HEALTHY hens are producers and profit payers. Weak, sickly birds are a constant source of loss. Frati's Poultry Regulator, the natural tonic and conditioner, makes and keeps poultry healthy, makes hens lay. It is especially helpful during this trying season of the year. Prevent roup and colds by occasionally using Frati's Roup Remedy. These troubles cut down egg production, reduce profits. Both preparations guaranteed satisfactory or money refunded.

GIGANTIC USED CAR SALE,

FOR SALE-AUTOMOBILES

I am overstocked with used cars and am going to sell them regardless of price. It makes no difference what these cars originally cost me or how much money I have spent on them putting them in first-class condition or what my price has been on them heretofore, they are now going to be sold at prices never before heard of in the used carmarket. I have only a limited amount of capital and must keep it, working all the time, and you know and I know that money tied up in stock is just the same as no money at all, especially when the market is sluggish, as it is at this time. This comatons condition of business I attribute solely to the abrupt ending of the war. I have talked to several dealers in the past ten days and they are all of the opinion that there is no use to try to do any business until the people regain their equilibrium, lost when the good news of peace reached us, and they seem content to hibernate until this new condition of affairs makes its appearance. Different here. I believe is that old-time adage, "Where there's a wall there's a way," and in order to prove my theory correct I will go the limit to move this big stock of used cars and trucks. There are a lot of people right here in Portland today that want to buy good used cars, and are just simply postponing it for no particular reason whatsoever. Let me tell you, good people, right now is the opportune time. Do not atand in your own light. Take everything into consideration and then put this question squarely to yourself:

Will I save money by buying a canow, when times are dull, prices are low and the dealers are hungy for business, or will I save by waiting untinext Spring, when the good weather has returned and prices have advanced and the demand is far greater that the supply?

There can be but this one answer: DO IT NOW. Call me up and I will have one of my salesmen call for you in a nice comfortable car and drive you down to the Big Used Car Clearing House, where you will have no trouble in making a selection from the finest stock of used cars in the city. Read carefully every word about the following cars. You will find it very explanatory; explanatory:
