CABINET IS BEING RE-FORMED

Russian National Congress at Moscow Delayed for Time.

PETROGRAD, July 28.—The motive for postponing the extraordinary Russian National Congress at Moscow is the desire of the provisional government to reconstruct the cabinet with stronger men.

Negotiations looking to this end proceeded throughout yesterday and last night, cabinet members and representatives of the leading parties taking part.

The Constitutional Democrats have agreed to re-enter the cabinet.

Among the new members according to an official statement by the government, probably will be General Vladimir Vasichy, first secretary-general of the revolutionary cabinet.

A common programme has not yet been decided upon. The chief obstacle is said to be the Socialist Minister of Agriculture, M. Tchernoff, and his policy, which was denounced by Prince Lvoff, the former Premier.

Progress of the War.

STILL the center of military interest, the Russian front from Volhynia southward to the bend in the line near Fokshani in Roumania presents the curious spectacle of the Russians still in retreat on a wide front in Eastern Galicia and of Russian and Roumanian troops advancing in an important sector along the Western Moldavian frontier.

Petrograd has little to say of the situation in Eastern Galicia, but indicates a considerable resistance by the Russian forces in the Carpathians, notwithstanding which a Russian retirement was forced under a Teutonic attack.

Lloyd George Tells French Editors That England Will Be Self-Sustaining Hereafter—Russian Situation Taken Calmly.

PARIS, July 28.—David Lloyd George, the British premier, yesterday gave a breakfast to a number of editors of important French newspapers.

Mr. Lloyd George said that Great Britain now had between 5,000,000 and 5,500,000 soldiers enrolled without counting between 400,000 and 500,000 belonging to the navy or nearly 1,000,000 men from the Dominions and Colonies.

Great Britain had placed at the disposal of her allies, he added, from 1,500,000 to 2,000,000 tons of merchant ships. Next year's building programme for merchant ships, which already has begun, amounts to 4,500,000 tons, or twice as much as in a good year during peace time.

Continuing, Mr. Lloyd George said that 5,000,000 men and women were engaged in war work in the United Kingdom. More women could be employed if the trades unions did not fear the competition of women at work.

Mr. Lloyd George said that the United Kingdom was working for individual interests except in agriculture.

The English people sincerely hoped that the present war would be the last war, Mr. Lloyd George continued, the country intended to prevent any further wars.

Cocoon Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful.

Simply moisten your hair with water and rub in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly.

You can get mulisified cocoon oil at most any drug store. It is very cheap and a few ounces is enough to last everyone in the family for months.
