

CASUALTIES ISSUE RAISED IN SENATE

Resolution Asks Information Relative to Deletion of Addresses.

MARCH GIVES EXPLANATION

Publication of Dead and Wounded Figures Held of Unquestioned Value to Germans—First Expurgated List Is Issued.

WASHINGTON, March 9.—The War Department today issued the first of its expurgated casualty lists, containing the names of one Captain, one Lieutenant and 13 men killed in action, a Lieutenant killed in an airplane accident, one Lieutenant and 13 men dead of disease, a Lieutenant and 22 men severely wounded in action, and 36 men slightly wounded.

The dead and wounded officers:

Killed—
Captain Henry C. McHenry.
First Lieutenant Louis J. Jordan.
First Lieutenant Frank J. Montgomerie.
First Lieutenant Arthur Ward.
First Lieutenant Leslie G. Chandler.
Wounded—
First Lieutenant John H. Greene.
The War Department's order deleting the next of kin, addresses and dates from the lists was officially explained today as having resulted from representations of the French government to General Pershing that the casualties as published in this country made accessible to the enemy valuable information.

Senate Inquiry Made.

At the same time the order of the department was brought up in the Senate, Senator New of Indiana introduced a resolution requesting the department to inform the Senate why the order had been issued; if such information would not be inconsistent with the interests of the service.

Senator New asked immediate adoption of the resolution, but Senator Williams of Mississippi, Democrat, objected and the matter went over until Monday without debate.

In explaining the reasons for the order, Major-General Peyton C. March, chief of staff, made public a paraphrase of the cablegram received from General Pershing recommending the change.

General Pershing said the French government had called attention to the unquestionably valuable information which the Germans could obtain from statements giving the exact number of casualties resulting after a raid, and from official statistics in the form of casualty lists which gave the precise effects of a gas attack. He recommended that the system be changed so as to omit everything which might be of value to the enemy.

Deleting Methods Not Clear.

It could not be learned whether General Pershing specifically designated the features to be deleted or left this to be decided by the department. Nor was there any explanation of a statement in an Associated Press dispatch today from American headquarters that the rule prohibiting the discussing of casualties among the American forces was temporary.

Whether this referred to a prohibition imposed by General Pershing on correspondents in France or to the department's new order was not made clear.

General March explained that the French government specifically designated a casualty list of any kind since the beginning of the war. Instead, the War Office in Paris, as soon as a name is received, notifies the War Office in London from which the soldier came and the Mayor, personally, notifies the soldier's family or next of kin.

The British government, according to the Chief of Staff, issues weekly lists which contain only the information now given out in Washington. The German government long ago discontinued the practice of posting in towns the names of the killed or wounded from those towns.

It is the intention of the department to give out the lists as soon as they are received from abroad. It was explained, "Until further notice" will be published by the Adjutant-General's office, mimeographed copies being provided for newspaper correspondents.

After explaining the department's action, General March today expressed the opinion that "the patriotic press" would sustain the ruling.

committee on public information at Washington.

The bulletin received by the local organization suggests that the Government at Washington has had many indications that the country is spy-ridden. A spy, says the bulletin, may pick up bits of information from each of half a dozen talkative people and, by patching them together, solve facts of great importance to the German government. Millions of people in this country thoughtlessly repeat unfounded stories which have a tendency to breed discontent at home. These stories, it is pointed out, are of undoubted German origin.

President Wilson, recognizing the value of advertising as a medium of great possibilities, has sanctioned the work of the Associated Advertising Clubs of the World, which international organization has been leader in the movement to apply advertising to the needs of the Government. All of the energies of the organization are now bent upon making advertising help. The annual meeting of the association at San Francisco in July will consider this theme one of prime importance.

SPOKANE I. W. W. HOTBED ORGANIZED ASSAULT MADE ON IDAHO AND MONTANA LAWS.

Latah County Comes in For Vituperative Attack and Threat That "Respect Must Be Taught."

SPOKANE, Wash., March 9.—(Special.)—Industrial Workers of the World are directing an organized assault upon the criminal syndicalism laws of Montana and Idaho from the district offices in Spokane.

Conclusive evidence of this is found in today's issue of the Lumberworkers' Bulletin, sent out under a Spokane date. After telling of the new Montana law, which I. W. W. writer accuses as a duplicate of the "famous Idaho law," the bulletin continues: "But we prophesy that the outcome of this new law in Montana will be as void of results as it was in Idaho. A few parasites in session cannot solve the problem of an awakening proletariat and the new law of Montana will fall as sure as a— is a mousetrap."

"Fellowworker W. A. Strom was arrested at Fortine, Mont., a few days ago and charged with this new 'law.' His case, as well as the cases of all others in this district, is being handled by the Spokane branch of the general defense committee."

Latah County comes in for a vituperative attack, with the threat: "It is Latah County, Idaho, that we have reference to and it is about time that the element in this place was taught to respect the I. W. W. a little more than heretofore."

The bulletin declares the recent order of the Department of Labor for the internment or deportation of aliens advocating sabotage or anarchy was aimed at the I. W. W.

CITY FEDERATION MEETS

WAR SAVINGS AND JUVENILE COURT ARE CONSIDERED.

Announcement Made That Grade Teachers Will Have Dish Towel Shower for Soldiers on March 26.

The City Federation of Women's Organizations at its regular meeting in the Portland Hotel yesterday discussed a wide range of topics, including the Juvenile Court, the segregation of literature, war savings or thrift stamps, a special day at the Art Museum as plans to change its own constitution.

Mrs. G. J. Frankel presided and the various committee chairmen made reports. Miss Viola Ortschild announced that March 26 the Portland Grade Teachers will have a dish towel shower for the soldier boys—"A shower, not a drive," explained Miss Ortschild.

Judge Stapleton made an eloquent plea for the federations to take an interest in the Salvation Army drive, to begin March 17, and Judge Stevenson spoke of the importance of the thrift stamp as a means of helping win the war.

Judge Taswell gave a talk on the Juvenile Court, advising the women to favor the plan for a court of domestic relations, but expressed his opinion that this change could not be made hastily. Mrs. Frankel asked the delegates to refer this back to their individual clubs. The segregation of the war emergency council of the Y. W. C. A. that the women request the appointment of six women police was also discussed.
