RENGO BELT

Reducing Corsets For Stout and Medium Figures

These famous corsets are designed and tailored along scientific lines. They have special reducing features which have earned the approval of women of stout and medium figure.

As the beautiful lines of latest Fall style appear at the time of your selection, so they will remain until it is time to choose a new Spring model. The Rengo Belt feature tailored into the garment over the abdomen, where strength is needed, insures against breaking down the figure lines, no matter how severe the strain. If an extra amount of freedom and comfort is desired, selection of a model fitted with steel-astic webbing will provide all that is desired. But in every model there is manifold strength both in tailoring and material.

The superlative degree of insurance against loss of shapeliness is added in the boning of double watch-spring steels, which are guaranteed not to break or rust.

PRICED AT \$2, \$3, \$4 and \$5

EDITORIAL.

Your Confidence—

means so much to us that the desire to obtain and retain it directly influences every business transaction we take part in.

When we buy merchandise, our one thought is "will this quality and style measure up to our customers' expectations; will it prove so satisfactory that she will make future purchases with the confidence that she is getting all that she is entitled to?" This same thought is uppermost when we plan a special event; when we write an ad; when we plan any change in our service equipment; when we engage the services of a salesperson; and unless the answer is an affirmative one we reject the proposition, no matter what it is.

When you come into this store, we want you to be able to confidently say: "This is one store where I know I will get honest values and fair treatment every day in the year."

"THE STORE THAT UNDERSELLS BECAUSE IT SELLS FOR CASH"

COULDN'T ASK FOR BETTER RESULTS

Miller Gains 20 Pounds Taking Tanlac—Wife Regains Health, Too.

"No one could see the wonderful change that has taken place in me during the past few weeks and doubt Tanlac being a great medicine," said W. H. Miller while in a Bartell drug store recently. Mr. Miller superintends the general repair work of the Puget Sound Dredge & Bridge Company and lives at 25 Seaview Ave., Seattle, Wash.

"I have picked up twenty pounds," he continued, "and I feel that I would be doing anybody who is suffering like I was a good turn by putting them onto Tanlac. I have had so much trouble with my stomach for the past ten years that I could hardly eat or sleep. I had no appetite at all and what I did eat would ferment, causing gas, bloating and misery. I was constantly belching up my food sour and undigested, and my condition kept getting worse in spite of all I could do."

"I finally got me some Tanlac and soon found it was helping me. So I stuck right to it until now it has completely cleared up my trouble. My appetite is splendid and my stomach is in such good condition that I can eat just anything I want and all I want without suffering a particle afterwards, and I simply sleep like a log every night. I had gone down to one hundred and fifty pounds and I now weigh one hundred and seventy, which is a gain of twenty pounds."

"My wife, whose condition was just about as bad as mine in every way, is now taking Tanlac, too, and it is doing the same good work for her that it did for me. I couldn't ask for better results than we have gotten from Tanlac and I don't hesitate to recommend it to everybody."

Tanlac is sold in Portland by the Owl Drug Co.—Adv.

WAR AND MEDICINES

What Many of the Sick and Ailing Are Learning Nowadays.

So many doctors have gone to war the services of comparatively few are available at home.

Good proprietary medicines are more widely used than ever, and more and more people are finding out how great their merit is.

At this time, when there is greater need of economy than ever before, Hood's Sarsaparilla, a thorough blood purifier, Peptiron, a real pepsin-nutrient tonic, and Hood's Pills, a potent yet mild cathartic, are especially good and liked by all who use them.

These medicines are remarkably efficient, whether taken in conjunction or separately.—Adv.
