

WAR COMBATS RAGE ON ITALIAN FRONT

With Land Forces Held Inactive by Weather, Flyers Battle for Supremacy.

3 TEUTONS BROUGHT DOWN

Fighting Takes Place 12,000 Feet in Air at Temperature of 30 Below Zero. While Crowds on Earth Cheer Victory.

(By the Associated Press.)

ITALIA HAS A DUE PART IN THE NORTHERN ITALY. Jan. 12.—Aerial warfare on an extensive scale is developing now that operations along the Piave River and on the mountain front have become inactive, owing to the wintry conditions.

Three raiders approached yesterday and the crowds in the streets saw a spectacular battle in the sky. The Germans flew at an altitude of 12,000 feet, where they were met by British fighters.

Raiders Are Captured. A great cheer went up from the crowds as a fleet of Italian Capronis made straight for the raiders.

Ruthless Air Raids Made. These days of rain and the recent series of destructive and deadly night raids over Padua, Castle Franco, Vicenza, Mezzate and Monte Belluna, had led to the impression that the enemy had embarked on an extensive air raid.

Under the rule of the late Governor-General von Falkenhausen has increased threefold and the number of prisoners has been increased.
