Get Your Irrigated Farm From the Canadian Pacific

TN a climate not excelled by any agricultural area in America you can own a fine, rich farm of your own. The Canadian Pacific Railway offers you this opportunity to achieve independence and grow rich - in Western Canada. The lands offered are in the largest and most substantial irrigation undertaking in the Continent. The price is only \$50 an acre-some for less.

You pay down 10% and have 20 years in which to pay the remainder. The first crop is often worth more than the total cost of the lands.

\$2000 Loaned to Farmer Loans of \$2000 in improvements are made to approved settlers on irrigated farms with no security except the land itself. You can take 20 years to repay this loan at 6% interest.

Irrigation, Crop Insurance This land is not arid but production can be greatly in-creased by irrigation. There is an unfailing supply of water which is administered under the direction of the Canadian Government. The provinces have no control over it and there is no conflict of law or authority over its use. The water is free, the only charge being a fee

The Opportunity for You The Canadian Pacific Railway knows that its prosperity depends on the prosperity of the settlers along its lines. Because it wants good settlers it is willing to sell its lands at these remarkable prices and terms.

Send for special railway rates and special booklet, fully describing all lands and giving all details. M. E. THORNTON

Canadian Pacific Railway 128 Ninth Ave. E., Calgary, Alberta.

Twenty Years to Pay of from 50c to \$1.25 per acre for the maintenance of the system and the delivery of the water. Irrigation here is not an experiment.

Why an Irrigated Farm? Because irrigation in Southern Alberta

-insures crops every year -increases crops every year -makes you practically independent of weather conditions

-produces great quantities ofcoarse grains, pasture, alfalfa, roots, thus developing the livestock industry which is safer and ultimately more profitable than wheat farming —tends toward close settle-

ment, well cultivated farms, good neighbors, good roads, schools, churches, mail deliveries, telephones, co-operative marketing, and a high standard of community
