No-Stop Flight of 200 Miles Is Made From Camp at Hampton, Va.

TWO SUFFER MISHAPS

Planes Scatter Flowers on White House Lawn—Plans Made for Flight to New York with 25-Passenger Machine.

WASHINGTON, Sept. 22.—Two Italian airplanes which with a third started on a flight this morning from Langley Field, at Hampton, Va., to Washington and back, suffered mishaps here which prevented their return tonight.

After an exhibition flight with newspapermen as passengers, a Fiat battle plane, short of gasoline, landed in a marsh on the Virginia side of the Potomac River.

Third Returns Safely.

The third machine, a fast Pomilio battle plane, returned to Hampton safely, a distance of 128 miles, in less than two hours.

The big Caproni airplane, piloted by Lieutenant Silvio Resnati, Italian military aviator, was the principal machine in the flight and carried, besides its pilot, nine passengers.

His son, Franklin K. Lane, Jr., an American Army aviator, was a passenger in the Fiat machine which fled ahead of the big tri-plane, being smaller and much faster.

Airmen Hover Over Capital.

Eagerly watched by great crowds, the birdman, making the flight in about two hours, circled over the White House and the Washington Monument and then glided down to earth.

The pilots executed many maneuvers now common on the European battle fronts, once circling low over the White House and scattering flowers along the lawn.

Two of the aviators, Captain Tappi, who piloted the big Caproni, and Lieutenant Baldoli, who flew the Fiat, with Lieutenant Franklin K. Lane, Jr., as a passenger, are among Italy's most famous flyers.

New York Run Promised.

The Caproni machine brought as passengers Dr. S. W. Stratton, chief of the bureau of standards, and S. W. F. Durand and W. B. Stout, of the Aircraft Production Board.

The airplane started at an altitude of 8000 feet, and when Washington was reached they were flying above banks of low hanging clouds.

Next week five Italian machines will leave Langley Field for a non-stop flight to New York. On this trip one of the pilots will drive the great tri-plane now at Newport News, which carries 25 passengers.

AERIAL HIGHWAY PROPOSED

Commercial Air Service After War Is Planned.

NEW YORK, Sept. 22.—The plan of the Aero Club of America for a National aerial highway extending from this city to San Francisco, to be called the "Woodrow Wilson Aerial Highway," has been approved by the president in a letter to Representative Murray Hill, of New York, which was made public by the Aero Club tonight.

It was announced that plans for making the map of this highway will be considered immediately by the club's committee on aeronautic maps and landing places, and that various governmental, commercial and scientific bodies will be invited to carry out the project as soon as possible.

The Aerial Highway, it is proposed, in addition to running in a straight line from coast to coast, will have connecting branches extending north and south of the main airway and reaching every important city from Maine to Puget Sound.

C. A. Steele Writes of Effect of War on Siam.

PRESIDENT MUCH PRAISED

Seizure of Ships and Proclamation of Regulations Mark Advent of Kingdom Into War for International Rights.

Interment of more than 200 Germans and Austrians as well as the interment of 19,000 tons of ships, marked the declaration of war against the Teutonic powers by Siam, according to letters just received from C. A. Steele, formerly of Portland, and for six years at the head of the Boon Tit Memorial Institute of Bangkok, an institution similar to an American Y. M. C. A.

"Since President Wilson declared war," writes Mr. Steele, "he has been held in the highest possible respect by the official classes here, and the Chief Justice of the Supreme Court of Siam, Prince Svasti, told me the other day that he considered President Wilson the greatest statesman in the whole world today."

American Influence Felt. Inclosed in the letter was a copy of a special sheet issued by the Siam Observer, giving an English translation of the Siamese declaration of war.

The American influence is marked, for the rules and regulations promulgated are similar to those in the United States, and there are phrases that have a decided American sound. Among the rules are:

"An alien enemy shall not have or use any aircraft or wireless apparatus."

"An alien enemy shall not approach within one kilometer of any fort or arsenal."

"Aliens are forbidden also to publish

AUSTIN, Tex., Sept. 22.—The Senate high court of impeachment, trying Governor James E. Ferguson, today sustained 10 of the 21 charges brought against him.

The charges which were sustained and the votes were as follows: No. 1.—That he deposited \$5000 of Canyon City Normal insurance money in the Temple State Bank to a personal note, 27 ayes, 4 noes.

No. 4.—That \$40,000 of Canyon City Normal insurance money remained in the Temple State Bank more than a year without drawing interest, but to the profit of the Governor, 26 ayes, 5 noes.

No. 6.—That he deposited \$50,000 of state money in the Temple Bank and profited therefrom, 24 ayes, 7 noes.

No. 7.—That he assisted in the deposit of \$250,000 of state funds to the credit of the Temple Bank and profited therefrom; 26 ayes, 5 noes.

Misconduct Is Alleged. No. 11.—That his refusal to tell who lent him \$150,000 in currency constituted official misconduct, 27 ayes, 4 noes.

No. 12.—That he diverted from the Adjutant-General's fund money paid on the Canyon City Normal building in 1911 for a party given by him.

No. 14.—That he induced the officers of the Temple Bank to lend money in excess of the legal limit, although he was sworn as Governor to enforce the law, 26 ayes, 5 noes.

No. 16.—That he sought to coerce and influence the board of regents of the University of Texas to do his autocratic will, 22 ayes, 8 noes.

No. 17.—That he sought to violate the law by removing regents without adequate cause, 22 ayes, 8 noes, one present and not voting.

No. 19.—That he sought to influence Huber P. Allen, chairman of the board of regents, by remitting to him a \$5000 bond, 21 ayes, 10 noes.

Governor Now Out of Office. The vote on the first article—that he used \$5000 of state funds to settle a personal obligation—was sufficient to convict. A two-thirds vote was necessary. The ballot was ayes 27, noes 4.

Next Tuesday at noon the Senate will formally pronounce its judgment. Conviction carries with it, it is understood, disbarment from future offices, but this condition possibly may be ameliorated.

Tonight the Governor is completely severed from the position to which he was twice elected by the people. Acting-Governor William F. Hobby, an editor of Beaumont, assumes the full power of office. His tenure will extend to January, 1919.

Former Reed Students Greet Professor Ogburn—Horace Cardinell, Recently Wed, Sails for Brazil.

NEW YORK, Sept. 22.—(Special)—with the infantry. On account of his technical ability, however, he may be called upon to serve in some scientific capacity.

After an extended visit to Portland, Mr. Lindley F. Hall has returned to take up his work in the Egyptian department of the Metropolitan Museum of Art.

Mr. and Mrs. Horace A. Cardinell sailed last week for Rio de Janeiro, Brazil, which will be their home for the next two years.

Mr. Cardinell has an appointment as horticulturist for the Brazilian government, having already spent some time there. He was sent to this country to get supplies for his work, and made use of the opportunity to take unto himself a wife.

He was married to Norma Waddell at Long Beach, Cal., three weeks before sailing south. While at Portland Academy and O. A. C. Mr. Cardinell was active in athletics, especially baseball.

Another O. A. C. man, Philip R. Sessions, has come to make New York his home, for some time at least. He has accepted a position with the Aeolian Company in their credit department.

He had never before held a public office and previous to his gubernatorial nomination was practically unknown outside of his home county. He was born in Bell
