

HUNS ADMIT FURTHER REVERSES FOR ARMY

Allies Said to Have Followed Germans Closely.

CHEMIN DES DAMES LOST

Toutouge Headquarters Announces Evacuation of Famous Positions South of City of Laon.

BERLIN, via London, Oct. 12.—North of Le Cateau and on both banks of the Meuse violent enemy attacks failed, says the official statement from general headquarters tonight.

The German forces west of Douai yesterday retired from their positions to lines in the rear, says the statement issued this morning by the German General Staff. The enemy followed slowly in the evening and occupied the line of Valenciennes, Harves, Henin-Lieter and to the east of the Beaumont-Brebiere railway.

South of Laon, the German troops have evacuated the Chemin des Dames, the general staff announces. An attempt made by British divisions northeast of Cambrai to break through the German positions at Valenciennes, the statement adds, was frustrated.

Concerning operations in the Champagne, the morning statement says: "In the Champagne the enemy followed us with caution. The victorious issue of the great battle of the Champagne which the army of General Von Elnem with relatively weak forces obtained over the immensely superior strength of the French and British Armies in the fighting struggle and the exhaustion of the enemy, owing to his exceptionally heavy losses, rendered possible the smooth execution of difficult movements."

McADOO SEES SURRENDER

(Continued From First Page.)

It has to be, because we spent most of the money before we asked for it. "It is the highest patriotism, the highest act of love and honor, for us to bring back in triumph those men who made peace possible.

"Do you realize that two million boys—my son and your son—are over in France? When peace comes, don't we want our boys back just as quickly as we can get them? It will cost just as much to get them back as it took to send them over there.

Loan Must Go Over. "Peace or no peace, the fourth liberty loan goes over.

"If the Kaiser says: 'I am willing to evacuate and go accept your conditions, that is surrender or I don't know what it is.'"

"The point I am making is this: America has stood for peace on the foundations of justice, and democracy, and elimination of the festering sores which have caused all the wars in Europe, and we never will accept peace until we get it as America wants it.

"In a short time we shall have unconditional surrender if we have not got it now."

Secretary McAdoo addressed an appeal to the rich and poor of the Nation alike to make a supreme effort to bring liberty loan subscriptions to the required \$6,000,000 level in his speech.

Home Army's Duty Indicated. "If our home Army fails to put the fourth liberty loan over," he declared, "it will contradict everything our soldiers are doing. It will be a new incentive to Germany to keep on fighting, and it will be a confession in America of humiliating and disastrous failure.

"Our soldiers are winning victories with their blood and heroism. Shall we at home turn their victories into defeats? No! Pershing has the Germans on the run and we are going to lash the backs of the fleeing enemy until the victory is complete.

"Pershing needs locomotives and rats to follow up our victories, and a part of the money of the fourth liberty loan will be used to send them to him. It takes American locomotives now to keep up with the fleeing Germans.

Troops We Rely on. "Let us see it at home that the necessary locomotives are provided for the chase. We may as well send our American soldiers in first-class cars to Berlin instead of leaving them to march that long distance on foot.

"The fact that only one week remains to subscribe to the fourth liberty loan and that we are still short \$3,500,000 makes it necessary for us to consider some of the specific things that must be done to win success.

"Many families, for instance, think they have done their full duty when the head of the family subscribes for bonds, but the head of the family has not done his full duty unless he has bought all the bonds he can pay for immediately and in the near future.

All Who Are Able Should Buy. "If the wife is able to buy bonds and has not, let her buy them immediately; if the children are able to buy bonds and have not done so, they should buy immediately. Wives and children have as much interest in

liberty and in security of life and property as the husbands. "In every family the question should be immediately reviewed and additional subscriptions made to liberty bonds as far as it is possible to do so. "A word particularly to the farmers: They did splendid work in the third liberty loan, but they must do more for the fourth liberty loan. Farmers have not sold their crops and may not have the ready money to pay for bonds immediately. But they are selling their crops right along and will soon have the money to invest in liberty bonds.

Installment Plan Suggested.

"Each and every farmer in the United States should subscribe for liberty bonds now and pay for them when he has sold his crops. He can buy bonds on the installment plan and the banks ought to carry the farmers and every other class of our people on their subscriptions until they can pay them.

"The banks owe it to the country still further to demonstrate their patriotism by lending money to all subscribers to liberty bonds at the same rate of in-

DO YOU KNOW THE MEANING OF THE MEDALS ON A FIGHTER'S BREST?

They are not worn, like buttonhole bouquets, for decoration alone. To those who understand they tell a story—what wars the wearer has served in, what acts of heroism he has performed, what skill he has attained in the use of arms.

It is both a duty and a courtesy to the men in the service that you should know the meaning of the medals and insignia which have been won with blood, and at the risk of their lives, and deserve recognition and appreciation.

interest the banks bear, namely, 4 1/2 per cent. The banks can afford to do this, and it is their duty to do this.

"We must not penalize the patriotism of subscribers to liberty bonds by charging them higher rates of interest than the Government pays them."

Well-to-Do and Rich Called On. "What I have said about the duty of farmers to buy on the installment plan applies to every class of our people, rich and poor and of moderate means alike.

"In the third liberty loan there were 15,000,000 subscribers to \$4,000,000,000 of bonds. Of this vast army only 22,500 individuals and corporations bought bonds in excess of \$10,000. This time the well-to-do and rich people and corporations must improve their record. They can do more than they did in the third liberty loan, and the country expects them to do more. They are just as patriotic as any other class of our people, but they must give a practical demonstration of it in the fourth liberty loan. Why should the well-to-do and rich men and corporations hesitate to buy bonds on the installment plan, if they have not the ready cash, when people of small means are doing so?"

Wilson Pays Monthly. "A few days ago I took the subscription of the President of the United States for \$20,000 of liberty bonds on the installment plan. The President, the Commander-in-Chief of the Army and Navy, does not feel demeaned by buying liberty bonds on the installment plan. He knows the importance of doing it, and he knows that this war cannot be financed unless people use their credit as well as their savings.

"The President is going to pay for his liberty bonds out of his salary as it comes to him monthly, and every other man and woman and every corporation in the United States should buy all the liberty bonds they can just as the President has done, and pay for them out of their salaries or their incomes on the installment plan."

GOVERNOR APPEALS FOR LOAN Executive Asks People of Oregon to Help Nation Over Top.

SALEM, Oct. 12.—(Special.)—Governor Withycombe tonight received a telegram from Secretary McAdoo stating that three and a half billion dollars remains to be raised in the week remaining for the fourth liberty bond campaign.

The message asks the Governor to issue a proclamation appealing to the people of Oregon to subscribe immediately to the limit of their ability.

"Governor Withycombe issued such an appeal tonight, but said he did not consider it necessary to issue a proclamation, as he felt that the people would do so promptly as possible."

"Urge the banks and bankers of your state," admonishes the message from Secretary McAdoo, "to carry purchases of bonds on the installment plan at the same rate of interest that the banks bear, namely 4 1/2 per cent. The banks must help the people by lending them money to buy liberty bonds and the people must help the banks by subscribing for them and paying for them as promptly as possible."

Governor Withycombe's appeal follows: "Our own state of Oregon has been maintaining in its response to the fourth liberty loan call and has already done more than has been asked of it. Yet I feel that Oregon should continue to put forth its best efforts. We must not hold back, but should display the true spirit of Oregon's patriotism by continuing to contribute regardless of quota, until the last dollar that our people can subscribe has been secured."

GERMANY LAUNCHING GREAT U-BOAT DRIVE

Sir Eric Geddes Says Another Big Effort Impending.

RUTHLESSNESS INCREASES

First Lord of British Admiralty Warns America: Not to Expect Peace for Two Years.

WASHINGTON, Oct. 12.—Another great effort by German submarines is impending.

Sir Eric Geddes, first lord of the British Admiralty, in a statement tonight paying tribute to the part played in the war by the American Navy, disclosed the Navy Department's belief that the final intensified U-boat campaign of ruthlessness are known and that the allies are prepared to meet it.

No details were given by Sir Eric, but further information is to be obtained at the Navy Department as to what the American and allied naval chiefs have learned.

There were suggestions that Germany, in the midst of a peace offensive and with her soldiers being driven back to their own borders, hoped to strengthen her diplomatic drive for a peace negotiation by sending her submarines on a desperate campaign of destruction regardless of measures of caution heretofore taken for the safety of U-boats and their crews.

Warm praises were given by the British first Admiralty Lord to the American Naval Units in all classes, including the air contingents, operating in the war zone. It was after a description of work done by the destroyers that he said:

Submarines Merely Held. "What I have said of the destroyers applies in no less degree to your submarines and your chasers. Their untiring and constant harassing of the enemy has helped to bring the enemy submarine to its present position in what I can confidently say that it is now held, though not yet mastered. I lay great stress on these words.

"A great renewed effort on the part of Germany is impending. We know it and its extent. We face it with that knowledge and with the steadfast courage of our seamen it will be met."

Sir Eric spoke of peace, but only to say in referring to his pleasure at being in America at a time when the allied forces are winning all along the line and reaping the fruits of sound naval strategy, that his policy and his advice to others was not to be deluded by hopes of an early peace, but always to be prepared for two years more of war.

As an example of what sea power has done, Sir Eric said, seven American soldiers and their equipment have been landed in Europe every minute of the night and day during the last three months.

Words of Praise Spoken. Through the splendid work of American shipbuilders, he added, the United States now is able to transport more than 50 per cent of her soldiers in American ships, manned by Americans.

When the United States Army first began to move overseas it was carried largely by British vessels.

"If speaking of the United States naval forces," said Sir Eric, "I do so with the great advantage of having seen most of them personally in the course of the last 15 months, and I can assure the public that the morale and efficiency is absolutely on the top line.

"Your battleships are working with our own grand fleet with the most perfect co-ordination and efficiency. Your cruisers are working with us in the White Sea, North Sea, Atlantic and Mediterranean, and I have seen them and admired their courage and skill as to the gallant little destroyers, working with the corresponding forces of all the allies that the success of the convoy system is due.

Convoy System Success. "It is the convoy system that balked Germany when she adopted it, and it is the man and woman and every corporation in the United States should buy all the liberty bonds they can just as the President has done, and pay for them out of their salaries or their incomes on the installment plan."

Centralia Boys Home on Furlough. CENTRALIA, Wash., Oct. 12.—(Special.)—Henry Andrews, who enlisted in the Navy at sea age and who has been in service in the Panama Canal Zone, is home on a three weeks' furlough. He was called here by the serious illness of his wife, Hattie Honeywell, another of Uncle Sam's sailors and a former high school student, is spending a 30 days' furlough from all causes—marine risks or enemy action—and it is our purpose and our pride to maintain and reduce that percentage in the great flow of our manhood across the Atlantic.

You have had losses at sea, and you will have more losses at sea, I know that they will be caused with the fortitude shown by all the allies in this great struggle of right, against the great wrong and base policy of our cause and the inflexibility of the allied purpose."

Bears Bolder and More Numerous. CASTLE ROCK, Wash., Oct. 12.—(Special.)—The bears are bolder and more numerous than for many years, the third 200-pound bear being killed in the Riverview neighborhood, last week by R. G. Keatley while out with a hunting party near his place. The animal had walked off with a trap in which he had been caught and was shot. There was about two inches of fat on his back.
