The morning session, as well as the greater part of the afternoon meeting, was occupied in a discussion of the advisability of participating in the non-partican league movement, particularly with reference to affiliating with the National organization as it is represented by the North Dakota league. The debate was more or less spirited at times, although the only difference of opinion among the delegates was as to whether or not the proposition should be taken up and acted upon at this time.

Senate Military Committee Announces Intention to Put Measure Through, Regardless of Attitude of Administration.

WASHINGTON, Jan. 19 .- President Wilson and Secretary Baker today began studying the Senate military committee's proposed legislation to establish a War Cabinet or three men to assist in general direction of the war and to create a director of munitions.

With but preliminary discussion of the War Cabinet proposal with Secre-tary Baker, the President was repre-sented as not being favorably disposed to the plan because of the belief that it might embarrass his personal direction of war activities.
