

POWERS

Is Crowded With Home Furnishers These Days

"Do it now" is a remarkably appropriate injunction in regard to buying furniture. This is certainly the best time of the year to get your house into good shape, and then settle down to enjoy it during the cold days and the long evenings.

And what do you think about some good piece of furniture as a "useful gift" for Xmas? A cedar chest, a fine lamp, a library table, even a

new range for the mother of the family, will all come in that class. Why not get something really good and lasting this year, instead of a lot of trash to be thrown away in a few months?

Think it over, and while you think come into this store. You will surely discover that we have some mighty fine furniture at very reasonable prices, and we know you will follow the example of hundreds of other good people and supply your furnishing needs here.
