

Now Is the Time to Have Your Automobile Overhauled and Repaired

If you desire to have your car in good condition for Spring and Summer use, it is urged that immediate attention be given to it, for the reason that a scarcity of skilled help is imminent. The Government is demanding all the skilled help available, therefore three months hence you may not get the service desired. Get in touch at once with the firms represented on this page, who can at present give you satisfactory service.

When You've Engine Trouble

Let our expert look over the car and he'll put a finger on the trouble immediately, and tell you just what is necessary to make it run right again.

We don't guess—we know. You pay for no experimenting here. When we repair it, we repair it right, it stays right and you're not likely to have the same trouble again this season.

Call us up, all our work is guaranteed and our charges reasonable.

SOME OF OUR SPECIALTIES

Seasonal Overhauling
Electrical Starting, Lighting and Ignition Work
Cylinder Grinding, Oxy Acetylene Welding and Machine Work

Largest Stock of Used Parts in State

We wreck cars and save all the best parts, which you can buy for one-half price.

We have parts for nearly every make of car—bring or send your worn parts and we will duplicate them. If we do not have the parts desired we will use our best efforts to get them. We also carry a side line of new gears, but offer them for sale only when it is impossible to get the used gears in the city.

Announcement by the Radiator Man

I wish to announce that I have recently severed my connection with the firm of Burness & Martin, with whom I served in the capacity of manager for a number of years, and have opened a first-class Auto, Sheet Metal Manufacturing and Repair Shop at 53-55 Ninth St. N., at Davis, in the heart of the automobile district, where I employ only expert mechanics in the manufacturing and repairing of Radiators, Fenders, Gas Tanks, Mufflers, Dust Skirts, Hoods, Windshields, Bent Bodies and Sheet Metal Parts pertaining to the automobile.

BUG BODIES BUILT

Scarcity and high prices of materials demand efficiency, so trust your work only with the man who knows—"the man with experience." Our shop, with superior workmanship and the use of only first-class materials, assures you satisfactory results.

Hoping to renew many acquaintances of past years and meeting all with the same courteous personal attention, I remain, respectfully,

G. G. Gerber, the Radiator Man
