Superfluous Hair.

Any woman can remove unsightly hair without resort to surgery. The most delicate skin is simply applying the affected part a paste made by adding a little water to Demosant, a perfumed powder. Upon its removal in two or three minutes the skin will be found smooth and hairless. A single application usually suffices to remove the most obstinate growths. Demosant is perfumed and does not irritate the skin. Does not stimulate the growth of new hair. Fully guaranteed. For 25 cents you can obtain a generous supply by mail in plain wrapper from the Schenectady Laboratories, Portland, Or., or any drug or department store can supply it. Trial size for 25 cents, which is not returned.
