PORTLAND, SUNDAY, MARCH 31, 1918.

SPREADING KULTUR.

The systematic and far-reaching nature of German plans for the dissemination of kultur throughout the world are only beginning to be appre-

clated. It is not, as some have sup posed, of spontaneous growth. The rork of organizing people of German descent in foreign countries into sepa rate units has been carried on actively ever since 1890 by several societies within the German empire, and it also has had the direct support of the Ger-man government. Appropriations for the aid of German schools in other lands, because of their recognized po litical, and even military, value, have been made regularly by the Reichstag. These appropriations at the time the war broke out amounted to 1,000,000 marks a year. Subscriptions by pri-vate citizens of Germany, however, have been even larger. A list of such | henefactions, ranging from 5000 to \$59,000 marks, has recently come into

possession of the American authorities. Americans are indebted to the research of Professor Earl B. Sperry, of the department of history of Syracuse University, for new enlightenment on the subject. The scheme to dominate the world was based upon the organifound, and it gave first recognition to Tound, and if gave must recognition to schools as a factor in the preservation of unity. It has only recently come to light that there were 5240 such schools in foreign lands, of which 491 were in the United States. The number does not include those in the Germanspeaking region of Austria. Measures registering register of Albertin & Artenatives to Germanize Bohemia by stern sup-pression of Czech culture are not taken into account. The list of 5240 schools embraces only those employing the indirect, as contrasted with the sup-pressive, method. There are, for ex-ample, 600 of them in Brazil. Hardly a courter in the ward of some very and understanding of some very method the supreceived official German support.

which provides that a German immi-grant about to be inducted into a forgrant about to be inducted into a for-eign citizenship may receive from a German Consul the privilege of re-of citizens, we are thinking only the newspaper business. One day

THE INDIANS' SIDE OF THE STORY.

As to the differences in the early days between the whites and the In-dians of the Northwest, the effort seldom has been made to tell the story from the Indians' viewpoint. The old-time theory that the "only good Indian was a dead Indian," how "only ever much it may have been founded upon bitter experience with cruelty and trenchery, may not have been applicable to all instances. That there were two sides to the wars of 1855-58 in what is now the state of Washington is strongly and interestingly set forth in "Ka-mi-akin, the Last Hero of the Yakimas," written by A. J. Splawn, a well-known pioneer, who THIRTY BELOW IN MONTANA AND MERCURY STILL FALLING spent his early boyhood in Linn County, Oregon, and was for half a Lewiston, Mont, Jan. 30 .- Thirty degrees below series was the temperature here sarly tenight and the forecast was for even colder weather. Similar severe cold was being ex-perienced throughout the state. There is no charge that the dispatch century a resident of the Yakima country. The work, now published posthumously, is the first sustained attempt to show that the conflict might have been avoided if different measures had been adopted by the

There is no charge that the displat is an untruth, but he says of it: I believe this is, the most imane, sem less impulse that could possibly self thoughtful newspaper man and cannot u derstand any newspaper office that will i duige such a thing, even though there a 50-cent fee for the item to the editor reporter who will put such a telegram on t wire: when it is known that benche in Sa leaders among the whites. The two great men of the Yakima war, says the author, were Ka-mi-akin and Governor Stevens, of the Territory of Washington. The author de-scribes the ploneer Governor as a ire; when it is known that people in East "strong, forceful man, of great abil-ity," but he charges him with mistakes which precipitated a war which might have been avoided. He is, however, also unsparing of his criticism of other white leaders. He thinks that Stevens failed to understand the Indians' desire to act only after due deliberation, and that he was unsympathetic, and forced an issue when delay would have meant permanent peace. This takes us back to the hardly distinguishable from the plant momentous council of Walla Walla, it is desired to preserve, and no tool dians had been storing food against the emergency. Stories had been cir-culated that the new Governor had ome West with the avowed purpose of driving the Indians from their lands

All inquiries, promptly made, failed All inquiries, promptly made, failed to reveal whence came this denisen of the deep. Moreover, no tripe could be found in the exclusive fish markets of the city. Nor could any of the stores handling fishing tackle say what sort of bait should be used.

But the Pacifist Board of Scientists has resources of its own. The board is positive that it will be able to bring back several tripe from its fishing excursion and will then promptly study and classify them for the particular enefit of newspaper writers in need of brain food.

Another Fuscinating Mystery.

Unfortunately, owing to the abo from the city of the Pacific Pacifist from the city of the Pacific Pacifist Board of Scientists, no solution of the fascinating and complicated problem submitted below can immediately be given. Without any doubt, however, it will detract much from the interes the forthcoming total eclipse of the

PORTLAND, March 28 .- (To the Architect.)-Fm worried and puzzled. "Next Sunday morning (Easter) "Next Sunday morning (Easter) we move our clocks and watches ahead ne hour.

one hour. "How many hours long will Easter Sunday be-23, 24 or 257 "By moving our watches ahead an hour, we naturally are stealing one hour's actual time from the day. Hence, Easter Sunday will be only 23 hours

"But the solar day will still have 24 "But the solar day will still have is hours' length, for moving our clocks or watches one way or the other will have no effect on the phenomena of nature. Hence, Easter will be 24 hours long. "But, again, if we move our time-pleces ahead an hour, we certainly have added one hour of apparently elapsed time to the day, so, of course, Easter Sunday will be 25 hours long. "As I said before, I'm flabbergasted. "BILL STRANDBORG."

Down With 15-Cent Shine,

Senator Gluten is delivering a series of lectures on "The 15-Cent Shine and the Return to Wooden Shoes." Senator Gluten spoke at the Fairview school-house Wednesday and at Oak Grove

Thursday. The charge is made by Senator Glu-ten that the week-end increase in the price of shoe shines is the result of a conspiracy between the bootblacking trust and the Greek letter fraternities. The only way to combat this imposi-tion, in his opinion, is for overybody to wear shoes that do not have to be polished. He also advocates abolish-ment of the minimum wage board be-cause that body has taken no steps

cause that body has taken no steps to correct the great wrong. Senator Gluten declares that it is the God-given privilege of the honest farmer, when he comes to town, to be able to ait in an easy chair and have someons else black his boots for a change. Anything that interferes with the privileges of the farmers strikes of the heart of Senator Gluten. at the heart of Senator Gluton,
