

Dear Eddie
Herbert Spencer says "Life is perfect adjustment to one's environment." Harry Drummond says "Happiness is perfect harmony with one's correspondences." That's me, isn't the guy - all except my bad judgment about picking out things to do. When I think I'm going to make a hit it's the time ma always makes me I don't care - I'm going to be happy whatever else betide - yours Buster Brown.

"COME ONE, COME ALL!" AND THEY DID.
