

HOQUIAM MILLMEN
LOYAL AMERICANSGrays Harbor Membership in
Loyal Legion of Loggers
Is 100 Per Cent.

WAR DECLARED ON I. W. W.

Lumbermen Join in Crushing Sabot-
ists and Agitators in Northern
Woods—70,000 Men in Oregon
and Washington Members.HOQUIAM, Wash., April 27.—(Spe-
cial).—Hoquiam mill workers are 100
per cent loyal. Hoquiam mills without
exception have a 100 per cent member-
ship in the Loyal Legion of Loggers
and Lumbermen, a fine record, one of
the best yet reported.Such is the statement of First Lieut-
enant Walter S. Johnson, Signal Corps,
aviation section, United States Army,
and he should know, for he is in charge
of Loyal Legions and their organiza-
tion for the Grays Harbor district,
which includes all of the territory
from Onalaska, in Lewis County, to
the Pacific Ocean, and from Lake Quin-
ault on the north to North River, south
of Grays Harbor.The Loyal Legion of Loggers and
Lumbermen is the great civilian army
of the Northwest, enlisted and or-
ganized by the Government to meet
the needs of the times and stimulate
the production of airplane spruce and
timbers for the Government's wooden
shipbuilding programme. That civilian
army numbers some 55,000 men of the
approximately 70,000 employed in the
logging camps and mills of Western
Washington and Oregon, and the Grays
Harbor district, one of the most im-
portant, has about one-tenth of the
total enrollment.Organization Began in November.
Organization of the Loyal Legion
was begun last November, the first
legions being formed in the Columbia
River district. It was pushed rap-
idly as possible and spread rapidly
throughout the lumbering districts of
the two states. The loggers and men
employed in the mills have become
enthusiastic in its organization, as they
saw in it a weapon against the activities
of the Industrial Workers of the
World, which would help to speed up
production of the materials the Gov-
ernment needed so urgently in the
prosecution of the war. All knew that
Industrial Workers of the World, more
than any other agency, or in fact more
than all other agencies, were responsi-
ble for delays in airplane spruce and
ship timber production, but there was
no organized means of combating
their activities.Colonel H. P. Dugas, chief of air-
plane spruce production, in his efforts
to speed up production of the material
absolutely necessary to carrying out
the Government's great air programme,
went direct to the men themselves in
the organization of the Loyal Legion.
How well his efforts and those of his
officers have succeeded is shown by
the increased production throughout
the Northwest of both airplane spruce
and shipbuilding material and by the
almost entire elimination of the activi-
ties of the Industrial Workers and as
a matter of fact the elimination of
these men from the woods and mills.L. W. W. Shown Duty.
Members of the I. W. W., through the
organization of the Loyal Legion of
Loggers and Lumbermen, have been
brought to see their duty to their
Government and have quit the red car
organization, renewing their allegi-
ance to the American Government, or
have been driven from the woods. A
few still remain in some places, but
their activities, whether propaganda
or sabotage, have been reduced to a
minimum. The Loyal Legion members
will not tolerate their acts of disloy-
alty.The Loyal Legion of the Grays
Harbor district, Lieutenant Johnson
said, is the organization which has
taken as its illustrations of the enlist-
ing of this great civilian army throughout
the Northwest.Lieutenant Johnson has organized
135 legions in the Grays Harbor dis-
trict, including 45 mill crews and the
men in 30 logging camps. In these
are enrolled upwards of 8000 members
of his part of the civilian army of the
woods and mills. He has organized
every camp and mill in the immediate
Grays Harbor district and in a num-
ber has the satisfaction of having re-
ports of 100 per cent membership, but
it is understood that Hoquiam is the
only place where all of the mills can
claim a 100 per cent membership and
it is believed here it is the only place
of size that holds such a record.Extension of the legion organiza-
tion is going on steadily and new mem-
bers are being added to the roll
of honor. The method of organization
is to appoint as a secretary in each
mill or logging camp a man of known
patriotism and ability and through him
the men in the crew are enrolled. The
method has been very successful. There
is no other officer than the appointed
secretary.

Camp Lewis Notes.

CAMP LEWIS, Tacoma, Wash., April
27.—More than 300 men of the new
draft were sent through the medical
specialist building of the military
office at Camp Lewis today as a pre-
liminary to their entrance into the mili-
tary activities of the National Army.
It is on this examination and the
and examination in the mustering of-
fice later that the definite acceptance
into the service or the discharge for
physical disability rests, and the new
little chance for a man with something
vitally wrong with his anatomy to
escape the attention of the doctors. Ex-
amination by the War Department de-
board will be begun Monday and the
recruits will know before they reach
the end of the building whether they
are to be soldiers or not.When the men first enter the build-
ing occupied by the specialists they are
examined for defects in the feet. Then
they are taken before the heart and
lung specialists, where they are sub-
jected to a careful examination for dis-
eases of the heart and lungs. Brain
specialists also conduct an examina-
tion, and there is a laboratory in the
building where diagnosis can be made
for disease.One of the most interesting of the
experiences before the examining board
is the X-ray examination. The re-
cruits are marched into a dark room,
a half dozen at a time, and submitted
to the X-ray for heart and lung trouble
and any affection of the bony structure
of the chest and spine. It is here that
most of the cases of tuberculosis are
discovered. Doctors say the X-ray will
reveal tuberculosis symptoms where
ordinary methods fail.The percentage of rejections for
physical disability is far smaller than
in the first draft. Under the present
regulations about 3 per cent are re-jected, whereas heretofore the rejec-
tions have run from 12 to 16 per cent,
officers say.Provisions for limited service men
and greater care in the examination by
district and local boards is said to be
responsible for the decrease in rejec-
tions.Nine hundred and eighty-seven men
were to be accepted into the National
Army today. They came from Wash-
ington, Oregon, Montana and Idaho.
Tomorrow is to be a big day for the
receiving station of the casual office,
more than 1800 being scheduled for
appearance at camp. Monday will be
the biggest day, with the number of
arrivals passing the 2000 mark. All
of the 2021 men of the new draft should
be in camp before the end of the com-
ing week.Work is to begin in a few days on
the new Y. M. C. A. home for con-
valescents to be constructed near the
base hospital, it was announced today.
The building will be located near the
hospital heating plant and easily avail-
able, so that it can be operated in con-
nection with the hospital. Every effort
will be made to provide comfortable
and home-like surroundings for the
convalescent soldiers, and there will be
a smoking room, auditorium and socialLieutenant Walter Samuel John-
son, in Charge of Loyal Legion
Organization in the Grays Har-
bor District.room in conjunction, where the men
can meet their women friends and relatives.It was the ninth inning instead of
the seventh that was the crucial hour
for the first game of the season today
of the Camp Lewis baseball team. A
walk and three hits broke a 9-to-9 tie
in the last inning and the Aberdeen
team, of the Pacific Coast Interna-
tional League, was beaten. Schmutz,
Malle and Arulliger were the battery
and the soldiers, and Shadler, Canozzi
and Roland for the visitors. The same
teams will play at camp tomorrow.The new ball park, on the site of the
old divisional athletic field, was com-
pleted barely in time for the game, and
a large crowd, mostly soldiers, waited
until nearly time for sounding of re-
treat before the game could be de-
cided.The new ball park, on the site of the
