REED COLLEGE GETS LARGE ENDOWMENT

Man, Whose Name Is Withheld, Gives $200,000 for Re-Education of Soldiers.

FEDERAL APPROVAL NEEDED

School Will Be Strictly Modern and Probably Will Include Largest Convalescent Hospital in the West; Work to Expand.

An endowment of $200,000 has been received by Reed College from a donor whose name is not made public at this time. The endowment is to be used for equipment of a school for the re-education of returned soldiers. This is the only school of its kind now being planned for in the West, though there are several institutions of this nature on the Atlantic Coast.

In addition to the endowment, Reed College also has been offered extensive grounds and buildings in the city which will be used for housing the school.

With the large endowment pledged and the grounds and buildings promised, Reed College is ready to extend its war work to the new field. It now remains only for the War Department and the Federal Board for Vocational Education to determine when and under what conditions the college may be used for training the wounded men for new careers.

College Work to Expand.

The school for the training of reconstruction aides to assist returned soldiers to recover the use of their functions, which Reed College is conducting on the campus and at the Lewis House clinic, has been regarded from the outset as only one phase of the work of rehabilitation. Plans for the organization of the new department of re-education have been quietly developing for the last 12 months. The new department will fit in with the reconstruction aide work. Along with the treatments by means of remedial exercises, massage, and hydro and electro therapy, the remedial workshops in which the convalescent soldiers will be directed in work which has both a vocational and remedial value will be operated.

When President Foster was in France and England last Fall he studied the methods, equipment and achievement of the principal schools of re-education. Since that time he has been in touch with the progress of similar agencies in Canada and has had in mind establishing such a school at Reed College at the earliest possible moment. The remedial workshops to be conducted under the new endowment will be a part of the reconstruction war work of Reed College, and will include the training of reconstruction aides and the recalling of returned soldiers to new ways of earning a living.

Donor's Name Is Withheld.

A man whose name is not made public has kept in close touch with the school for reconstruction aides and with developments in Washington and has provided the endowment for the new department to be conducted by Reed College in co-operation with the Government under such conditions as the War Department may prescribe.

The grounds and buildings in Portland, which have been offered for the use of the school, are well located and suitable for use as a branch hospital and a group of remedial workshops.

After much discussion in Washington it has been decided to turn the work of reconstruction over to the department Federal Board for Vocational Education. This board has telegraphed Reed College that plans will be worked out in due time so that the board may take advantage of the offer of the college. It is probable, however, that it will be possible to care for all the returned soldiers during the next few months at institutions already established on the Atlantic Coast. Experience has proved that the needs of the wounded soldiers will ultimately demand the use of institutions in every part of the country. The work in England and France is nation wide and will be even more necessary at the conclusion of the war.

Convalescent Hospitals Planned

The re-education of soldiers includes instruction in new trades and professions where the loss of limbs will not interfere with the work, and in the education in the use of limbs and arms. Some of the things that have been taught are poultry-raising, machine work, woodwork, bookkeeping, drawing, typesetting and numerous other trades.

To be of greatest value, the re-education work must go on at the earliest possible moment of convalescence. So the Reed College school will probably include a convalescent hospital, where reconstruction aides can rehabilitate the soldiers at the same time they are convalescing. Men who can possibly be trained to go back to their old occupations will do so.

In cases where a man is so badly injured that he cannot go back to his former occupation effort will be made to train him for the vocation for which his previous training and experience has best fitted him.

FRAUD CHARGED IN SALE

Buyer of Interest in Business Seeks to Recover Money.

That he was fraudulently induced to purchase a half interest in a soft-drink stand and confectionery at $1500 when it was worth only $700 is charged by Sam Politis in a suit filed yesterday in the Circuit Court against Nick Raptakis and T. Raptakis, brothers. The plaintiff alleges the defendants took advantage of his ignorance of property values in getting him to purchase an interest in the place.

"They told me I could double my money in three months, but I cannot break even," declared the plaintiff. "They said the business ran from $90 to $60 a day, while it amounts only to $30 or $40, and this is barely enough to pay expenses."

The plaintiff asks recovery of $1150, which, he says, the defendants wrongfully and unlawfully procured from him in the sale of the store last April.

COOS COUNTY PIONEER 81

Daniel Giles, Who Crossed Plains in 1852, Dies at Myrtle Point.

MARSHFIELD, Or., July 20.—(Special.)—Daniel Giles, whose death occurred recently at his home at Myrtle Point, is said to have been the oldest Coos County pioneer at the time of his death. Mr. Giles crossed the plains in 1852 and settled in Coos County in 1853, having thereby been a resident here for 65 years.

He was 81 years of age and left a widow and nine living children: S. C., of Arizona; J. H., of Marshfield; Mrs. Daisy Short, of Myrtle Point; Mrs. H. H. Harris and Claude Giles, of Myrtle Point; Mrs. R. H. Dickey, Arizona; Mrs. Julia Stewart, Powers; Daniel Giles, Powers, and Lieutenant Clark R. Giles, with the American expeditionary forces in France.

In early days Daniel Giles and T. M. Herman were partners and brought into the county the first mowing machine and the first thresher. He also served in the Indian war during 1855 and 1856.

MUNICIPAL BAND TO PLAY

Attractive Programme Arranged for Washington Concert.

An unusually attractive musical programme will be presented to music lovers of Portland this afternoon at Washington Park by the Municipal band, under the leadership of Percy A. Campbell.

The programme follows:

Anthem, "The Star-Spangled Banner"; march, "Over the Top" (O'Hara-Clark); overture, "Mignon" (Thomas); three new song hits (Remick & Co.), "Cheer Up, Father, Cheer Up Mother," "We'll Bing! Bang! Bing 'em on the Rhine," "On the Road to Home, Sweet Home," by request; suite, "Atlantis" (Sefranck) by request. (The Lost Continent). (I) "Nocturne and Morning Hymn of Praise." (II) "A Court Function." (III) "[illegible] Love Thee" (The Prince and Anna). (IV) "The Destruction of Atlantis." Intermission. Excerpts from the operetta "Jack o' Lantern" (new) (Ivan Caryll): "Forest Echoes" (Kiesler), by request; "The Musical Critic's Dream" (E. Asa Dix), a modern melody among old composers: (1) the theme, (2) "Song Without Words" (Mendelssohn), (3) "Gloria," from "Twelfth Mass" (Mozart), (4) "Nocturne" (Chopin), (5) "Sonata Pathetique" (Beethoven), (6) "Cujus Animam" (Rossini), (7) "Surprise Symphony" (Hayden), (8) March, from "Tannhauser" (Wagner); songs of the allies; community sing, "America."

Note—Next concert at Forestry building, Tuesday evening, July 23, 8 o'clock. Take Twenty-third-street car.

YOUNG AUTO THIEF IN JAIL

Idaho Lad Runs Away to Enlist and Gets Into Trouble.

Ralph B. Nellson, aged 19, was sentenced to three months in the County Jail by Judge Tucker yesterday after admitting the theft of an automobile several weeks ago. The boy was permitted to plead guilty to simple larceny in order to escape a penitentiary sentence. The court was averse to branding him a felon because of his youth.

Nellson ran away from his home in Idaho early this Summer and came to Portland to enlist in the Army. He could not pass the examinations and was rejected. He then took the automobile and drove the car to Corvallis, where he was attempting to sell it when arrested.

YOUTH TIRES OF INACTION

Hood River Boy Quits Battleship for Patrol Service.

HOOD RIVER, Or., July 20.—(Special.)—The inactivity of the large battleships has palled on Lowell Nickelsen, son of C. D. Nickelsen, of this place. For months he has been trying to obtain a transfer to a submarine chaser. In a letter just received by his father he announces that he has started for active patrol service.

The young Navy man, less than 20 years old, quit the Hood River High School to enlist last year. After a course at Harvard University he was assigned as a radio man aboard the U. S. S. Virginia.

RETIRED RANCHER DIES AT SEASIDE.

Alfred Allen.

Alfred Allen, who died suddenly of apoplexy recently at Seaside, Or., was a retired stockman and rancher of Eastern Oregon. He was a resident of Portland, having lived here since 1906, during which time he has taken care of farming interests in Linn and Lincoln counties and other sections of the state. Mr. Allen was 58 years of age.

He was a son of the late B. F. Allen, pioneer stockraiser, who passed away last December. Mr. Allen is survived by a widow and two daughters by a former marriage—Mrs. Rose Robinson, of Prineville, and Mrs. Ormond Bean, of Eugene.

FIRES SOON SEEN

Sixty-Five Men Always on Lookout for New Blaze.

QUICK WORK SAVES TIMBER

Rangers of Forest Service in Glass Houses on Summit of Lofty Mountains Ever on Watch for Smoke Bubbling Through Clouds.

Sixty-five men in Oregon and Washington forests work 24 hours a day to prevent fires by spotting them before they grow to dangerous proportions.

In 65 glass-enclosed lookout houses on the highest peaks in the National Forests these men are doing their work of fire prevention every day in the year. Many fires start in these warm dry days but many are prevented from spreading by the quick work of the forest ranger sitting in his glass house always on the job.

Nothing escapes him. Last year a party of foresters went up Mt. Adams to make a survey of the country preliminary to establishing a lookout house. After they had broken up their camp they burned the fir boughs on which they had slept so that the danger of fire from them would be done away with.

Smoke Seen 55 Miles.

Fifty-five miles away on the summit of Mt. Hood, a forest ranger in his glass house saw the smoke from this little blaze and sent in the alarm by his telephone. It was only a small bonfire and it was carefully watched by the officials of the forest service, but it was just as carefully watched by the alert forester 55 miles away in his glass house. Nothing escapes the lookout man. He is always ready to report a blaze which makes a smoke, no matter how insignificant it may be. And so he is worth more than any other agency for fire prevention in the forest.

The higher the mountain on which the lookout house is located, the better view the lookout man has. Where the house is comparatively low, nothing can be seen because of the clouds. Where it is high above the clouds, the smoke can be seen bubbling through the clouds and with his fire finder up in the cupola of his lookout house the lookout man locates the flame and telephones to the nearest ranger station. The Osborne fire finder, which is a part of the standard equipment of every ranger station in the United States and in parts of Canada, is the invention of W. B. Osborne of the Portland district forest office.

House Made in Sections.

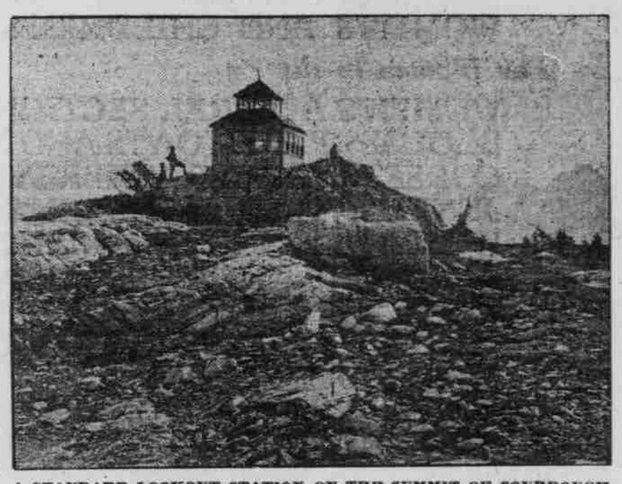
The new forest ranger lookout house is made in sections ready to put up and is easily taken up the mountains without waste of wood and without excess weight. The whole house weighs but 5000 pounds and can be taken up on pack ponies and in some cases with pulleys.

To assist in the fighting of fire, the Forest Department has built 4250 miles of trails in Oregon and 3600 miles of telephone lines. Practically all timber of the state is in sight of some lookout house and connected with ranger stations by fire trails and telephone communications. In many sections of the country where there are campers, forest patrols are maintained. These men keep on the lookout for fires on their daily rounds and carry a telephone with which to communicate with rangers in cases where they cannot put out the fires which they discover.

In fighting fire a trench is dug around the burning section and trees are felled into the blaze so that the flames will not be carried over into the green woods beyond the trench.

The highest lookout station in Washington is that on Mt. Adams, which is 12,047 feet in elevation, the highest in the United States.

LOOKOUT STATION FROM WHICH FOREST RANGERS DISCOVER AND LOCATE FOREST FIRES.



A STANDARD LOOKOUT STATION ON THE SUMMIT OF SOURDOUGH MOUNTAIN.

LABOR DEFEATS PICNIC

PROGRESSIVE BUSINESS MEN'S CLUB TO PICK PRUNES.

President Hilton Announces Organization Will Travel to Dundee to Help Orchardists.

Instead of taking the usual annual picnic, 400 members, more or less, of the Progressive Business Men's Club, will tour or travel by train to the vicinity of Dundee, Or., and pick prunes for a day or two.

All money derived from the work will be donated to the Red Cross.

This announcement was made yesterday by Frank H. Hilton, president of the club, following a meeting of the board of directors, who took action which undoubtedly will meet with the greatest favor and may result in similar action on the part of other business organizations of the city in their efforts to help the Oregon farmer and orchardist harvest their crops this year.

The dates of the big "harvesting-picnic" have not been set, but the club will await word from J. W. Brewer, who has volunteered to inform the club when the prunes are ripe.

Toutle School Board Elects.

CASTLE ROCK, Wash., July 20.—(Special.)—The Toutle School Board has elected the following faculty for the ensuing year: Joseph Gardner, principal; Mrs. Josephine Converse, of Bellingham, assistant; Miss Alberta Getsman, of Chehalis, upper grades; Miss Bertha Lapham, primary.

In the United States camps and cantonments the Y. M. C. A. gives more than 6000 entertainments every month.

Ellen Amelia Reasoner Hull, Oregon Pioneer of 1852, Dies at Brownsville.

PIONEER OF 1852 DIES

ELLEN AMELIA REASONER HULL PASSES AT BROWNSVILLE.

Born in Illinois in 1843, Plains Crossed With Father at Age of Nine Years, Five Children Are Living.

Ellen Amelia Reasoner Hull, pioneer of Oregon, who crossed the plains with her father and his family in 1853 at the age of 9 years, died at her home in Brownsville, Or., July 12. She was the daughter of Rev. and Tryphena Reasoner and was born in Illinois on September 1, 1843. She received her education at Pacific University, Forest Grove.

December 4, 1876, she married William M. Hull. She is the mother of five children, all of whom are now living. She was a member of the Presbyterian Church from the time she reached the age of 15 years.

Besides her husband, Mrs. Hull is survived by her children, Mrs. Dr. E. W. Howard, Brownsville; Mrs. Winifred Springer, Portland; W. M. Hull, Jr., Bellfountain; Mrs. Robert Smith, Albany; Mrs. Ivan Hawley, Alpine; four brothers, Frank Reasoner, Guinda, Cal.; J. C. Reasoner, Portland; Henry Reasoner, Bellingham, Wash.; Rev. R. F. Reasoner, Winters, Cal.; and three sisters, Mrs. Lucy Hawley, Cleveland, O.; Mrs. Mary C. Cole, Canby, Or., and Mrs. Martha Storment, Walterville, Or. There are also 11 grandchildren.

School Principal Rural Carrier.

LA CENTER, Wash., July 20.—(Special.) — Professor Carl Landerholm, principal of the local high school, and Miss Marjorie Headley, a high school pupil, are serving as rural mail carriers from this office during the Summer vacation.

Science Never Stops

Here is It's Latest Product

CHARLES C. GATES, E. M.

The Puncture-Proof Tire

To advance the art of tire building, it was first necessary to discover a new principle in the science of tire construction.

Charles C. Gates discovered that principle, and applied it when he built the first Gates Half-Sole Tire. Today Gates Half-Sole Tires are revolutionizing the whole tire industry. 300,000 car-owners---the largest business firms in the country have adopted them as regular equipment; and by doing so they have cut tire expense in half.

Gates achieved a scientific triumph in the Half-Sole Tire.

First, he succeeded in relieving the fabric carcass from the double strain of inflation pressure and road impact. He protected the fabric carcass from stone bruise and the shocks of the road. He protected it from the moisture which ordinarily soaks to the fabric through tiny cuts and nail holes, and rots it.

Second, he enabled every motorist to enjoy the security of puncture-proof tires, and save money while doing so.

Motorists thought that the rubber tread determined the life of a tire; but Gates proved that a tire will last as long as the fabric carcass is preserved, sound and whole.

Such is the achievement of the Gates Half-Sole Tire.

The result is that you can get 5,000 to 15,000 additional miles of service from the same tire you have been throwing away merely because the tread was worn; and the great factory at Denver has been doubled and redoubled to take care of the demand.

Gates Half-Sole Tires are puncture-proof---guaranteed so by the maker---and yet they cost only one-half as much as other guaranteed tires.

Investigate before you buy another tire.

There are Gates Authorized Service Stations in over 700 cities. The following will serve you in this territory:

Sleeps Any Old Way Now

"I am 50 years old and never was sick until 8 years ago, when I got stomach trouble. I have spent a fortune for medicine which did not cure. I kept on suffering and getting worse. A fellow worker told me about Mayr's Wonderful Remedy. After taking three doses I felt like a different man; before taking it I could not lie on my back nor right side. Now I can sleep any old way." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Owl Drug Co. and druggists everywhere.—Paid Adv.

HOW HE QUIT TOBACCO

This veteran, S. B. Lamphere, was addicted to the excessive use of tobacco for many years. He wanted to quit, but needed something to help him.

He learned of a free book that tells about tobacco habit and how to conquer it quickly, easily and safely. In a recent letter he writes: "I have no desire for tobacco any more. I feel like a new man."

Any one desiring a copy of this book on tobacco habit, smoking and chewing, can get it free, postpaid, by writing to Edward J. Woods, 12 N. Station E., New York City. You will be surprised and pleased. Look for quieter nerves, stronger heart, better digestion, improved eye-sight, increased vigor, longer life and other advantages if you quit poisoning yourself.—Adv.

JUST THINK OF CADOMENE

When You Find You Are Losing Out in the Game of Life.

Worn-Out, Nervous Men and Weak, Bloodless, Anaemic Women Have Found New Strength and Vigor in Taking Cadomene Tablets.

A well-known writer on physical culture says: "You cannot run a high-powered engine without fuel. You cannot get much speed without plenty of steam. You cannot get up much steam without plenty of coal and a perfectly working furnace (body). Similarly, in your own case, the internal 'works' must be sound and working properly."

That tired feeling — do you know what it means? It means that digestion and nutrition are lacking. It means that your blood and nerves are impoverished. It means that slow but sure decline in your vitality will surely ensue and real sickness will overtake you, unless you bestir yourself in overcoming the weakness of the organs responsible. This is not written to frighten. In reality it expresses logical facts. Cadomene Tablets, the favorite prescription of a great physician, are made and sold by druggists for people who need help for nature's forces owing to ignorance, neglect or dissipation of one kind or another. Every package is guaranteed to please or money back.

For sale by the Owl Drug Co. stores and all other druggists.—Adv.
