Increased, beating vigorously all the while. When it gets too stiff to handle I add lemon juice or vinegar, say one or two teaspoons at a time, then oil every time. If only lemon juice and salt are added, this dressing can take the place of butter on bread, and it is very fine.

It is just as easy to make a pint or three cups of oil to the two yolks when about it rather than make it fresh every time. It is made thin with a fork and a piece of oiled paper tied on top, it will keep in a cool place until used up. It is a great comfort to have some ready when it comes to making a salad or tartar sauce for dinner.
