

MANIFOLD REPORTS

Manager C. A. Dunham Company Tells of Disaster.

NARROW ESCAPE SURPRISE

Letter to Home Concern Reaches H. K. Lead, Portland Representative, Descriptive of Horror in Wake of Explosion.

First-hand information of the Halifax disaster and the work of rescue following the explosion is contained in a letter from R. F. Eager, manager of the Halifax branch of the C. A. Dunham Company, Limited, to the home office of the company in Marshalltown, Ia., and recently received here in a copy by H. K. Lead, manager of the Portland branch.

The letter, describing the experiences of Mr. Eager and his partner, Mr. Coombs, follows: "We telegraphed you yesterday in reply to your very kind telegram. Both Coombs and myself and our wives are not only alive but uninjured. Our offices and homes are wrecked but fortunately not to such an extent as make them dangerous for occupation, as are so many homes outside the actually destroyed area.

"Mr. Coombs had a rather wonderful experience, being on the ferry boat at the time and actually witnessed the explosion. The steamer was completely destroyed, but being on the upper deck he escaped the flying glass that mutilated the occupants of the cabins. The writer was in the boat with him at every one about him, practically without exception, was cut, some of them seriously.

"Everywhere about us were blood-stained people, most of them, fortunately, not dangerously wounded, but all more or less scarred for life and some with impaired eyesight. At that time we did not know what had happened and it was an hour later before we knew that the North End had practically been destroyed.

"Ambulance and rescue work engaged my attention for the rest of the day. Having had some considerable experience in this work, I was a little better fitted out with nerves than most, but I can tell you frankly that I never expected to see anything like it and hope never to see so much suffering again. The physical suffering was very much compared to the mental. Fancy a mother having to stand by and watch the ruins of her home burning and four of her children with their heads and exactly one instance of what happened.

"The newspapers have so far failed to describe the disaster adequately. The district affected must be seen and with some previous knowledge of what it was to appreciate properly what happened. Ocean liners, many of them, are high and dry from the tide ways. Where large piers stood, there is open water. Pieces of the ship, heavier than a man could lift, were blown about two miles away and most of these pieces apparently were red-hot. The exodus of people from the North End, on the alarm that a second explosion was likely to occur, was something too heartrending for words. Old people, feeble to walk, were being supported by the younger, who were further burdened with household goods, to make them as comfortable as possible in the open. There were infants in arms, some of them only a few days old, mostly in the arms of old people, who were being carried, or being carried, and this crowd being vomited forth from every street that opened onto the common or citadel.

"The relief committee did heroic work and though everyone suffered from exposure, I think practically everyone escaped before night somewhere or other.

SCHOOL 45 CELEBRATES

FINE HOLIDAY ENTERTAINMENT WELL ATTENDED.

Honors Won in Various County Contests Recounted by Superintendent at Festive Gathering.

The Christmas entertainment at District 45 school on Friday evening before the holidays was one of the most interesting given since the school was established in its new quarters. There was a large attendance and the programme, to which each room contributed, was one of excellence throughout.

Mr. Alderson, County Superintendent, spoke briefly of the honors that District 45 has won in the various county contests the past two years, and said that at many of the schools of the county where preparations are in progress for competitive work of any kind the slogan is "Beat District 45."

Miss Joyce, representing the Oregon Agricultural College in the extension work that is being done throughout the state, gave a talk on what the boys and girls are doing at many of the schools and the good they are deriving therefrom.

Refreshments were served by the Parent-Teacher Association and the Red Cross workers were busy rounding up new members for that organization.

BONUS IS GIVEN EMPLOYEES

Log Cabin Company Distributes Checks at Annual Dinner.

The Log Cabin Baking Company, at the annual banquet for the employees Christmas eve, introduced the pleasant surprise of a bonus which was to be distributed to its employees on the basis of the number of years in service, the wages earned and the importance of the position held. Employees will receive all the way from \$10 to \$175 each. Without expecting anything other than the best, the company has decided to give a bonus which is a real surprise to the employees gathered, and at each place was a letter announcing the bonus, signed by H. F. Fittman, manager, and inclosing a check.

Special prizes were given for the best vaudeville stunts prepared by employees. The first prize was \$5 went to C. F. Hemming for his clever Scotch characterizations. The wrapping girls, in a dialogue on the "High Cost of Living" were given second prize and Mr. Wise third.

To show their appreciation of the management's generosity in declaring the bonus, which is to be an annual institution, the employees took up a collection among themselves and Christmas morning found a handsome leather rocker and two reading lamps, respectively, under the Christmas tree of the three department heads.

ACTRESS TO BE SEEN THIS WEEK HAS WIDE EXPERIENCE

Katherine Grey, Who Made Her Debut With Augustin Daly, Also Played With Charles Frohman, Charles Coghlan, Richard Mansfield and Goodwin.

KATHERINE GREY, WHO STARS IN "THE THIRTEENTH CHAIR," COMING TO HELIG THEATER THIS WEEK.

KATHERINE GREY, who will be seen as Rosalie La Grange in "The Thirteenth Chair," at the Helig Theater for the three nights beginning Thursday, January 10, has had a most interesting theatrical career. Born in San Francisco, while in her teens she made her debut in a company of Augustin Daly. It was the custom in those days of taking the five or six principals from New York and filling the remainder of the cast on the coast, thus avoiding the cost of railroading. She displayed such marked ability that Mr. Daly took her to New York, where she appeared in "The Golden Widow" and "A Priceless Paragon" at Daly's Theater.

Charles Frohman borrowed her for his productions of "Jane" and "All the Comforts of Home," after which she was selected to create the role of Helen Berry in James A. Herne's production of "Shore Acres" at Miner's Fifth-Avenue Theater. She later appeared for several seasons with Richard Mansfield in "Napoleon," "Arms and the Man," "Dr. Jekyll and Mr. Hyde" and "The Parisian Romance" and toured the country in support of Charles Coghlan in "The Royal Box."

ITALIAN WAR PHOTOGRAPHS TO BE SHOWN AT HELIG THEATER

Films of Battles in Mountains and Plains and Depicting Difficulties Under Which Latins Labored Will Be Exhibited Four Days, Beginning Jan. 2.

Scene From Italian War Film.

Numerous war films, official and unofficial, have been exhibited in this city within the last year, yet among these the first pictures from the Italian battle front that will be shown for four days at the Helig Theater, beginning Wednesday night, January 2, stand out in many respects as extraordinary. It is said. The pictures were taken under the supervision of the Italian government and as achievements of photography, if for nothing else, are remarkable. For a great part of them the telephoto lens was employed, carrying the observer from a distant point into the thick of the action.

These pictures introduce a new field, or rather a new field of war. They show the clouds, on ski and in white uniforms with faces masked, is quite unlike anything which has been seen here before, to say nothing of the transportation of men, food, munitions and guns in baskets by means of aerial rope ways over wide chasms thousands of feet in depth. One picture shows a six-inch gun on a sledge being dragged to the highest peak of a mountain chain with three long hawsers in the hands of several hundred soldiers.

GOOD THINGS IN THE MARKET

THE stores and markets report having done a phenomenally good Christmas business. One retail dealer had the manly courage to declare that, though he himself had once been numbered in the enemy's camp, the splendid trade the city enjoyed was due to prohibition, for the cash went directly into the hands of the women with no check-cashing middleman intervening. And is it permissible to suggest that coupled with prohibition stands equal suffrage? A few dainty odds and ends, left over from Christmas, may come in for those who exult the New Year. Salmirons, olives cut in circles—a new finish for salads and sandwiches, 25 cents a bottle. Mushrooms and truffles and with truffle sauce, 50 cents a bottle. French peeled chestnuts in vanilla syrup, bottles 25 cents and \$1.50—a choice importation from France. Orange jelly from Southern California, 15, 20 and 30 cents a glass. Maple sugar, new stock, 40 cents a pound. Milk chocolate, with toasted almonds, a new arrival from Switzerland which successfully ran the blockade, 5 cents a cake. HOW TO PREVENT APPENDICITIS

Appendicitis is primarily due to the poison formed by decaying food in the bowels. Even a slight indigestion if neglected each day, that is not enough. There must be an occasional "THOROUGH" complete cleansing of the bowels. This is accomplished by the use of a natural, gentle, laxative, decaying matter. The MOST COMPLETE bowel cleanser known is a mixture of buckthorn bark, senna and ten other ingredients, put up in ready prepared form under the trade name of Adier-ka. It does not irritate, it is a powerful bowel cleanser that ALWAYS does its work properly and thoroughly. It removes foul and poisonous matter, cleanses the bowels, and restores the system to normal. It works QUICKLY and without the least discomfort. It is a natural, gentle laxative that one forgets he has taken it until the THOROUGH evacuation starts. It is a powerful purgative that draws from the alimentary canal—matter you would never have thought was in your system. Try it right after a natural bowel movement and notice how much MORE foul matter will be brought out which was poisoning your system. In slight disorders such as occasional constipation, sour stomach, "gas" on the stomach, or sick headache, one spoonful brings relief almost INSTANTLY. Adier-ka is the MOST THOROUGH bowel cleanser and antiseptic ever offered in ready prepared form. It is a constant surprise to people who have used only ordinary laxative and stomach medicines and the various oils and waters. REPORTS FROM PHYSICIANS. Dr. James Weaver, Los, Utah: "I have found nothing in my 60 years' practice to equal Adier-ka. It is a gentle, slightly cathartic, that is not enough.
