

GGES STAFFER 4 TO 0

hipbuilders Are No Match for Trained Collegians.

ONTEST IS HARD FOUGHT

ancouver Men Keep Ball in Enemy Territory, but Lack the Necessary Punch.

CORVALLIS, Or., Nov. 9.—(Special.) The football game between the Standifer eleven 14 to 0 in a hard-fought game on the Corvallis lot yesterday afternoon. The shipbuilders put up a fast brand of football which was easily outplayed by the speedy collegians.

The Aggie won the game in the first quarter, when they broke away from left end for an easy touchdown following a series of long runs by Badley, Archibald and Wright. This ended the scoring until the final quarter, when Powell carried the ball 15 yards round right end for another score, which converted both times.

White Prevents Score. O. A. C. was prevented from scoring again in the second quarter only by the keeper's whistle. A long run by Badley, following a clever forward pass, off O. A. C. in the third quarter, was held by the goal line. The shipbuilders threatened the Aggie goal only once in the third quarter. The Vancouver men were able to keep the ball off their opponents' territory, but lacked the punch needed to carry it over.

Badley was easily the star of the game for O. A. C., with Hodier and Campbell as archrivals. The latter, who for Standifer, Coleman at quarter and Kramer at half did some brilliant work. The Aggie line was working well for the first time this year, despite the loss of Reynolds at end and Ash at tackle. Ash is out of the game with a sprained foot, but will probably return to the line against University of Oregon next Saturday. With the exception of Powell, the back field is in fine condition.

CALIFORNIANS WILL MEET

Much Interest Is Being Taken in Thanksgiving Game.

SAN FRANCISCO, Nov. 9.—College folk and followers of sports are showing more than ordinary interest in the Stanford-California game, which is scheduled for November 23, Thanksgiving day, inasmuch as this will be the first "big game" of American football since the two institutions fought for eight years.

The novelty of the occasion will lie in the fact that actually all of the students will be an Army and Navy uniform. Whether there will be the old-time gatherings in "frat" houses and fraternities the night before the game, and the character of the "stunt" which featured at the first "big game" during wartime are matters about which there are considerable speculations.

SPORTS DRIVE IS SEPARATE

Division Decided Upon in United War Work Fund Campaign.

NEW YORK, Nov. 9.—The sports division of the United War Work fund campaign took important action at a general meeting in which the sports members decided to divide themselves from the main body of the organization, and in future will have complete control over sports events which will be staged in the interest of the drive.

Herbert L. Pratt is elected chairman of the new committee, and William W. Roper was made secretary and Julian W. Curtis named as treasurer. The following committees were named: Roper, in explaining the object of the new move, said it was thought better results could be obtained by having executive powers in a smaller body. The various experts in different branches of sport will continue at the heads of such committees of the new sports committee. James Crofford will direct the boxing end of the drive, Mr. Roper football, and Mr. Curtis basketball. Jack Curley wrestling, Martin McVey trapshooting, and Fred Ruben track athletics. This action was taken as a result of the general committee objecting to the boxing programme.

HIGH RUNS FOR GREENLEAF

Pocket Billiard Expert Makes 96 in New York.

Ralph Greenleaf, formerly of Monmouth, Ill., who now lives in Philadelphia, made the highest run that has ever been recorded in New York pocket billiards under the present rules, whereby only 14 balls are racked at the end of each game. He made 96 in a match against John Layton, of Sedalia, Mo., at Maurice Daly's academy.

TRAPSHOOTERS TO MERGE

Combination of Several Bodies Is Under Way.

A combination of several of the trapshooting organizations is under way and it appears probable that a national association will soon exist for the benefit of the sport and amateur and professional shooters. The old Interstate Trapshooting Association, through its development department, is being reorganized along new and broader lines, and the American Amateur Trapshooters' Association being combined with it.

The plans for the new association are in many ways similar to the A. A. U. and the U. S. Golf association. They provide for the membership of all amateur shooters, who will control the sport through representatives from all sections. In addition to these memberships, provisions are made for supporting memberships by all interested organizations.

1917 RIFLE CAN'T BE EQUALED FOR RAPID-FIRE WORK.

Never Before Were Such Marks Made as in the Recent Rifle Championships.

Thousands of riflemen, both soldiers and civilians, left Camp Perry at the close of the 1918 National matches, thoroughly convinced that for rapid-fire shooting the Model 1917 rifle could not be equaled.

When most of the civilian teams arrived at Camp Perry the rifle matches were objects of considerable curiosity. Although practically every man was familiar with the workings of the Krag and the sighting equipment of the Model 1917 were deep mysteries. And it must be admitted, that at first the civilian shooters did not believe in the new weapon, even after 10 days of range work with it.

When the National Rifle Association matches began the civilian riflemen still mistrusted the new weapon, but only two events were needed to give every man a comprehensive idea of just what the Model 1917 is going to do. The first of these was the 200-yard match, in which the Krag was defeated by the new rifle.

Those two events were the rapid-fire match at 200 yards, and the rapid-fire match at 300 yards. When the scores in these competitions were published it was found that the Krag competitor had made perfect scores and that 49 had tied in second place on totals of 49 in the 200-yard match and that in the 300-yard match 31 entrants had made 48 points or better.

These results cannot be equaled by any past performance in rapid-fire matches, especially under the rather unfavorable shooting conditions which prevailed.

Many instances during the matches in open fighting may come along the western front before many more months pass, the fighting will hardly be at all arranged, baseball games for 200 yards. Therefore there could be no better weapon than the Model 1917 for the rank and file of the Army.

COUGHLIN OFF TO FRANCE

Detroit Third-Sacker Now on Atlantic on His Way Over There.

Bill Coughlin, the famous Detroit third baseman, is now on the high seas bound for France as a Knights of Columbus secretary. Bill went abroad to help Johnny Evers, already over there as a Knights of Columbus secretary.

Baseball is now universally regarded as a wonderful tonic for the maintenance of the morale of the soldiers, and the Knights of Columbus is making every effort to see the game in its proper perspective. With that end in view, shipments of bats, baseballs and other paraphernalia are made almost daily. Coughlin, it will be remembered, has never a great batter, but on the defense he was a wonder. He helped the Tigers to capture the American League pennants of 1907 and 1908, and it seems an odd turn of events that the rival captains of the world series of those two seasons, Coughlin and Evers, should be about to work side by side for the soldiers and the Knights of Columbus.
