Cunning of German "Sleuths" Bring Reward From Self-Styled War Lord.

AMERICANS ON BLACK LIST

Spy Offenses Started by Huns Invariably Begin in Neutral Countries and Spread to Allied Territory.

(Continued From First Page.)

Germany are suspicious of all writers who are not in their confidence. When the train stopped at a small mountain town...

Silence Is Best Weapon. From the depot we walked along a narrow mountain path to one of the finest motor thoroughfares which had been built for the tourists long before there was any thought of a European war.

We shall have dinner some place along the road here," Williams volunteered this pleasant information, "and about 10:30 the motor will begin to move toward my right."

All Cities in Darkness. It was a black night as we had forecasted it would be, and having ascended several hundred meters by train, we were up very close to the ceiling of clouds which we had observed earlier in the evening.

Journey Made Under Cover. Some time later the other three joined us. We got into the car, motored through dark streets to be sure we were not followed and then started up a serpentine road which let us into the mountains.

German Spies Active. I thought that was a queer performance and the next day I began an investigation. I found one of them, Boche was paying \$35 a night to the Swiss authorities for permission to hunt wild ducks on the lake at night.

TWINE PLANT URGED

Governor Favors Industry at State Penitentiary.

NEW CELL HOUSE OPPOSED

Construction Now, in View of Present High Cost of Material, Held Inadvisable; Segregation Is Not Pressing Necessity.

SALEM, Or., Aug. 17.—(Special.)—Establishment of a twine industry at the State Penitentiary is a project to which Governor Withycombe is giving consideration and which probably will be submitted to the Legislature.

It is not his idea to use flax in the making of twine, as that would mean very expensive twine, but to import the raw material probably from Manila, for the kind of twine he has in mind.

It is likely that some other forms of industry also will be considered by the executive, and his ideas on the subject will be incorporated in his message to the Legislature.

The Governor believes that the recommendation of Warden Murphy for a new cellhouse at the prison is ill-advised at this time.

OLD AND NEW COMMINGLE Soldiers of Past and Present Fraternize at La Grande.

LA GRANDE, Or., Aug. 17.—(Special.)—La Grande was invaded by the new and the old today. Two train loads of eastern G. A.
