### Special Committee of Liberty Loan Workers Considering Unscrupulous Activities.

## BOND PROFITEERING SEEN

#### Speculators Said to Be Engaged in Discounting Liberty Bonds in Connection With Real Estate and Other Transactions.

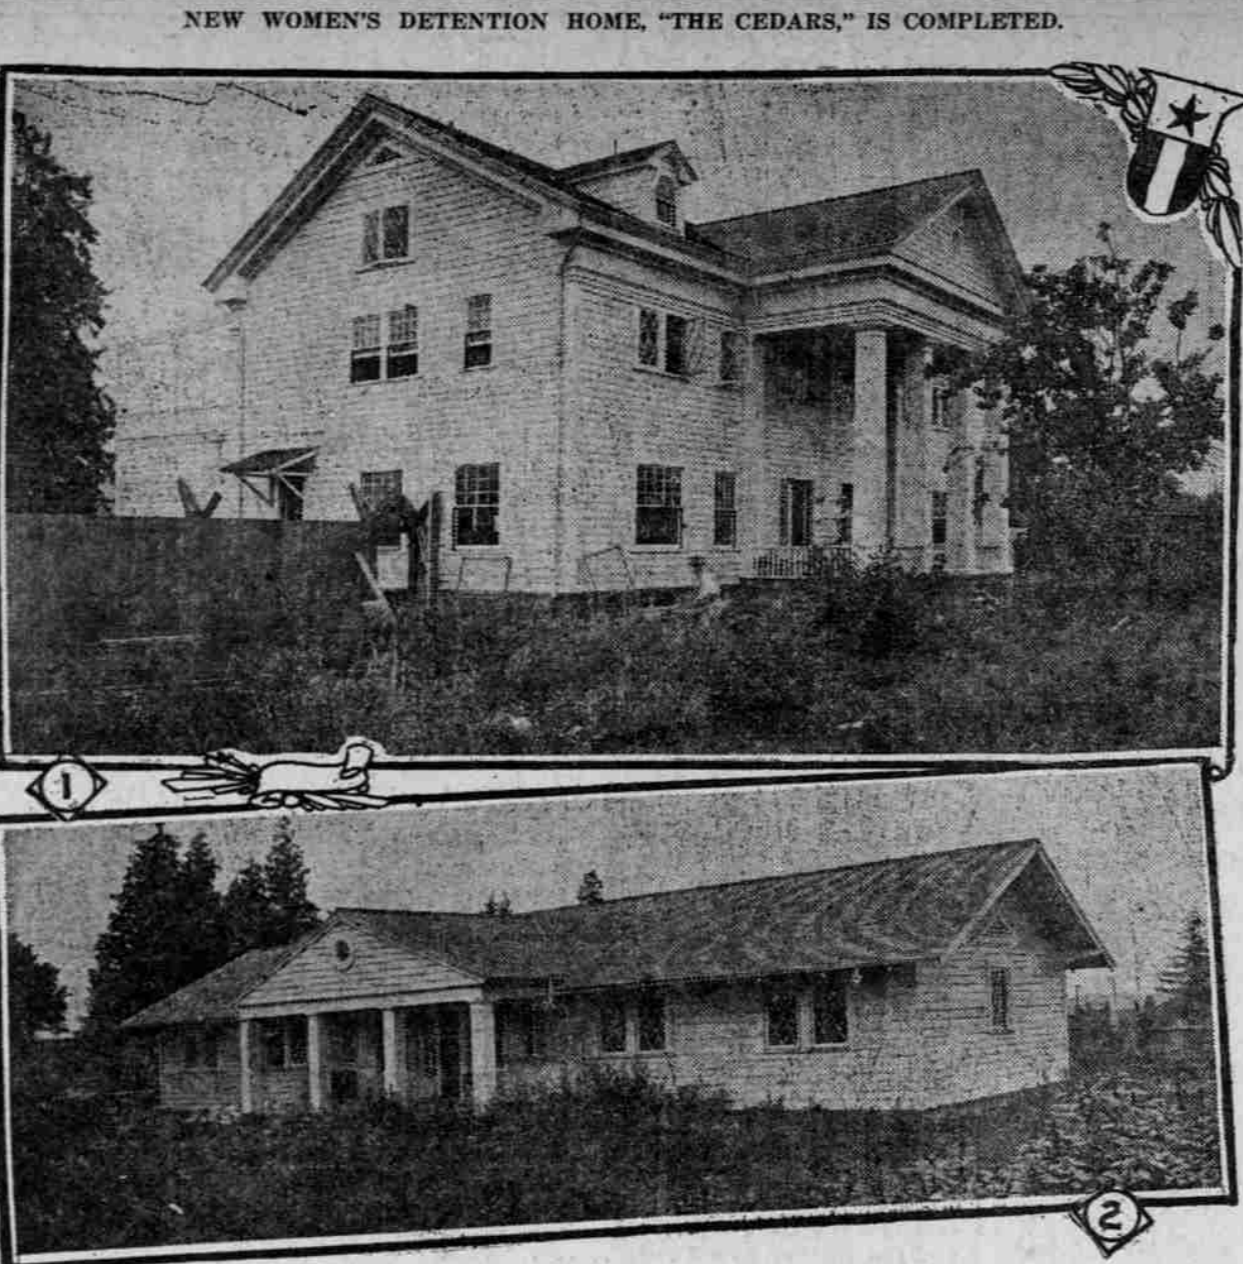

Members of a special committee of liberty loan workers are considering a plan for combatting the activities of unscrupulous speculators and pro-influences in what appears to be a Nation-wide attempt to depreciate the different issues of liberty bonds. No reports of outright swindle have been reported in this city where those profiteering in these investment securities thus far have confined their efforts to discounting extensively these bonds in connection with real estate and other transactions.

The effect of these activities has been to depress the market value of these securities and has resulted in more or less uneasiness among many of the small investors in these securities. Not a day passes that several owners of liberty bonds in denominations and amounts ranging from \$50 to \$500 do not call at the liberty loan headquarters for information as to the security of their investments.

"Most of these people," said D. C. Freeman, of the liberty loan committee yesterday, "are inexperienced in the ownership of bonds as a continuing investment. But we have no trouble in allaying their fears when the nature of the investment and its positive security has been explained. There is no occasion for any holder of liberty bonds to part with these securities at any great discount, in view of the fact that reputable bond dealers report that the bond market for these securities today indicates a healthy upward tendency."

In its investigation the special committee is suspicious that pro-German influences are largely responsible for the attempts being made to depreciate the negotiable value of liberty bonds. The committee is conducting a thorough inquiry and within a few days will issue a statement for the information and assurance of all bondholders.

The final installment on liberty bonds of the third issue, purchased through the banks, becomes due and payable next Thursday, August 15. One month later, September 15, will be the first interest-paying period on the third issue of liberty bonds. Owners of these securities will then be able to detach the first coupon and collect at any bank interest for the first six months. The disbursement of this interest money among the holders of liberty bonds, it is believed, will have a tendency to reassure the owners of these securities and dispel to a large extent any uneasiness now existing.

## 'CEDARS' NOW OPEN

### Detention Home for Women Is Modern in Appointments.

## MRS. ROGERS IN CHARGE

#### Institution Has Accommodations for 75 Inmates and Has Every Facility to Make It Self-Supporting.

The Cedars, Portland's new detention home for women, is now in full operation. The new home is located on the site west of Troutdale, adjacent to the Multnomah County Farm.

When Mayor Baker and members of the City Council first concluded to treat the women here on the initiative of the Kelly Butte Institution was secured from the Board of County Commissioners. The work of caring for the women began on the initiative of Portland officials, and later Federal officials recognized the work and ordered its duplication in all the principal cities of the United States.

Between 40 and 60 women have been treated at the old home, under the direction of City Health Officer Parrish. Accommodations for 75 women are available at the Cedars, by use of the sun porch and attic of the administration building and the two cottages built in addition to the main structure.

Home Is Strictly Modern.

Every facility to make the home self-supporting has been installed. A modern laundry has been provided in the basement of the administration building and a separate water supply has been secured by the installation of storage tanks.

The home is located on five acres, which will be tilled and cultivated by the inmates. Each patient will have a separate room, and the plan of the construction has been with an idea of removing the "prison idea."

Much of the success in the operation of the detention home is attributed to the work of Mrs. Elizabeth C. Rodgers, matron, who in addition to being the actual supervisor of the institution, serves as a "mother" to the girls who are detained there.

Homes Found for Women.

Some of the women sent to the detention home offer themselves voluntarily for treatment, while others are detained by the police department. Women from various parts of the state are sent to Portland, the State Board of Health paying for the expense of treating and providing for the women.

The release of the women remains with the police department. In some cases the women are detained, after being pronounced cured, the police department maintaining that this is done in order that homes and positions may be found for them.

## WIFE BARES SECRET

### Guy Hannah Enlists in Army as Unmarried Man.

## DECEPTION TOLD BY BRIDE

#### Young Aviator Is Now Under Surveillance in Texas Pending Investigation by Officers. Marriage Is Denied.

Guy W. Hanna's intense desire to enlist in the aviation branch of his country's service led to his undoing, according to disclosures made yesterday by Deputy District Attorney Dempsey, who has written to Army officials at San Antonio, Tex., to keep Hanna under surveillance pending a further investigation of charges by his pretty wife of three years.

Fearful that he would not be accepted in the Aviation Corps if the Army officials knew he was married, Hanna went to a Middle Western state, where he enlisted as a single man. It was not until after he had passed all the necessary examinations to qualify as an Army aviator that he communicated with his wife to let her know that he had enlisted.

"Don't you let anyone know I am married or I will get a few years in the Federal prison at Leavenworth," he said to have written to her. "If you will keep quiet I will send you more money than you would get through a regular allotment."

The Mrs. Florence Hanna, at first determined to keep her husband's secret in order that he might serve his country. She now says, however, that she failed to send her any money, and it was only after she had exhausted every other recourse, she says, that she finally decided to go to the District Attorney's office for help.

Some time ago Deputy District Attorney Dempsey wrote to the Army officials concerning Hanna's alleged deception. They replied that the young aviator still insisted that he was never married and did not know the woman who said she was his wife. They suggested that further proof of the marriage be forwarded to them.

Yesterday Mr. Dempsey mailed a certified copy of the young soldier's marriage certificate, showing that he was married to Miss Florence E. White at Sioux Falls, S. D., on July 12, 1915. This certificate is expected to win for the young wife the allotment money which she demands.

Mrs. Hanna has been compelled to work to support herself for some months, and is now a dancing instructor at a local dancing academy. She says that her marriage to the young soldier had been all that could be desired until his desire to serve his country overcame his duty to provide a home for her.

## I Only Charge for Actual Work I Put in Your Mouth!

### Not for My Reputation! MONEY CANNOT BUY COMMON SENSE, BUT COMMON SENSE WILL SAVE YOU MONEY

Millions of dollars are spent every year in dental offices without adequate return. Perhaps forty cents on the dollar goes for ACTUAL SERVICE RENDERED and sixty cents goes for imaginary REPUTATION AND STANDING of the dentist.

Conservation, like charity, should begin at home, and in the homes. This is the richest Nation in all the world, but we have not a dollar to waste. Paying for SOMETHING YOU DON'T GET is willful waste—a sin against the individual and against the great Nation of which you are a part.

I have demonstrated for the past 14 years, and proved to thousands of people that honest, conscientious, dependable, durable dentistry is possible at HALF THE PRICES CHARGED BY THE HIGH-PRICED PRIVATE DENTISTS, and have also proved that in THIS OFFICE the best materials CAN be used and the work performed by skilled, graduate, registered dentists at these prices.

Do not get the impression for one moment that I am advocating "cheap" or "shoddy" dentistry, for that would be even greater extravagance than high-priced GOOD dentistry. Do not think that my patients are not able to pay more than my prices or that I cater only to the less fortunate people—MY PRICES ARE FOR GUARANTEED DENTISTRY—WORK THAT IS SKILLFULLY DONE WITH A VIEW OF DURABILITY, PERMANENCE AND HONEST VALUE. The well-to-do KNOW THIS AND PATRONIZE THIS OFFICE because they use their common sense and save their dollars.

That is WHY they are "well-to-do."
