However, he redoubled, and A, who fully realized by this time the difficulties which his rash double had brought upon him, as the one and only chance of saving the rubben made the desperate bid of "two spades." Z also by this time realized his mistake, but the only thing now left him was to double the adverse declaration. The result was that A-B went down two tricks and Z-Y scored 200 plus honors. or 218. This score, however, was in the honor score, and considerably less than the rubber would have brought them. And at one time rubber was

The bidding went on between B and Z until Z had called "five hearts," which B doubled—in all respects a most unwise double. Z bid "a heart," A "a spade," Y and B passed, Z said "two hearts," A "two spades," and thus it went on until A had called 'four spades." Y, who A had called four spades." Y, who had been simply biding her time, until the contract should be big enough, now doubled, as she saw the prospect of a much bigger score at the double than at her partner's heart. She trusted, of course, that her partner would understand her policy and post interference. of course, that her partner would understand her policy and not interfere with the double, but not so. Carried away with his glittering array of trumps and apparently obsessed with the belief that they could take tricks far in excess of their ability to do, he went to "five hearts." This closed the bidding, A being only too glad to escape the dangerous spade double. The moment the dummy hand came down Z realized his error, but it was then too late to rectify it and all he could do was to make the oest of a bad situation. His partner was unable to take a single trick, and as he had four losing tricks in his own hand, two diamond tricks, one spade trick and one club trick (a fact which upto this time had apparently escaped him), he made simply his eight trumps and the ace of clubs, in curing a penditty of 100. Since the days of splender have passed, or at least have been suspended, many of our best interior decorators are drawing for inspiration on the self-made schemes of country folk.
