HELLO, Charlie, when did you make the raise? She's class, ain't she?" "Say, fellow, if you think I am going to take an hour to go to my work, stand up and hang onto a strap and pay 6c besides, you're crazy. I bought this for $150 and she runs like a watch, and it will not cost me $8 a month to run it to work and back, and then we can take a drive out in the evening and a big ride on Sunday. My wife and I are going to enjoy life, because some day we are going to be a long time dead."
"Where did you get it?"
"At Conley's Used Car Center. They have some of the best buys in the world and you surely get a square deal. If the car is not as represented, take it back; they will fix it free of charge. Here is a list of some of the good buys they have on hand. If you want a car you will have to hurry, because they are doing a big business all the time:

HOOVERIZE.
The most efficient, the most economical and the shortest way between two given points is a MOTOR CAR.
There is at present a wonderful shortage in manpower, we must keep on doing the same or greater volume of business. Rail transportation is becoming more and more congested. The Government does not want us to stop, but rather expects us to move faster and maintain all manufacturing institutions as well as all commercial enterprises, in the usual way.
If you are not in a position to purchase a new car, we have some exceptional values in used cars which are guaranteed to you and on which you can get terms that are within your reach.
A shortage of new cars is just as certain as can be. Transportation, if nothing else, will be responsible for this shortage. Look to your interests, either come in and have a car put away for you or take it with you.
Let us explain our policy, which is sure to please you.
