

SENATE IS URGED TO HURRY REVENUE BILL

Action on Amendments Is Halted by Debate.

TAXATION PLAN ATTACKED

Senator Kenyon Asks 20 Per Cent Levy on Meals Costing More Than \$2 Per Person.

WASHINGTON, Dec. 14.—Formal notice was served on the Senate today by Chairman Simmons, of the finance committee, that beginning Monday, he would ask that all other business be laid aside to give continued and uninterrupted consideration to the war revenue bill.

Action on amendments was halted today by general debate, which caused Chairman Simmons to announce that it was necessary to expedite the measure and to that end he will endeavor to have the Senate dispense with miscellaneous business and by the recess rule give the measure right of way daily.

In resuming general discussion of controverted questions, Senator Smoot, of Utah, Republican, began an address, which he will continue Monday, attacking principally the plan for raising \$4,000,000,000 by taxation in 1920.

Senator Smoot said there was public misapprehension regarding this provision by the American people who had been led to believe \$4,000,000,000 would cover all Government expenditures, when at least \$10,000,000,000 will be required.

Numerous amendments to the bill were introduced today by later consideration. One by General Kenyon, of Iowa, would levy 20 per cent on meals in a hotel, restaurant or dining-car costing more than \$2 per person.

Senator Spencer, of Missouri, presented an amendment reducing the tax on fur from 10 to 5 per cent. At his request the Senate reconsidered its adoption yesterday of the 10 per cent rate.

SOLDIERS NOT IN NEED HELP BY STATE OR NATION DECLARED UNNECESSARY.

Men Returning to Western and Coast States Appear to Know Where to Go and What to Do.

"Of thousands of returning soldiers I met and heard talk, not one said he wanted to go onto any land the Government or state might offer him," says Colonel E. Hofer, who returned yesterday from a month spent in Washington, Montana, Idaho, Utah, Colorado and Wyoming.

"Neither did any of them seem to want any special provision made for them. All appeared to know where they were going and to have positions to go to. Theories advanced that states and Nation must give each one a homestead are not based on the wants and inclinations of the men themselves."

Discussing the Non-Partisan League, Colonel Hofer says that while in Colorado, A. C. Tonney, of North Dakota, held a state conference at the state agricultural college and 65 of his agents started out in Ford cars to sign up memberships for two years in advance.

"Not much radical legislation is proposed in any of these Western states," continued Colonel Hofer, "excepting the general program of state ownership of everything, which will be introduced wherever there is a little group of the North Dakota school of politics."

"The problem of farm labor is a serious one for the stock men in each state. There is a demand for legislation to protect the sheepmen against herders who abandon their flocks for high wages in cities and districts where they almost without trusty herders. It is proposed in some sheep and cattle states that herders give a bond and

works for first time in two years. Tanlac Restores Health After Everything Else Had Failed.

"Yes, sir, I'm willing to go before a notary and take an oath that Tanlac was the only thing that relieved my troubles after I had tried all kinds of medicines and treatments without success," said C. C. Sprague, who is well known for his interest in entomology, being an authority on the subject and having made one of the most complete collections of butterflies from this and foreign countries ever exhibited in the United States.

"My trouble started seven years ago with acute indigestion," continued Mr. Sprague, "and my stomach was in such a terrible condition that everything I would eat fermented and bloated me up with gas till I felt like I was going to choke and I was in misery most of the time. Then I suffered agonies from a pain in my back right across my kidneys, and my back became so weak and hurt me so much that I could hardly stand on my feet or even walk, and just had to quit working. For two whole years I was unable to do a lick of work; then after being idle so long I just had to get at something, and at the time I started on Tanlac would put in a week or two, then I would give out and have to lay off for a while. Everybody I consulted about my trouble disagreed as to the cause, some saying one thing and some another, and although I spent \$400 on medicines and treatments, trying everything I could hear of, nothing did me a bit of good, and I was as far from well as ever.

"One day I read in the papers where a party had been helped out of troubles like mine by taking Tanlac, so I decided to take one more chance, and positively, I hadn't finished my second bottle before I noticed a decided improvement. I felt so encouraged that I kept it up till I had taken six bottles, and I now feel as good as I ever did. I have a splendid appetite and my stomach never gives me the least bit of trouble, that awful misery is gone from my back and I never have an ache or pain of any kind. I never miss a day from my work now on account of sickness and I can get out in the woods and fields following my hobby collecting butterflies once more. I am so enthusiastic about the way Tanlac has fixed me up that I am constantly boosting it to all my friends. Tanlac is sold in Portland by the Owl Drug Co.—Adv.
