

MAYOR BAKER ASKS PUBLIC TO COMPLY

Co-operation in Preventing All Assemblies Is Urged.

URGENT APPEAL NOW MADE

Warning Included That Police Have Been Instructed to Enforce Letter of Health Order.

HERE IS FORMULA OF INFLUENZA TREATMENT SAID TO BE EFFECTIVE.

PITTSBURG, Oct. 12.—In response to hundreds of telegrams from medical men throughout the country today, Dr. George F. Baer, of the Homeopathic Hospital staff, this afternoon made public the formula of his discovery announced yesterday of a cure and preventive for Spanish influenza.

This treatment, he said, is a hypodermic injection of a sterile solution representing 1.34 grams of iodine in chemical combination with creosote and salicylate.

In experiments conducted here since the outbreak of influenza, Dr. Baer said, patients in acute stages of the disease have been made well in a few days, while in one case the employee of a bank were inoculated with the solution and, although exposed to influenza, failed to contract the disease.

Stricter compliance with the order banning public gatherings was urged by Mayor Baker yesterday, when more than 50 new cases of Spanish influenza were reported to the City Health Bureau, bringing the total known cases well above 700. A very small percentage of the cases were noted as dangerous and health officials still were optimistic over Portland's chances of avoiding a serious epidemic.

While most of the theater-owners, school heads, organization heads, blind hall proprietors and others affected by the order were complying strictly with the spirit of the closed town, a few complaints came in that stores had given up their efforts to sales, resulting in gathering of hundreds of bargain seekers in violation of the spirit of the order.

Mayor Issues Appeal.
In view of these facts and general misunderstanding of the application of the order, the Mayor issued an appeal urging strict compliance so that the ban soon may be lifted. The appeal follows:

"To the Public:
I wish to take this means of appealing to the public throughout the city to co-operate to the limit in the closing order imposed upon Portland by the State Board of Health acting under instructions from the United States Public Health Service. Instances have reached my attention of failure on the part of certain persons or institutions to heed the order and infractions of this sort not only are unfair to those public spirited people who are complying with the order regardless of sacrifice, but are direct violations of law. It is gratifying to note that the great majority of the people realize the situation and are willing to do their part in co-operating.

Police May Make Arrests.
The closing order was issued only after the most thorough investigation and consideration, and its purpose is to curb an extremely virulent and dangerous disease which is sweeping the country. Compliance should be concerted in willingly and universally for the safety of the city. Where infractions occur it becomes the duty of the police to interfere, and, if necessary, to make arrests. Orders to this effect have been given and will be carried out. Compliance with everybody's part will be the means of raising the ban just that much sooner."

The policeman reported to Captain Moore that the store managers had assured him of their co-operation, promising to wash the mouthpieces of telephones with antiseptic solutions, and scrub elevator pits carefully.

SCHOOLS CLOSE AT LA GRANDE

Four Cases of Influenza Reported to Health Authorities.

LA GRANDE, Or., Oct. 12.—(Special.)—Spanish influenza has hit Eastern Oregon and La Grande is closed to all public gatherings, school work has suspended. The quarantine order was issued by Dr. A. J. Richardson, on Portland instructions, two hours before the board of instruction here was to call a meeting of 1500 registrants to listen to addresses pertinent to the soldier and camp life. The registrants had been called in from all sections of the county.

Four cases were reported to the authorities tonight. Theaters are closed and all public gatherings have been called off.

MEDFORD BARS ALL MEETINGS

Churches, Theaters and Schools Are Ordered Closed.

MEDFORD, Or., Oct. 12.—(Special.)—To prevent further spread of Spanish influenza, of which four cases are known to exist in Medford, the city authorities today issued an order, effective Monday, closing churches, theaters, schools and all public gatherings.

The action was not decided on until the local situation had been thoroughly canvassed by Mayor Gates and Dr. Pickett, city health officer. Every physician in the city was consulted, and all favored the closing order.

NORTH BEND IS ON LOOKOUT

Epidemic of Colds Causes Fear of Influenza Getting Started.

NORTH BEND, Or., Oct. 12.—(Special.)—An epidemic of colds and sore throat is causing considerable apprehension here, and fear is entertained that it may develop into Spanish influenza.

Mayor Kern and City Health Officer Edwards are giving the situation careful attention and should Spanish influenza develop measures will be taken at once to close the schools, theaters, churches and other public places and prevent spread of the disease.

CASES AT UNIVERSITY LIGHT

Two Deaths Occurring at Eugene Are of Townspeople.

UNIVERSITY OF OREGON, Eugene, Oct. 12.—(Special.)—Influenza and cold

INFLUENZA EPIDEMIC WANES IN PORTLAND

Number of New Cases Reported Saturday Is Less.

Although there was a reduction in the number of new cases of Spanish influenza reported by the health authorities yesterday, Portland continued to chafe under the restraint of regulations promulgated for the good of the public health. The usual Saturday crowds were not to be found in the downtown section, and the congestion so common in the business center on the last business day of the week was entirely gone, save during hours when men from the shipyards were shopping at the close of their week's work.

BELKNAP DIES OF INFLUENZA

Interstate Commerce Commission Official Succumbs Quickly.

WASHINGTON, Oct. 12.—H. W. Belknap, chief of the bureau of safety of the Interstate Commerce Commission, died here today of Spanish influenza, after an illness of a few days. His wife is ill with the same malady. Lieutenant-Colonel Sjeft Tanikawa.

PORTLAND BOY IN ACTIVE SERVICE IN FRANCE.

Lieutenant A. H. S. Haffenden.

Lieutenant A. H. S. Haffenden is with the 16th Field Artillery in France. When the troops were sent to the border some time ago he went with Battery A. After war was declared he left Portland for North Carolina, from where he went to Camp Mills, L. I. Shortly afterwards he was in a camp at Hudson, leaving there for France. After arrival he attended an officers' training school and early in July received his commission as Second Lieutenant. At present he is acting as personnel officer and reports daily at divisional headquarters.

military attaché at the Japanese embassy here, died today from pneumonia, following influenza, at St. Luke's Hospital in New York.

Dr. Trommald Suicide.
Another death was marked down as indirectly due to the panic resulting from the disease—that of Dr. Trommald, who took his own life early this morning after suffering from a severe cold for more than a week. Friday he is said to have feared an attack of influenza, which was abated by Assistant Health Officer Wolff that he did not have the malady, seemed in better spirits.

The local health bureau yesterday was making frantic attempts to locate sufficient hospital space for accommodation of those afflicted. With prospects of several hundred cases next week, when the disease is expected to become more widespread, the need of additional rooms for treatment and isolation of patients was seen. Wards for contagious diseases at St. Vincent's and Good Samaritan Hospitals were available, while other places were immediately available.

Cottage Grove Has No Cases.

COTTAGE GROVE, Or., Oct. 12.—(Special.)—Mayor Wheeler has practically decided to issue a proclamation calling for the closing of all public places and for the discontinuance of all indoor assemblies until the influenza epidemic has abated by Cottage Grove has so far escaped anything resembling such an epidemic and the Mayor has hesitated about issuing such a proclamation when there seems no emergency.

South Bend Has Eight Cases.

SOUTH BEND, Wash., Oct. 12.—(Special.)—City Health Officer Tripp reported 50 cases of Spanish influenza here today, all developing suddenly overnight. This afternoon he ordered the closing of all schools, theaters and churches. The order is supported by proclamation by Mayor Palmer.

Scare at Pasco Passes.

PASCO, Wash., Oct. 12.—(Special.)—Pasco's influenza scare is gradually diminishing, as no new cases are being reported. All precautionary measures have been taken and the situation is entirely under control of the health officers. The closing order is still maintained as a preventive measure, although pool halls and similar places of business have been permitted to open for the sale of their commodities, but no games or congregating is allowed.

Fifty Cases at Baker.

BAKER, Or., Oct. 12.—(Special.)—Dr. J. W. Huff, City Health Officer, reported 50 cases of Spanish influenza here today, all developing suddenly overnight. This afternoon he ordered the closing of all schools, theaters and churches. The order is supported by proclamation by Mayor Palmer.

INFLUENZA EPIDEMIC WANES IN PORTLAND

Number of New Cases Reported Saturday Is Less.

CURB ON CROWDS IRKSOME

Although People Chafe Under Restrictions Promulgated for Sake of Health, Need Recognized.

Although there was a reduction in the number of new cases of Spanish influenza reported by the health authorities yesterday, Portland continued to chafe under the restraint of regulations promulgated for the good of the public health. The usual Saturday crowds were not to be found in the downtown section, and the congestion so common in the business center on the last business day of the week was entirely gone, save during hours when men from the shipyards were shopping at the close of their week's work.

All theaters and other places where crowds were wont to gather remained closed, in accordance with the Mayor's proclamation, and no one would venture a guess as to how long the order might be in effect. Mayor Baker yesterday emphasized the need for greater diligence on the part of the public, showing the need for eliminating such gatherings of people as are now occurring. Restaurants and cafes were themselves rather than to those in charge of places where the crowds have assembled in the course of the day's trading.

Crowds Are Smaller.

Streetcar traffic was somewhat heavier yesterday than on Friday evening, but at that was far below the normal business for Saturday. Last night's crowds were little larger than those of Friday evening, while the darkness prevalent on corners where familiar theater signs previously cast their colors into the illumination of the "great white way" was rather discouraging. Restaurants and cafes were popular with those on pleasure bent, while automobile driving again was resorted to as a substitute for the theaters.

Some of the theater employees who are out of work temporarily are reported to be spending their time at other work, while some are gathering sphagnum moss for the Red Cross. There appears a desire on the part of all Portland people to make the best of an embarrassing situation, and practically no complaint is heard.

Drug Stores Reap Harvest.

Drug store windows yesterday presented a choice array of preventives and a brisk sale of influenza remedies was reported. The use of the nose and throat sprays, recommended by physicians, is becoming quite general, especially in families where there are small children.

Services in all churches will be suspended today, and no one will be permitted to attend church services on the Sunday schools and as the theaters will remain closed, the business section promises to be more deserted than in any year.

Soldiers in the spruce division offices in Portland are treated daily to prevent contraction of the disease, the spraying of nose and throat being compulsory upon all workers in the offices. To date no cases have developed in the old Virginia Hill apartments, now used as barracks for men. All soldiers on the streets are required to carry passes showing them to be on duty. Otherwise they are subject to arrest by the military police for violation of orders.

Few Soldiers on Streets.

Vancouver Barracks, practically in quarantine, no soldiers being permitted to come to Portland, save on important business, and one of the most noticeable effects of the health regulations is the absence of olive drab uniforms on the streets.

All schools in Multnomah County have been closed on order of County Board of Health. Although the Public Library is closed to patrons, the reference department is open, and inquiries are being answered by telephone between the hours of 9 o'clock A. M. and 5 o'clock P. M.

PNEUMONIA AT GRAYS HARBOR

Two Soldiers of Spruce Production Division Are Victims.

ABERDEEN, Wash., Oct. 12.—(Special.)—Pneumonia has invaded the ranks of the soldiers of the spruce production division in the Grays Harbor district, claiming two victims, Private Edward Duke, bugler of the sixth squadron, who died last night at St. Joseph's Hospital here after an illness of ten days and Private John Young, who has been stationed at Camp 24, who died Thursday morning at the Hoquiam General Hospital. Pneumonia was given in each case as the cause of death, though there were evidences of influenza in one case.

But two new influenza cases were reported here this morning, however, and Dr. C. E. Bartles, city health officer, says the situation is well in hand. No date for lifting the closing can be set as yet.

Pendleton Reports One Death.

PENDLETON, Or., Oct. 12.—(Special.)—Four new cases of Spanish influenza appeared here today, and the first death in Pendleton was reported. Richard R. Cole, a sailor lad who was taken off a train here several days ago,

If You Are Not Ready to Pay All Down "A DEPOSIT" Will Hold Any Coat, Suit or Dress for You Until Wanted

SHANAHAN'S GROWTH IS PHENOMENAL

Every Month Shows a Steady Increase in Sales
