U. S. GUARD FORMING

Twenty-Five Battalions Will
Be 15,000 Men Strong.

CARTER TO BE IN COMMAND

Those Disqualified Physically for
Regular Military Service El-
gible—Some Volunteers
Acceptable.

WASHINGTON, May 11.—Organiza-
tion of the United States Guard was re-
sumed today by the War Department's
militia bureau. The Department has
placed at the disposal of Major-General
Jesse M. Carter, chief of the militia
bureau, 12,000 drafted men who after
training with the National Guard or
National Army divisions have been
found disqualified physically for gen-
eral military service.

It is intended to recruit 25 battal-
ions of four companies each, a total of
15,000 men. When the project was
first approved some weeks ago 12 com-
panies were organized and are now
in service.

Volunteer enlistments will be ac-
cepted to a limited degree through the
regular Army recruiting offices, but
only men who have had prior mili-
tary service and who can produce the
best discharges will be eligible.

The 25 battalions will be distributed
among the military departments as fol-
lows:

Northeastern Department, 9; South-
eastern, 2; Central, 2; Southern, 5;
Western, 4.

There will be required in all 115 of-
ficers and these will be commissioned
on recommendation by General Carter,
who will base his action on the result
of examinations conducted by boards
convened by department commanders.

The services of the organization will
be utilized to release an equal number
of Federal troops now engaged in
guard duty at munition plants and
shipyards. The men in the force will
not be used on the battlefields of
Europe "for the present," officials of
the War Department said.

SOLDIER RAISES \$25,000

Tacoma Man Helps Liberty Loan
Campaign in New York City.

TACOMA, Wash., May 11.—(Special.)
—John Allen, Tacoma soldier stationed
at Camp Mills, Long Island, raised
\$25,000 for the third Liberty loan in
a New York theater the other day. A
flying squadron from the campaign was
going through the audience seeking the
soldiers from the point farthest from
New York. Allen was the man. "Who
will buy a bond to get this boy
across?" the audience was asked.

"Uncle Sam has enough money to
get me across, but where will he get
the money to enable me to get back,"
Allen spoke up.

"I'll buy \$10,000 worth of bonds to
see that this boy gets home," said one.
"I'll take the same," asserted an-
other. "Put me down for \$5000,"
called a third.

5 MILLION TO SERVE

Huge Army Expansion Within
Year Predicted.

OVER 1,300,000 DRAFTED

Mobilization to Continue Steadily
Through Summer and Fall as
Cantonment Facilities
Permit.

WASHINGTON, May 11.—More than
1,300,000 men have been called in the
draft so far and either are in France
in camp, or under call to go into service
before June 1. The total of 1,300,000 in-
cludes all men summoned in the May
contingent.

There is every indication that even a
larger increment will be summoned in
June than was summoned in May, and
a progressive monthly mobilization
continue through the Summer and Fall
months as the cantonments are ex-
panded.

It is thought that at such a rate the
Army will report a full strength of
well over 3,000,000 within the next 12
or 13 months. It is possible, some of-

ficers say, that the number will be
closer to 5,000,000 than 3,000,000.

Although American troops are going
overseas in large numbers the Or-
dnance Department has been able to keep
up with the new programme, and every
soldier who boards a transport is fully
equipped with arms, the ordnance
bureau announced today.

Artillery and machine guns already
are in France in sufficient quantities.
It was said, to meet immediate needs.

The statement said:
"The Army Ordnance Department has
thus far met every demand imposed by
the new programme for overseas ship-
ment of American troops.

"Despite the great acceleration in the
sending of American forces to France,
no infantryman goes aboard ship with-
out a model 1917 rifle (modified En-
field), bayonet belt, haversack, pack
carriers, bandoliers, bayonet scabbard
and full mess equipment.

Ship Supply Inadequate.
"Tonnage is today a limiting factor
in the shipment of ordnance material
overseas, especially because of the
present necessity of increasing the
transport of infantry regiments.

Sufficient supplies of artillery, French
75-millimeter and 155-millimeter and
American heavy railway artillery, are
already in France to meet the present
demand. Sufficient machine guns are
also immediately available for Amer-
ican forces in France."

Tacoma to Handle Whale Oil.

TACOMA, Wash., May 11.—(Special.)
—The North Pacific Sea Products Com-
pany took out a building permit in
Tacoma today for the construction of
a number of oil tanks for the storage
of whale oil, which will be brought
from the company's whaling stations
in Alaska. Whale meat will be sold
here also.

ROSE WAR NOVEL IDEA

WHITES AND REDS TO FIGHT FOR
RED CROSS SUPREMACY.

Teams in "City Center Company" to Be
Divided into Division Distin-
guished by Flower Worn.

Portland is to have its "War of the
Roses."

While there will be no Rose Festival,
yet there will be an stirring battle of
the "whites" and "reds" as the Yorks
and Lancasters ever knew. It will be
a bitter, cold and merciless struggle
for existence. The plum to be awarded
will be leading Red Cross honors in
the second war fund of the American
Red Cross.

Following a suggestion by Robert H.
Strong, the teams in the "City Center
Campaign" will be divided into divi-
sions—the "whites" and the "reds." The
"reds" will wear red roses and the
"whites" will wear white roses.

City Chairman Wilber E. Coman is
already facing the problem of "red"
leaders, trying to use business affilia-
tions to induce "white" captains, lieutenants,
sergeants, corporals and privates
to desert color and vice versa.

The novel idea of reproducing the
medieval war of the roses in 20th cen-
tury, Portland has created immense en-
thusiasm among Red Cross leaders.
