LESS INCREASE EXPECTED
West Makes Showing in Freight Rate Hearing.

SALEM, Or., June 2.—(Special.)—That the West will see freight increases less than the 15 per cent horizontal rise asked by the railroads now being heard by the Interstate Commerce Commission, and that there will be a suspension of the advances in lumber and fruit rates, are hopes expressed by Commissioner H. H. Corey, of the Public Service Commission of this state, who is in Washington attending the hearings. He so telegraphed the Oregon Commission today.

for injury or death, the Government cannot subject a man to more risk than he encounters in his usual occupation and not make compensation if he is wounded or killed.

War Risk Bureau Is Successful
The success of the Government War Risk Bureau, which has paid out large sums for ship losses, is pointed to as an argument that the Government itself can bear the risk. The Government, free of overhead charges, can carry extra insurance on soldiers and sailors at a much smaller cost than can corporations. Of course, the \$4000 insurance given free would be a direct loss, but pensions, it is argued, would be much more costly in the long run.

GRAIN NEED IS HUGE
Allies and Neutrals Would Use 971,000,000 Bushels.
SUPPLY CANNOT BE MET

Hoover, in Estimating Minimum Demands, Says That Only 600,000,000 or 800,000,000 Bushels Can Be Exported.

WASHINGTON, June 2.—The grain requirements of the allies and the European neutrals were put at 971,000,000 bushels, a total much greater than the United States can supply, in a statement by Herbert C. Hoover today, listing the minimum needs of each nation for human consumption and for feed.

GOVERNOR WITH COYMBE SAYS:
"The road bond bill is the greatest measure ever contemplated by the state of Oregon. It means more to this state than any measure in its history, not barring the constitution, because the one thing we need in highways in Oregon, it is time for us to get out of the mud. There should be no sectional interest. We need and must have good roads. They add to the wealth, thrift and happiness of our people and our state. This measure does not add one farthing to our taxes. It simply capitalizes waste. It is a most splendid measure. No sane man or woman should offer a single word of opposition to this movement."

the major load must fall on us. In any event it emphasizes the necessity for control of exports in order to control prices and protect our supply and the necessity for conservation and elimination of waste in order to increase the volume of our exports.
