ties filled with nitro-glycerine and

CHICAGO, Jan. 19.—The mystery surrounding the identity of the 16year-old girl who was arrested yesterday on her arrival from Youngstown sticks of dynamite, was solved tonight when she broke down and told Federal authorities her name is Josle Lande and that she is from Yegngstown. Secret Code Sought.

An intimation was given that search is being made in connection with the case for a secret code used by German propagandists. The girl tonight told of her arrival

in this country, declaring that she was born in San Luca, a town in Northern Italy. She came to America with her father four years ago, she said.

The dynamite, she declared, was given her by a friend in Youngstown to be delivered to someone in Chicago. She refused to tell the name of the man who gave her the explosive, nor to whom it was to be delivered. A slip of paper bearing a Chicago street address which harteful transition. Porter Detects Danger.

The passengers were placed in another car on the pretext that the heatins apparatus temporarily was out of order. The sutchel then was exam-fined and police notified of its contents.

Collapse of Transportation Is Laid to Failure to Add to Facilities.

CONTROL BY U.S. EXPLAINED

Director-General Appears Senate Interstate Commerce Committee and Urges Passage of Administration's Bill.

WASHINGTON, Jan. 12 .- Directoreneral McAdoo today explained to the Senate interstate commerce committee he operation of Government control of railroads and urged speedy passage of the administration railroad bill by Con-gress in order to clarify the financial situation so as to prepare the way for future Government bond issues. He also asserted that Government operation would be extended to canala and inland waterways if it was con-sidered necessary.

Mr. McAdoo spent more than two hours before the committee, during which he was freely questioned regarding the necessity for Government control of the carriers and the compensation of short line railroads.

Investigations in Progress. Investigations are being made, the not taken over, he declared, will not be compensated and if they suffer dam-ages, redress will have to be obtained in the courts. He said it was not pro sed to keep control of any unneces

sary lines.

Mr. McAdoe said the present railroad organization would continue to be employed as long as it is satisfactory. "I don't feel that the Government ought to employ anybody who isn't necessary," he declared, "but I feel that we should not disintegrate the rallroad organizations unless Congress has decided the future of the railroads." Some Progress Reported.

Director-General McAdoo said som good had been accomplished in the through re-routing, distribution and co-ordination.

Questioned regarding the necessity for Government control, Mr. McAdoo said it was made necessary by the rail-roads' lack of facilities to handle inreased war traffic and their failure co-ordinate properly. Disclaiming any intention to cen

sure the carriers, he said blame for non meeting the transportation situation rested upon them because of their failure to increase their facilities in 1916 and 1917. In those years, he said. TACOMA, Wash, Jan. 19.—(Special.) they spent less for improvements than albert G. Bagley, general secretary in previous years, despite increased

RE you preparing for the A Spring Drive against High

Cost of Living? Portland's back-lot army accomplished wonders in 1917, but how about 1918, when the demand for the growing of the tasty tuber, the odorous onion and the brain-building bean is much more emphatic?

Manure is a plebeian word, hardly mentioned in our best circles, but it's a real aristocrat in relation to crop production. It bears the same relation to successful 1918 back-yard husbandry as does the chorus girl to a musical comedy, and who ever heard of a girlless musical comedy?

If Mrs. Hess, of the Russell Transfer & Storage Company, 263 Russell street, has the right "dope" on the situation, fertilizer is going to play an important part in urban gardening this year. She speaks thusly: "Please renew my ad. It is bringing great results and we are getting many orders ahead for Spring business."

.Of course the "ad" she refers to is a Want Ad in The Oregonian. She is one of the many thousands who have made the discovery that that great clearing-house department of the Northwest's biggest newspaper, the Want Ad Section, is the best possible field for salesmanship effort. The cost is amazingly small and the results are amazingly big. Mr. Want Ad will buy or sell anything for you, from an ax handle to a steamboat. Give him a trial.

an, in a message yesterday to C. N. onacott, associate state director of

Here is a portion of Mr. Simpson's exuberant telegram:

"Clatsop County is flowing over with enthusiasm. You can expect great results here. Following committee appointed at meeting yesterday afternion: Fred Johnson, chairman; John Gratke, vice-chairman; Herman Wise and O. H. Byland, County Superintendent of Schools. These men meet Monday noon to appoint balance of committee from outside places. I spoke at two moving picture theaters last evening to 1000-people."

Testerday Mr. Simpson spent some time in Portland. County chairmen he has thus far appointed in the drive are: Columbia. J. W. Allen, St. Helens: Clatsop, Fred Johnson, Astoria; Clackamas, J. E. Calanan, Oregon City; Coos, Charles Hall, Marshfield; Washington, N. A. Frost, Hillsboro.

These chairmanship appointments are reported for Congressional District No. 2, presided over by Leo Cohen; Baker, D. W. French, Baker, Crook

Woodard, Clarke & Co.

Governor to Be Asked to Call Special State Election.

LEGISLATION IS NEEDED

Men in Service of United States, I Is Urged, Should Not Be Deprived of Right of Franchise, Wherever They Are.

Governor Withycombe will be asked to call a special state election to be held in conjunction with the primary nominating election, May 17, that Oregon voters by the enactment of appropriate legislation under the initiative may provide a means by which soldiers and sallors enlisting from this state may participate in future elections in their home state.

Such a plan was outlined yesterday by the executive committee of the Democratic State Central Committee at

ocratic State Central Committee at a meeting in this city. This committee authorized Colonel Samuel White, chaircial.)—Headed by Chief of Police J. K. man of the state committee, to present the matter to Governor Withycombe Shriners will make a pligrimage to and urge upon him the need for the Portland Monday to greet Imperial Po-tentate Ovenshire; Dr. E. D. Kanaga, enlisted men may not be deprived of a Dr. H. L. Dumble, A. D. Moe, W. F. vote in the selection of state and National officials in elections that are held during their enforced absence from their homes in the performance

S. Smith, H. T. DeWitt, M. M. Hill, W.
E. Sherman, W. A. Schaffner, H. H.
Larkin, C. P. Sonnichsen, P. S. Davidson and C. G. Cornellus.

The members of the executive committee who met with Mr. White yeaterday were: Dr. C. J. Smith, of Portland; R. J. Moore, of Newberg; William Moore, of Pendleton, and Milton A. Miller, of this city, representing Samuel

L. Garland, of Lebanon.

There is no provision in the existing election laws in this state by which troops temporarily away from their homes and places of registration can take part in any election. The Democratic committeemen point out that the law they propose can be submitted under the initiative at a special state election which can be held at the same time and conducted by the same elec-tion officials as the primary nominating election next May without any material additional cost to the taxpayers. diers are to have a voice in the general election next November, when a United States Senator, three Representatives in Congress and several state officials are to be elected. Such an election as is proposed, it is explained, would be entirely legal and effective if the Governor by official proclamation directs

DR. E. G. AUSPLUND, MGR. My Practice Is Limited to High-Class Dentistry Only

Scientific Dentistry Is What I Put in Your Mouth

Science Deals With Known Conditions, Art With the Unforeseen and Unusual.

An accurate knowledge of the SCIENCE of Dentistry is indispensable to every dentist-but he is only HALF EQUIPPED who relies entirely on the knowledge gleaned from text books and imparted at college.

THE ART OF PRACTICING DENTISTRY consists of being able to do the right thing promptly and efficiently when the UNEX-PECTED HAPPENS.

THE SCIENCE may be fairly well mastered in four years in dental college. THE ART is never completely mastered in an ordinary life time. There are thousands of dentists who know what to do when con-

fronted with certain conditions-do it well in most instances, but those who can think quickly and do precisely the right thing in precisely the right way in emergencies are those possessed of originality and initiative, and they are graduates from the same school-the school of EXPERIENCE. Even the simple operation of extracting teeth is so different when performed by the novice and the Experienced Dentist-as to vary

from a laborious, torturing, disgusting spectacle-to the acme of

refinement when the trained hand of the master Dentist deftly and painlessly removes an offending molar in the twinkling of an eye. The Dr. Black method of preparing a cavity for filling partakes of both Science and Art. The technique and routine work are fully laid down by the best Authorities nowadays-but only the EXPERI-ENCED are competent to do the work. It is much like giving instruc-

tions on how to paint a picture. Root Canal fillings and treatment are so difficult that the Dentist who has mastered the Art is practically a Specialist-and there are but few in each city competent to do this intricate work. Knowing WHEN to fill a tooth, instead of crowning it, is neither an art nor a science-it is merely a matter of common sense and

My very low prices for Guaranteed Dental Work have induced many new patients to come to my office-but it was the superior service and satisfactory workmanship of my staff of Dental Asso-

ciates that made them my permanent friends and patients. However, my prices are the least of the many reasons why people come to me for Dental work. The real reason for the growth of my practice is that MY EXPERIENCE has made me proficient in THE ART OF PRACTICING DENTISTRY, and most of my patients would still patronize me if I charged the highest prices-instead of the most

reasonable prices of any Dentists in the City. You never knew of a business or profession that grew year after year by chance, or by questionable methods. When a Dental Practice grows in 10 years from nothing to the largest in the state-the qualities of success were there-even though beyond the comprehension of the ignorant and unappreciated by the envious.
