HOP MARKET PROSPECTS BRIGHTER

New-Crop Purchases Are Made for London
Dealers—Speculators Also Interested.

The Oregon bop market, stagnant since harvest, is beginning to show signs of life. There is more or less English Inquiry and several lots have been taken over by buyers esperating for London houses. These hops will be stored here until they can be moved to London. There is ulso evidence of some domestic apeculative demand, and if there were more sellers, a fair amount of business could probably be done. The market is quoted sominal at 10g10th cents for the 1915 crop.

The better tone of the market seems to be based on the view that the war will soon end, and that with peace, the brewing restrictions will immediately end. Under

based on the view that the war will soon and that with peace, the brawing restrictions will immediately end. Under such conditions, the short crop produced this year may be found inadequate for American needs. Even should the breweries in this country remain closed, all the hops here can find an export outlet, while a cembination of foreign and domestic demand would most certainly cause an excited market.

es of the grain crops in the northern ING. BUT GAINS LOST.

Abrupt Decline in Closing Hour Is Ascribed to President's Rejection of Austria's Plea for Armistice.

NEW YORK, Oct. 10.—On a further accumulation of buying orders from professional and public sources, today's stock market opened with a fresh demonstration of activity and strength, speculative issues again featuring the advance.

Mexican Petroleum once more cinimed attention, rising 12 points to the new high record of 194, but suddenly reacting to 1754 during the last 15 minutes of the session. Many other prominent stocks, especially American Smelling, rails and shippings, among which early gains extended from 2 to 5 points, also yielded much or all their advance.

United States Steel was a notable inaverage.

CHICAGO MARKET BECOMES UN-SETTLED AS RESULT.

Traders Are Not Disposed to Leave Commitments Open Over Sunday; Oats Offerings Light. .

CHICAGO. Oct. 18.—Anxiety to even up trades, rather than to risk surprise happenings over Sunday, brought about material advances today in the corn market. As a result, the finish, although unsettled, was 1½ to 32 and net higher, with November \$1.25½ to \$1.25½ and December \$1.15½ to \$1.15½. Oats gained ½ to ½c. The closing in provisions varied from 20c decline to a rise of 10c.

Buillish inferences drawn from the delay of the German answer to President Wilson's note had much to do with the evident tendency to reduce open trades in the corn market to a minimum. Shorts covered on a liberal scale as soon as business opened, and the top figures of the day were touched before the end of the first hour. Reactions, which took place later, seemed to be due to moderate groff taking. No effect whatever on prices appeared to result from the American response to the Austrian government's plea for peace.

Oats followed corn and after an advance

for peace.
Cais followed corn and after an advance receded somewhat. Country offerings to arrive were light.
Weakness in the hog market carried down provisions. Subsequently, however, the print prices. A mail report from San Fran-cisco said of the butter market there: "The strength of corn led to upturns but losses in pork especially were not altogether over-Leading futures ranged as follows::
