

# PORTLAND IN WAR STAMP SALE

### Excellent Showing Made and Campaign Has Just Made Start.

## STATE TO BE ORGANIZED

Eight thousand designated stations will serve as places at which people of Oregon may make their purchase.

Portland is ninth among the cities of the United States in sales of war savings stamps, according to an announcement from the Postmaster-General, which reached Associate State Director Charles N. Wonscott, of the Oregon division of the National Thrift Campaign, yesterday.

Seattle is twenty-ninth. The first nine cities are New York, Chicago, Cincinnati, Detroit, Kansas City, Pittsburg, St. Louis, Milwaukee and Portland. Los Angeles is tenth and San Francisco is thirty-second.

"I regard this as a most encouraging showing, especially in view of the fact that the Oregon campaign has hardly as yet caught its stride," said Mr. Wonscott. "Much credit is due Postmaster Myers for this showing because of the splendid work of the letter-carriers."

Showing to Be Improved. "We have practically completed our state organization and will begin the new year with organized campaigns in the three Congressional districts that we believe will bring the state sales of war savings and thrift stamps to a daily average of \$50,000, so that we can reach our \$17,000,000 quota at the end of 1918."

Campaign heads are to confer in Portland Monday. Ben Selling, state campaign chairman, will preside. L. J. Simpson, of North Bend, chairman of the First Congressional District organization; Leon Cohen, of Pendleton, chairman of the Second Congressional District, and E. H. MacNaughton, chairman of the Third Congressional District campaign organizations, together with Associate Director Wonscott, State Distributor J. A. Currey, Henry E. Reed, in charge of fraternal, religious and military organizations, and others will attend.

Authority Received to Proceed. The state campaign will be materially aided by the authority received from the National organization to proceed directly with the appointment of state sales stations for war savings stamps. Eight thousand such stations will be designated in Oregon.

The telegram containing the authority came from National Chairman Frank Vanderlip, and reads as follows: "The Federal directors today decided to inaugurate immediately a drive for the establishment of sales stations. One million such stations is the goal for the month of January. They are to be in addition to regular authorized agencies."

Stamps to Be Displayed. "I want you to see that every store and office frequented by the public has signs conspicuously displayed reading, 'War Savings Stamps for Sale Here.' As these sales stations are not agents, no applications for appointments are necessary. These sales stations are to obtain their stamps and all supplies from regular agencies, agent banks, postoffices or state directors.

Your quota is approximately one sales station for every 100 population. Owing to congestion in the Government Printing Office you will be obliged to have your signs printed locally. These sales stations must sell all stamps at the price current in the month sales are made."

## B. H. MAHAFFEY SLACKER

EUGENE MAN, BIBLE SOCIETY AGENT, CAUGHT IN DECEIT.

Max Stensel, Suspected of Violating Prohibition, Proves to Be Un-Naturalized German.

B. H. Mahaffey, 27, former agent of a Bible society, after maintaining for a time that he was an Oregon resident on registration day, June 5, 1917, yesterday acknowledged before United States Commissioner Drake that Eugene had been his home for the past eight years. Mahaffey showed merely that he had been at Walla Walla, Wash., on registration day.

"There is nothing left for us to do but prefer charges," declared Assistant United States Attorney Rankin, after obtaining the man's admissions.

Max Stensel, suspected of violating prohibition, proved to be un-naturalized German.

## MRS. THOMPSON TO SPEAK

Former State Representative Orator at Jackson Club Annual Rencion.

"Democracy, Past and Present" will be the subject of an address by Mrs. Alexander Thompson, of The Dalles, member of the House of Representatives at the last session of the Oregon Legislature, at the annual reunion of the Jackson Club at the Public Library Tuesday night. The occasion will be in the nature of a patriotic gathering, which has been substituted by the Democrats for their yearly Jackson day banquet.

# MERCHANT SHIPS AND YANKEE GUNNERS

Merchant Ships and Yankee Gunners

BY RALPH D. PAINE

## TRAINING THE GUNNERS.

The men of the armed gun-crew service are now numbered by thousands. It has swiftly expanded as a department of the naval organization, important and distinct. New merchant ships are building, fleets of them, in the most tremendous increase of tonnage ever known. They will carry guns and crews trained to use them. Unless they had no spare space whatever, it was expected to furnish 25,000 men for this purpose, or almost half its enlisted strength in the former days of peace.

The emergency justified the step, for ships must sail with gunners aboard, and tonnage afloat is the chief factor of the American conflict with Germany.

Recess of neat wooden buildings—baracks, offices and mess hall—alleged the park in a few weeks. The armed guard had comfortable established itself apart from the Navy-yard and it was even able to take care of a large overport from the other departments of the service. The mess hall, for instance, was built to feed 6000 men, three times a day under one roof without confusion, a sight worth going far to see. The quality and abundance of the bill of fare and the skill of the cooks would make any hungry man desire to enlist in the Navy.

These fine young Navy lads come from the fleet in drafts of 500 or 300. Give them room to stow their canvas bags and sling hammocks and they are ready for the special and exacting routine of schooling the armed guard. Chief petty officers who have crossed the Atlantic and fought the deadly submarine take them in hand as gun crews, to be held together until the word comes to go to sea. Stern experience has taught its valuable lessons. The day under one roof without confusion, a sight worth going far to see. The quality and abundance of the bill of fare and the skill of the cooks would make any hungry man desire to enlist in the Navy.

When the ship goes to sea is must be in man-of-war style, so far as its armed defense is concerned. It is a perfected system, still expanding, but efficient for the emergency which called it into being. The Navy had made good in a new, complex and arduous activity of the service.

at the target range as items in the rigorous daily routine. When not otherwise employed the men pore over the Bluejacket's Manual, in which small volume is compressed an amazing amount of information essential to the making of a first-class naval seaman.

By far the most interesting part of this special education for the armed guard service is the personal contact with the chief petty officers and seamen who have done their bit behind the guns and are waiting for another crack at a submarine. It is no theory with them. They know, absorbed, respectful, the new recruits from the fleet listen to their stories of sea fights and foreign ports. They rather in glee when the day's work is done and the drum and bugle no longer echo through the yard. The talk may run something like this:

"When you're ashore on the other side you hear stuff that never gets into the newspapers. The Belgian Prince isn't the only case of its kind. Our lifeboats picked up the second engineer of a British steamer that had been sunk a few miles ahead of us. The swim of a submarine had taken off all the officers, stood them on deck, closed the hatches and then submerged after running five miles. The only survivor was this second engineer, who could swim like a duck."

"I believe you. Did you know the Germans were pulling the same stunt on their own sailors? What do I mean? Two of them were washed ashore last time I was in England. They were still kicking and explained that their commander had put them on deck as lookouts and then sealed his hatches while he was running awash in waters where the destroyers were after him. When he had to submerge in a hurry those poor guys just naturally floated off. That was what they were there for. They usually didn't drown, which they usually did."

"Like chaining 'em to the machine guns on the western front," observed a chief boatswain's mate, accepting the story as fact, for he had seen a thing or two himself. "Drowning is soon over. What about the boat from an American schooner we picked up last voyage? There was a sight to give you bad dreams. Fourteen days adrift they were and 12 days of it with nothing to eat but their boots. There had been eight men to start with. Four were alive when we found the boat—the captain, mate and two seamen. Yes, they were some skinny and hungry looking. Tough roasters, though. They couldn't weigh a lb. of course, but they chirked up a lot before we reached port."

poor ships are better than poor men with good ships. Do not forget that wherever you go the department and the country expect that your conduct will bring credit to the Navy and to the United States."

There is no ceremony; none of the thrilling and elaborate routine with which the fleet weighs anchor. The skipper tells the mate to heave short. The steam capstan clanks as the cable comes home. The screw churns a foamy wake and slowly, solemnly another gray-hull slips seaward to run the gauntlet of the abominable piracy of Imperial Germany.

## MRS. R. E. SMITH BURIED

FUNERAL PARTY REACHES PORTLAND FROM SAN FRANCISCO.

Relatives of Family Declare Death Due to Heart Attack Following Heavy Dinner.

The funeral of Mrs. Maude Hudson Smith, wife of Rod E. Smith, of Portland, who died New Year's day in San Francisco, was held yesterday from Holman's chapel, burial being in River-view Cemetery. Mrs. Smith was a daughter of the late H. T. Hudson, pioneer sporting goods dealer in the city. Mr. Smith is a well-known insurance broker.

Mrs. Smith's body was accompanied to Portland by Miss Jessie Smith, of Santa Rosa, Mr. Smith and Mr. and Mrs. F. H. Hood, of Emeryville, Cal. Mr. Hood being a cousin of Mr. Smith. Mr. Hood said yesterday that the relatives were convinced that death was due to a heart attack. "Mrs. Smith had been in Santa Rosa visiting, and had returned to San Francisco on Saturday. There was a dinner party downtown Saturday night and Sunday Mrs. Hood and I had arranged to meet them, but when we telephoned Mrs. Smith she said she was suffering from indigestion and thought she wouldn't go out. We didn't see them on Monday because I was busy, and on Tuesday night I called for them and discovered Mrs. Smith dead and Mr. Smith asleep. Physicians called in said Mrs. Smith had been in Santa Rosa visiting, and had returned to San Francisco on Saturday. There was a dinner party downtown Saturday night and Sunday Mrs. Hood and I had arranged to meet them, but when we telephoned Mrs. Smith she said she was suffering from indigestion and thought she wouldn't go out. Physicians called in said Mrs. Smith had been in Santa Rosa visiting, and had returned to San Francisco on Saturday. There was a dinner party downtown Saturday night and Sunday Mrs. Hood and I had arranged to meet them, but when we telephoned Mrs. Smith she said she was suffering from indigestion and thought she wouldn't go out. We didn't see them on Monday because I was busy, and on Tuesday night I called for them and discovered Mrs. Smith dead and Mr. Smith asleep. Physicians called in said Mrs. Smith had been in Santa Rosa visiting, and had returned to San Francisco on Saturday. There was a dinner party downtown Saturday night and Sunday Mrs. Hood and I had arranged to meet them, but when we telephoned Mrs. Smith she said she was suffering from indigestion and thought she wouldn't go out.
