First Time Destruction of Steamer Thracia, of Cunard Company.

LONDON, May 19.—Douglas Duff, the fourth officer and the only survivor of the steamer Thracia, sunk by a German submarine on April 27, says in depositions that three hours after the ship was sunk the German submarine approached the capsized boat, the stern of which had been blown off, to which he was clinging.

The submarine commander first threatened to snoot Duff, says the fourth officer, but later said he "would not waste the powder on an Englishman," and sailed away, leaving Duff to his fate. He was picked up by a French fisherman.

A previous report of the sinking of the Thracia had been received. She was a Cunard steamer of 2331 tons gross.

MOTOR VEHICLES INCREASE

License Payments at Vancouver Are Ahead of 1916.

VANCOUVER, Wash., May 19.—(Special.)—The number of motor vehicles owned and operated in Vancouver and Burke County is increasing rapidly. In 1916 the County Auditor collected \$6892 from the owners of 1136 automobiles and 115 motorcycles.

So far this year, since March, she has collected \$5614 from 1115 automobiles and 83 motorcycles.

The increase more than \$1700 was collected after June 1, so it is expected this will be a banner year. The state law now requires automobiles, particularly trucks, doing business in Washington, to procure Washington licenses. Many Portland firms are compelled to take out licenses under this rule.

DRESSES WILL COST MORE

High Cost of Living in Paris Cause of Women's Strike.

PARIS, May 19.—The ranks of the striking dressmakers of Paris have increased until they now number some 10,000. Today groups of the strikers gathered and sought recruits for their ranks from establishments not previously affected. Precautionary arrangements by the police, and a comprehensive scale prevented disorders.

Conferences of employers and employees with the Minister of the Interior today were believed to give some prospect of an adjustment of the difficulty. The women went on strike for a Saturday half holiday with pay and an increase in pay of one franc a day because of the high cost of living.

DIPLOMATS SAIL FOR HOME

Germans From China and Turks Depart From New York.

NEW YORK, May 19.—The remaining members of the Austrian diplomatic and consular party and 150 Germans from China, were among those who booked passage on the Norwegian-American liner Kristianiafjord, sailing for Norway today. As the vessel is neutral and passes through neutral waters exclusively, the management of the line announced there was no need of security.

Djalal Munif Bey, Turkish Consul-General, and his wife and Constantin Mavroudi Effendi, second secretary of the Turkish Embassy at Washington, also were passengers.

Uncle Sam Has No Seed.

WASHINGTON, May 19.—No seed for free distribution nor for sale in the disposal of the United States Department of Agriculture. The department, however, through its committee on seed stocks, is receiving daily telegraphic and other reports as to available supplies of seeds of crops for late plant-

TAX ON LIGHT AND HEAT STAYS IN BILL

Second-Class Mail Rate and Advertising Taxes Causing Concern.

POSTAGE RATES REVAMPED

Ways and Means Committee to Meet Sunday in Effort to Shape the Bill for Its Final Passage Tuesday Night.

WASHINGTON, May 19.—In an effort to whip the war tax bill into shape for final passage by Tuesday night, Democratic Leader Kitchin tonight called a special meeting of the ways and means committee for tomorrow to consider amendments. Final disposition will be made then, if possible, of the troublesome second-class mail rate increases and the advertising, automobile and musical instrument taxes.

Defeat of a proposal by Representative Lenroot, of Wisconsin, to strike out the 5 per cent light and heat tax, and adoption of an amendment lowering the express transportation tax from 10 to 8 per cent, were the outstanding results of today's debate in the House. The Lenroot proposal was voted down, 58 to 116, despite the fact that the Wisconsin Representative had effected a \$66,000,000 increase in the income tax surtax schedules largely by the argument that he intended they should substitute the light and heat levies.

The proposed second-class mail rate increases and the advertising tax are causing the committee much concern. With the committee virtually agreed to accept the Moon amendment on the second-class mail rates and standing the 5 per cent tax on all advertising except newspapers and periodicals now in the bill, Representative Johnson, of Washington, a newspaper publisher, and Representative Fitzgerald, of New York, injected new proposals into the situation today which resulted in the committee deferring final action until tomorrow.

Representative Johnson declared that the Moon plan, to increase the mail rate on periodicals carried in the mails to any zone above the second, was unjust, and suggested a double plan raising the mail rate on the number of subscribers served by mail and the subscription price of the newspaper or periodical affected, without regard to distance carried. Under this plan a publication selling at 50 cents a year would pay in addition to the regular present 1-cent flat rate a new rate of one-quarter of a cent per pound up to 20,000 subscribers. At 20,000 subscribers the additional rate would be raised to one-half cent per pound. Representative Fitzgerald proposed to reduce the 5 per cent tax on all advertising except newspapers and periodicals to 1 per cent and exclude only country weeklies within their home counties.

Numerous changes were made in the life insurance section of the bill today, none of the rates being affected.

ARGENTINA UNDER PROBE

AMERICA INVESTIGATES PLEA OF WHEAT SHORTAGE.

Coal Supply May Be Shut Off If Reports of Grain Surplus Are Proved True.

WASHINGTON, May 19.—Argentina's plea that wheat shortage at home prevents her from exporting any of her crop to the allies is under investigation by the State Department. If reports of an actual surplus in the South American Republic are borne out a way may be found to prevent the American coal shipments to Argentine ports.

It was said at the Department today that if it developed that Argentina really is so short of wheat that exportation would cause suffering there was no probability of interference by the United States. Great Britain already has halted coal shipments to Argentina.

The American Consul at Buenos Aires and consular officials at other places in Argentina have been instructed to make reports on the subject.

SKETICISM TO BE FOUGHT

Evangelical Association Puts Blame on Non-Christian Schools.

MONMOUTH, Or., May 19.—(Special.)—Skepticism in state schools was condemned today by the Evangelical Association.

FUNERAL OF LATE BUSINESS MAN HELD WITH BURIAL AT ROSE CITY CEMETERY.

William Adams, Sr., The funeral of William Adams, Sr., father of City Treasurer Adams, was held yesterday afternoon from the Finley undertaking room. Burial was at Rose City Cemetery. Mr. Adams was 69 years of age and had been a resident of Portland for 20 years. He was well known in business circles, having been in the wholesale meat business with four of his sons for many years.

CLERGY BACKS PEACE MOVE

Roman Catholics in Germany Said to Be Well Organized.

AMSTERDAM, via London, May 19.—The Deutsche Kirchen Zeitung states that the Roman Catholic clergy of Germany has inaugurated a powerfully-organized peace movement.

denied today by the Oregon conference of the Evangelical Association, whose members decided on combined action to stem the tide of skeptical teachings by showing the wrongs of such instruction, through the pulpit and through the press. Young men who commence a career in the ministry are checked in their activities by skeptical remarks, teachings and surroundings, it was shown.

According to conference members, danger lies in the fact that many young men attend both a ministerial college and a state institution, and in the latter receive instruction which in part discourages their ministerial activities. The conference will on record as opposed to the marriage of probationers, and the probationary time was extended for any anyone who married.

Credentialed ministers were granted to R. D. Streiffeler, of Everett, Wash.; D. P. Henry, of Seattle, and T. R. McDonald, of Canada.

Three were given license to preach: Theodore Cohrs, of Seattle; R. Sprow, Lents; Arthur Torgerson, Sweet Home.

M'ADOO IN TWIN CITIES

THOUSANDS CHEER SECRETARY AS HE SPENDS BUSY DAY.

ALLIES IN ANOTHER YEAR OF WAR WOULD SPEND \$5,000,000,000 HERE, Says Official.

ST. PAUL, Minn., May 19.—Enthusiastic assurance that the North-western "National breadbasket" would lend its united support in providing fighters, food and finances for the war against Germany greeted William G. McAdoo, Secretary of the Treasury, on his visit to the Twin Cities today in furtherance of the liberty loan.

The Secretary was cheered by thousands throughout a busy day.

The Secretary pointed out that America's "splendid isolation" has been destroyed and the Nation is face to face with "the same unfortunate proximity to a formidable military power as that in which the European nations have found themselves for half a century."

"In order to carry on the war," Mr. McAdoo said, "the first necessity is money. This is the reason we have issued this great liberty loan; that is the reason we call it the liberty loan, because the money derived from it will be dedicated to the cause of human liberty throughout the world."

"If we continue another year the allied governments will expend in the United States at least \$5,000,000,000 for supplies and materials."

"There is every reason why business should proceed on a larger basis of prosperity than this country has ever known."

LAW WOULD FIX WAGES

RAILROAD STRIKES AND LOCKOUTS TO BE AVOIDED.

Plan of Secretary Wilson, of Department of Labor, Presented to Congress for Action.

WASHINGTON, May 19.—Legislation to prevent future railway strikes was proposed to Congress today by Secretary Wilson of the Labor Department. A committee of nine to fix wage rates on all railroads for three-year periods was suggested.

The bill submitted provides uniform pay on all roads engaged in interstate commerce and in the District of Columbia, and provides heavy penalties for railroads paying more or less than rates prescribed.

The system aims to eliminate strikes and lockouts by creating a condition under which nothing would be gained by them. All wage rates would be based on an eight-hour law. The board would fix wage rates for water as well as rail transportation systems.

COLLEGE HABITS TABOO

Officer Candidates Ordered to Cease Campus Practices.

FORT SHERIDAN, Ill., May 19.—Fraternal night, college yells and motorcars were placed under the ban at the reserve officers' training camp today by Colonel William Nicholson, commandant. A number of the candidates for commissions had been wearing civilian clothes on the olive drab shirts, while others were prone to use their private automobiles for trips about the camp during leisure hours. The Colonel declared that such behavior was a disgrace and that the American Army and not that of the college campus.

615,000 ACRES ARE OPEN

Large Tracts in Oregon Subject to Homestead Entry.

WASHINGTON, May 19.—Secretary Lane announced today the designation of 615,000 acres in eight Western states for entry in homesteads of 320 acres. In Montana 68,600 acres in 21 counties; in Oregon 122,000 acres, mostly in Klamath, Wallowa, Malheur and Gilliam counties.

HIGHWAYMEN GET \$6000

Detective Guarding Payroll Messenger Is Shot Down.

CHICAGO, May 19.—Five robbers stepped from an automobile on the West Side today, shot down a private detective guarding a payroll messenger, slightly wounded a passer-by and escaped with \$6000.

John Byers, the detective, was shot in the head.

LONDON STRIKE SETTLED

Engineers Return to Work After Conference With Premier.

LONDON, May 19.—The strike of engineers which had been in progress for some time in various industrial centers has been settled, it was announced this afternoon.

The settlement was effected following a conference at which Premier Lloyd George presided.
