

FOLKS AT HOME TO SEE THEIR BOYS SOON

Demobilization Already Under Way at Camps.

MOVEMENT ABROAD STOPS

Tide of Troops From Trenches in Europe to Be Well Started Early in Next Year.

WASHINGTON, Nov. 15.—Movement of American troops across the Atlantic has stopped entirely and demobilization of troops in cantonments and camps at home is under way.

General March, chief of staff, made this announcement today, outlining the War Department's plans in answer to the questions the country has been asking since the day the armistice was signed and it became apparent that the war was over.

He said orders already issued would send 200,000 men back to civil life within two weeks and that when the programme was in full swing about 30,000 would quit the Army daily.

Fighting divisions of General Pershing's Army in France will be demobilized as fast as possible. The chief-of-staff would make no prediction as to when the first divisions would start home. It appears probable, however, that the first returning troops cannot be in full tide before February 1. Quarters will be available for them at the cantonments by that time.

Some officers regard it as possible that certain divisions may be recalled in advance of the general return movement.

Rainbow Boys May Be Favored.

General March indicated that the 42d (Rainbow) division, because it is composed of men from 26 states and in recognition of its fighting record, would be marked for special treatment. The 26th (New England National Guard) and the 1st (Sunset) divisions are in the same class, so it would not cause surprise, therefore, if these three organizations would be designated by General Pershing as the first to return. With six weeks of 1918 left it is possible they may be home before New Year's day.

Supplementing General March's statement, Secretary Baker said it would not be necessary to maintain all the existing cantonments for demobilization purposes and that a study was being made of those desirable for that purpose. The others, with all the divisional camps, he indicated, would be abandoned as soon as the men now occupying them have been mustered out.

General Plan Outlined.

The demobilization will be carried out in the following order:

- First—Development battalions, 71 in number and comprising 98,199 men.
- Second—Conscientious objectors not under arrest.
- Third—Spruce production division.
- Fourth—Central training schools for officers with some modifications.
- Fifth—United States Guards, now numbering 138,000 men.
- Sixth—Railway units.
- Seventh—Depot Brigades.
- Eighth—Replacement units.
- Ninth—Combat divisions.

"We have in the United States now something like 1,700,000 men, and to muster out will take some time," said General March.

"Each man has to be examined physically, his final accounts made, so that he may get compensation that he is entitled to. Blank forms are being shipped to the various camps for use as these orders go into effect.

"Orders already issued affect 200,000 men. I expect to muster them out in two weeks. When the machine is in full operation we expect to release 30,000 men a day.

"In handling this problem of demobilization, one of the features which had to be considered was the subsequent retaining of men for the regular Army, or what will be the regular Army when Congress passes laws reorganizing the Army.

Chance Offered to Re-enlist.

"When the war broke out there were only a limited number of such men in the service, and the great number of men who filled out these units were men who voluntarily enlisted for the period of the war. So we have offered these men who came in for the period of the war the option of re-enlisting if they care to.

"We have offered an immediate honorable discharge with a furlough of one month on re-enlistment and we purpose to ask Congress to give every single man who has been honorably discharged one month's pay whatever his grade is, as a bonus.

"Every man who is discharged from the Army is entitled to wear his uniform for a period of three months; that is a very necessary thing, because the releasing to civil life of 3,000,000 or 4,000,000 men makes it impossible to clothe in civilian clothes so great a number.

"As the men are discharged we shall take up the question of the officers who want to go for commissions in the regular Army. The officers who want to put themselves in a class where they can be used for future military operations will be offered commissions in the reserve corps. The rest of them will be discharged.

Sick and Wounded Favored.

"I have cabled General Pershing to return to the United States on troop transports all the men who are nearly or convalescent, sick and wounded, who are able to be moved; and these men will come in a steady flow across

CASHIER TELLS SECRET

Never-Tel, The New Delicately Perfumed Tablet, Darkened Her Hair.

In a recent letter to the Never-Tel Laboratories Company, Miss Florence Woods, cashier of one of Chicago's large department stores, wrote as follows:

"I don't mind telling you that I have used hair preparations for nearly ten years and find Never-Tel the cleanest and most satisfactory of all. I first tried Never-Tel because the name sounded good to me; and because it is so easy to use. It has not only restored the color to my gray hair, but it has gradually made my own curls never fall. It is certainly a wonderful thing for me, and the little tablets are so convenient to use. I was embarrassed with gray hair for ten years when there was no excuse for it. Now it is a beautiful soft brown and I have you to thank for it."

Miss Woods's experience is only one of many thousands. Never-Tel comes in delicately-perfumed tablet form only, easily dissolved in a little water as used. Positively, yet gradually, darkens gray hair so beautifully your own friends can't tell. Never-Tel—radiant, dandruff, stimulates new growth, making the hair soft and abundant. No extra to buy, a simple home remedy that will not stain the most delicate skin. Fifty cents at all drugists; or, if you prefer, send direct to Dept. 322, Never-Tel Laboratories Co., Kansas City.

the Atlantic before the larger numbers come back as units.

"We purpose, when the divisions come back from France, to have them mustered out in the vicinity of their homes. The men from New England will be put in Camp Devens, for instance, and we intend to have these men parade in the nearest adjacent towns so that the home people can see their own soldiers.

"This scheme calls for the clearing-out of the camps at home and will take in each one of these camps a unit of the regular Army to police it and take care of it and make it ready for the troops as they come back from France. With reference to casualties in the American expeditionary forces, I cabled General Pershing to report in plain English and not in code, so as to save time, the name of every man killed, wounded or missing up to the time of the armistice not hitherto reported. I have had an answer this morning saying he would expedite it in every way."

CAMP LEWIS, Tacoma, Nov. 15.—No official advice concerning demobilization had been received at headquarters today. Plans for the return of men in development battalions as well as the conscientious objectors had been under way here, however.

When orders for demobilization finally arrive, officers said tonight, it is believed they will provide for exactly reversing the process which brought the men into the Army.

BOARD CALLS VOLUNTEERS

5000 Men Needed to Man Ships Carrying Troops.

WASHINGTON, Nov. 15.—Arrangements for bringing home the troops in France are being worked out rapidly from a shipping point of view, the Shipping Board announced today, in issuing a call for 5000 volunteers to man the ships that will be used for that purpose.

Chairman Hurley, before his departure today for Europe, left definite orders to rush all arrangements for this work to the War Department transport service, it was said, in co-operating fully with the Shipping Board.

Plans have been formulated whereby the Shipping Board will furnish crews for the War Department transports. Every month, it was said, 400 men will be required as firemen and other hundreds for ratings as sailors, stewards, cooks and coal passers.

Men between 18 and 25 will be accepted under the call issued today without regard for their draft ratings or previous experience and will be put aboard training ships at Boston, San Francisco, Seattle, New Orleans and Cleveland for six weeks' special training. Opportunity will be afforded those who enlist in this service to remain permanently in the merchant marine after peace has been signed and the entire Army returned to the States.

BOWERS' CATCH BIG ONE

LEUTENANT AND AIDES TAKE 47 BOCHES IN DAY.

Soldier Now in French Hospital Tells of Feat Performed Just Before Peace Came.

Lieutenant William Leicester Bowers, nephew of Judge C. U. Gantenbein, had the privilege of bagging one of the largest single catches of Hunns on record shortly before peace was being made of those desirable for that purpose.

The others, with all the divisional camps, he indicated, would be abandoned as soon as the men now occupying them have been mustered out. General March, chief of staff, made this announcement today, outlining the War Department's plans in answer to the questions the country has been asking since the day the armistice was signed and it became apparent that the war was over.

Prison Probe Halted.

The change, however, will probably not come before the final decision is made in connection with the prison probe. That probe has been suddenly halted by the illness of a grand juror in the financial center, which has been investigating here, and just how soon it will be renewed is problematical.

It is known that the Governor has assumed the attitude that he does not wish to discharge Warden Murphy while he is under fire, even if the reasons stated might exist. Inasmuch as the Governor is asking the Attorney General to make an investigation, couched his request in such terms as to include the whole prison and to exclude all personalities, the warden is considered as much under fire as any other prison official is until the final decision comes from the hands of the grand jury.

TWO BANKS CONSOLIDATE

EAST SIDE AND CITIZENS DECIDE TO MERGE BUSINESS.

Negotiations Under Way for Several Months Concluded With Full Approval of State Superintendent.

Merging of the East Side Bank into the Citizens Bank was completed yesterday afternoon and just jumped for directors of the latter corporation at its banking house at Grand avenue and East Alder streets. Negotiations looking to the consolidation of the two banks of the East Side business district have been under way for several months, and was concluded with the approval of W. H. Bennett, State Superintendent of Banks, who was present to assist in the merger.

Commission Won in Battle.

Miss Louise Baughman is informed that her brother, Ralph H. Baughman, was commissioned a Second Lieutenant after a recent engagement on the French front. Lieutenant Baughman was assistant sales manager for the Clyde Iron Works in Chicago before his enlistment. He spent several months at Camp Logan before being assigned to overseas duty and now is with the 108th Engineers.

Thompson Trial to Be Tuesday.

The preliminary hearing of Lewis I. Thompson, the architect, charged with attacking Miss Mina Arbuckle, 19, when she went to his office to apply for work, will be held in the Municipal Court next Tuesday. Mr. Thompson is at liberty on \$1000 bail. John F. Logan, who is representing Mr. Thompson in the case, appeared at police headquarters yesterday and secured a postponement of the hearing, which was set for yesterday.

University President Returning.

UNIVERSITY OF OREGON, Eugene, Nov. 15.—(Special.)—President P. L. Campbell, who has been attending meetings in Chicago of the American Council on Education and the National Association of Presidents of State Universities, will return to the university today. He will speak to university students in a faculty assembly in the afternoon, and will be in the city Wednesday morning about his trip and the work accomplished at the meetings.

MOUNTING COST OF PRISON UNDER PROBE

Governor Withycombe Making Quiet Investigation.

NO CHARGES ARE MADE

Increased Expenditures Are Not Proportionate With Those of Other Institutions.

SALEM, Or., Nov. 15.—(Special.)—For the past year the expense of conducting the Oregon State Penitentiary has been gradually advancing out of proportion to the increase in costs shown at the other institutions, and it became known today that Governor Withycombe is conducting a personal investigation to determine whether this increase is due to mismanagement of affairs there or whether it is due to circumstances over which those in charge have no control.

It can safely be said that the apparently excessive cost is due to mismanagement there will be a change in the wardenship of the prison. If the investigation leads the executive to believe that the mounting costs are not due to mismanagement, but on the other hand are due to increase in cost of labor, water and general maintenance, there will be no change.

No Complaint Made. As a general proposition, the executive has no particular complaint to make as to prison administration. One of Warden Murphy's policies have been modified or materially changed at the instance of the Governor, after he had allowed the Warden full swing in experimentation. It is possible the curb may be drawn a little tighter, but as to policies of prison management itself, with these exceptions, the executive makes no particular complaint. But as to fiscal affairs, as to possible waste and extravagance, it has been an open secret that for some time the Governor has been dissatisfied, and he conceded this fact today.

If a change is made at the prison it will be on a basis of bad management and to the cost of administration and for no other reason," the Governor stated. "But as to fiscal affairs, he is watching the costs at the institution gradually growing and have been making a quiet investigation to determine the reason therefor. With the extraordinary conditions that have been facing all institutions and departments, no man could fairly say that these mounting costs were due to waste and extravagance without giving the matter considerable time and attention, and no man could fairly say that another prison head would make a better record for fiscal management just because an increase in expense was shown. But it has become apparent that the increased costs are not proportionate to those shown by the other institutions and there must be some reason for this. If I determine that the reason is due to mismanagement, I have no hesitation in saying that there will be a change. If it is a change it will be for no other reason."

Prison Probe Halted. The change, however, will probably not come before the final decision is made in connection with the prison probe. That probe has been suddenly halted by the illness of a grand juror in the financial center, which has been investigating here, and just how soon it will be renewed is problematical.

It is known that the Governor has assumed the attitude that he does not wish to discharge Warden Murphy while he is under fire, even if the reasons stated might exist. Inasmuch as the Governor is asking the Attorney General to make an investigation, couched his request in such terms as to include the whole prison and to exclude all personalities, the warden is considered as much under fire as any other prison official is until the final decision comes from the hands of the grand jury.

The Citizens Bank was organized in 1890, and has reflected in its growth the progress of the district of which it is the financial center. Its last published statement, at the close of business November 1, showed resources of \$1,223,166.28. The paid-in capital, surplus and profits totaled \$330,884.14, and deposits \$1,132,377.87. The East Side Bank, according to its last statement, had a capital surplus and profits of \$100,000, and deposits aggregating \$600,000. The merged institution will therefore show nearly \$2,000,000 of assets.

Roger Newhall, cashier of the East Side Bank, has been in military service for some time, stationed at Camp Lewis. Advisability of the merger had been approved by the directors, but some time was consumed in working out the details. Recently the East Side Bank was brought into prominence by a robbery in which \$18,000 in cash and bonds disappeared. President Newhall had

head of the bank, and H. H. Newhall, president of the East Side Bank, becomes a member of the board of directors and vice-president. Joseph Paquet is also a vice-president; E. A. Clark, cashier, and A. W. Livingston, assistant cashier. These, with A. W. Lambert and O. M. Clark, compose the board of directors. M. E. Thompson retires from the directorate of the Citizens Bank.

Accurate Accounting

E. H. Frank, Traveling Auditor of the American Writing Paper Company, Holyoke, says:

"Equipment that not only fills the breach in these war times, but that has proved its efficiency over and over by its results is certainly 'doing its bit'."

"That's our comment on the Monroe Calculating Machines which we are using on all our cost work. Pro-rating involving multiplication, division, subtraction, and addition is now handled so rapidly and so easily that it fairly 'makes your head swim.'"

"The operation of the machine is so simple a child can operate it—and today with a continuous outflow and inflow of workers and a general lack of experience, a machine that everyone can operate not only keeps production up to the proper point, but proves itself to be a vital essential in a time."

"The Monroe through its visible check becomes practically an error-proof machine."

50,000,000 Soldiers in the World to Re-Clothe From Head to Foot

When they are mustered out and returned to civilian life. And there is not one-half enough wool in all the world to do the job. The terrible war just ended has exhausted the wool and by-product supply. Can you guess what the result is going to be relative to the price of clothing?

At the end of our little Civil War in this country common suits of clothing sold from \$75 to \$85. Cotton was \$2.25 a pound on the docks at Memphis. Calico sold at 75c a yard. If that was the situation then, you can safely double the price now after this world war, with its tremendous magnitude.

Will you buy your clothing now while the prices are comparatively low or wait until you will have to pay \$100 for a suit or overcoat? Our advice is to buy now.

And there is certainly good reason for you to investigate our profit-sharing, cash-selling policy, through which we give to our patrons one-half the regulation profit charged elsewhere.

insurance that covered a part of the loss and personally made good the balance to the bank. The incident of the robbery was in no wise connected with the change that has now taken place.

Popular Dallas Boy Wounded.

DALLAS, Or., Nov. 15.—(Special.)—Mr. and Mrs. I. N. Woods, of this city, have received word from their son, Laird, stating that he had been wounded and that he was now in a hospital. The young soldier said that he was wounded above the knee and that his injury was not serious. Laird was a member of Company L of this city when that organization left for France, but was afterward transferred to a Massachusetts regiment of the Rainbow Division.

Car Shortage Reported.

SALEM, Or., Nov. 15.—(Special.)—One thousand tons of chrome ore are held at

Prairie City by failure of the Sumpter Valley railroad to furnish cars, according to a telegram received by the Public Service Commission today from C. L. Rodrick, manager of the Zenith Chrome Company. "We have to stand for increased rates, but we can't get cars," he says. Read The Oregonian classified ads.
