

CROWN PRINCE OF ROMANIA FLEES

Heir to Throne of Subjugated Nation Reported Fugitive at Odessa.

ANTI-HUN RISING RUMORED

Queen Marie, in Message to People of America, Hopes That Her Country May Again Enter War.

COPENHAGEN, Sept. 21.—The Rumanian Crown Prince has fled from Rumanian territory and arrived in Odessa, according to the Ukrainian newspaper, Krewskaja Myal.

News of the flight of Crown Prince Charles of Rumania follows closely reports that came from German sources of an anti-German outbreak in Rumania in which Queen Marie, who is an uncompromising sympathizer with the entente, was the prime mover. King Ferdinand was reported to be holding aloof.

Crown Prince Charles is known to have been in sympathy with the attitude of his mother.

PARIS, Sept. 14.—(Correspondence of The Associated Press.)—Queen Marie of Rumania is looking forward hopefully for the time to come when the Rumanian Army can again take the field against the German oppressors of her little country.

It is known that she will rally her army whenever the time seems favorable and the entente allies request it. The Queen cannot rest content under the domination of Germany.

Soldiers Anxious to Fight. "You can tell the American people, whose sympathy and support I value so highly," said the Queen, in a recent message forwarded here, "that the desire of my soldiers to renew the combat is still strong. I hope that with the growing successes of the allies, that desire may yet ripen into action and result finally in the complete victory for all the nations of the entente."

"Rumania, the free people of the United States may be assured, will never remain the vassal of Germany. She desires to play an honorable and active part in the great struggle which the allies are waging for the reign of right and law and for the liberation of the smaller nations. It is my fervent wish that an opportunity again to participate in the war may soon be given her."

U. S. Aid Needed. "We need the helping hand of America and our other allies to free us from our present position. Let not the great heart of the people of the United States forget us in our struggle."

EVERYBODY GETS MIXED

Nobody Knows Just Where He's At Chronologically.

This Tampering With Time Is Beginning to Look Like Extra Hazardous Business.

And now nobody knows where we will be when we are where we were before the last Sunday in March, 1918.

Through misleading information given out Friday by a railroad office and subsequently published, a general misunderstanding has arisen concerning the change of time from the daylight-saving time adopted for the summer months, to standard time. Attempts were made yesterday to straighten out the tangle and it remained for Edward L. Wells, meteorologist of the legal station of the United States weather bureau to put things right by quoting straight from the act of Congress of March 19, which reads as follows:

"At 3 o'clock antemeridian time of the last Sunday in March of each year the standard time shall be advanced one hour. On the last Sunday in October the standard time of each zone shall, by the retarding of one hour, be returned to the mean astronomical time of the degree of longitude governing said zone, so that between the last Sunday in March at 2 A. M. and the last Sunday in October at 2 A. M. in each year the standard time of each zone shall be one hour in advance of the mean astronomical time of the degree of longitude governing each zone respectively."

Consequently at 2 o'clock in the morning of the last Sunday in October the clocks will be turned back one hour.

TIME ZONE HEARING SET

Interstate Commerce Commission May Make Changes.

The Interstate Commerce Commission will hold a hearing October 1 at Washington, D. C., to fix the limits of zones of time for the United States.

As at present the standard time of the five zones is to be based upon the mean astronomical time respectively of the 75th, 90th, 105th, 120th and 135th degrees of longitude west from Greenwich. The fifth zone, is to include only Alaska. As commonly understood the first zone is Eastern time, the second Central time, the third Mountain time, and the fourth Pacific time.

ERNEST BLUE ACQUITTED

Charges Against Ex-City Treasurer Not Proved.

Former West Salem Official Who Was Brought From Alaska for Trial Soon to Return.

SALEM, Or., Sept. 21.—(Special.)—Ernest Blue, former Treasurer of West Salem, was found not guilty by a jury in Judge Kelly's court tonight of a charge of unlawfully converting \$2632 of the city's money to his own use.

Blue was arrested at Ketchikan, Alaska, several months ago and was out on bail there for some time before being brought here for trial. The trial was postponed from last summer at Blue's request. An expert accountant went over the books of West Salem and found the discrepancies which led to the indictment. Blue's defense was that he had expended the money for the city, and in a personal statement on the stand explained how the expenditures were made.

Blue left Salem for Alaska in September, 1916, and had been practicing law there up to the time of his arrest. He expects to return to Ketchikan in a few days.

WASHINGTON, Sept. 21.—President Wilson today asked congress to pass promptly as a war measure the emergency power bill authorizing Government control and extension of electric plants and providing a fund of \$175,000,000 for the purpose.

In a letter to Representative Sims, chairman of the House interstate commerce committee, which has reported the bill favorably, the President wrote: "In view of the possibility of three-day adjournments by the House and the absence of a quorum from the city, I venture to write you this hurried note to urge that the emergency power bill be pressed to passage, if possible, before adjournment, as it is of capital and immediate importance as a war measure."

"I hope that it will be possible for you to obtain consent of the House to this action."

MCARTHUR HEARS OF SHIPS

Shipping Board Informs Representative Tonnage Provided.

OREGONIAN NEWS BUREAU, Washington, Sept. 21.—Representative McArthur, who recently took up with the United States Shipping Board the matter of providing more available tonnage for the shipment of flour from the Pacific Northwest, has been advised that the desired tonnage has been arranged for. Mr. McArthur interprets this to mean that the North Pacific millers will be able to grind a large amount of flour as they are to manufacture their product into flour.

The attitude of the Shipping Board has apparently relieved a very distressing situation.

DON'T do your bit—do your BEST! An opportunity is presented today to every man, woman and child in Oregon to demonstrate whether or not they are willing to support our Government in its struggle for liberty for all the world. You can help our country help our boys in the trenches and at the front without ANY sacrifice—and with only a slight financial concession—too small even to be considered. LISTEN! If you buy a hundred-dollar bond—and every man in Portland should buy that amount at least, and most men should buy five hundred dollars' worth—you can take that bond to any bank in Portland, or bring it to my store, and borrow eighty dollars on each hundred-dollar bond. At 6 per cent interest per annum this will cost you, per year \$4.80. The Government will pay you interest on the bond 2.25 \$.55 So that to help win the war, if you purchase only a one hundred-dollar bond you contribute the insignificant sum of 55 cents per year. If you buy five hundred dollars' worth of bonds your contribution to the winning of the war will be exactly \$2.75 a year! IS THERE A MAN OR WOMAN IN PORTLAND WHO WILL REFUSE TO DO THIS? I BELIEVE NOT! You may still purchase a \$50 bond or a \$100 bond from me upon the payment of one dollar down and one dollar a week on each \$50 bond, without interest. When the bond is paid for I will deliver it to you with all interest coupons attached. Men and Women of Portland: Prove your loyalty, as you always have done, and we will put our beloved, grand old OREGON in the front rank, where she belongs!
