Attorney-General Gregory Instructs Assistants That Provost Marshal Has Ruled Failure to Report Means Man Is Deserter.

WASHINGTON, Aug. 18 .- Authorization to issue bonds and certificates totaling \$11,538,945,460 at one time is provided in the new war budget bill em-bodying recommendations of Secretary McAdoo, which came from the printer today to the House ways and means

committee.

In addition to authority to float a In addition to authority to float a \$7,538,945,460 4 per cent bond issue to care for a previous \$3,000,600,000 and a future \$4,000,000,000 allied loan authorization, the Secretary desires power to issue additional certificates of indebtedness to the amount of \$2,000,000,000 and an equal amount of war savings certificates in a form available to small investors.

Lives of the certificates of indebted-

ness and war savings certificates would be limited to one and five years, re-spectively, and they would be subject to discount and payment in the dis-cretion of the secretary. He also would fix the interest rates and regulate interest payments. They, like the bonds, would be subject only to super tax, war profits and excess profits tax.

Inclusion of the two additional cer-tificate proposals, not mentioned here-tofore by Administration leaders in connection with the bill, is understood to be for the purpose principally of providing against a sudden demand for money which the Treasury might not be able to meet. As Congressional leaders understood the situation, it may not be necessary to issue many of the cer-tificates, but they would prove the means of getting money quickly if it were needed

Small Investors Favored.

Authorization to issue the certificates would prove particularly valuable, it is pointed out, if Congress should not increase the revenue, bill now under discussion by \$500,000,000, as proposed by Mr. McAdoo, It is by no means certain that this proposed increase will be obtained.

In the war savings certificates pro-

In the war savings certificates pro-posal Administration leaders think they have discovered a means of ap-pealing to the patriotic man of small means. Furchases of these certificates would be limited to \$100 worth at a time, and no individual would be per-mitted to hold more than \$1000 worth mitted to hold more than \$1000 worth

Plans are also being made to accept small payments on them, the bill pro-viding the Secretary may, if he deems advisable, issue stamps to evidence payments. Under such an arrangement payment of such amounts as \$1 or less might be made and noted as are postal

feature of the entire loan scheme will receive greater or more careful attention than this one. Leaders feel it is essential to the success of the war that everyone be made to feel that he is doing his bit, particularly in a fl-

Attractive Interest Likely. Although the interest rate has not

been determined, it doubtless will be ample to attract investors.

In general respects the bill is similar to the budget of last April, which authorized \$5,000,000,000 worth of bonds in addition to \$2,000,000,000 in certificates of indebtedness. The new 4 per cent bonds could not be sold for less than par, and the Secretary would be authorized to purchase allied bonds at par, but their rates of interest must not be less than the highest rates paid by the United States bonds. The new bonds also would be convertible if later the United States should issue other bonds at a higher rate of interest. None of the bonds would bear the cir-

culation privilege.
Indications tonight are that the bill will not be taken up for passage until after the revenue bill passes the Sen-ate, probably late next week,
