It is estimated that the envelope brought to Armenian headquarters yesterday afternoon by Miss Mildred Petersen, of the Tri-L club contains several hundred dollars.

Electric Operation Income LESS IN PAST FIVE YEARS. Expenses and Overhead Charge Show Increase Since 1912; Statistics Are Prepared.

Decreases in traffic and income for five years ended with 1917, with marked increases in operating expenses and overhead charges, in contrast with large gains for the preceding decade from 1907 to 1912, are shown in preliminary figures of the forthcoming quinquennial report of the electric railways of the state.

The statistics relate to the years ending December 31, 1912 and 1917. The totals include electric light plants operated in connection with electric railways and not separable therefrom, but do not include steam and electric railroads nor railroads under construction.

The number of operating companies was eight in 1912, and eight in 1917, the figures show. The companies operated 598.23 miles of single track in 1917, as compared with 544.84 miles in 1912, an increase of 9.5 per cent for the period of 1912-1917 and of 135.3 per cent for the decade.

HOW TO FIGHT SPANISH INFLUENZA Avoid crowds, coughs and cowers, but fear neither germs nor Germans! Keep the system in good order, take plenty of exercise in the fresh air and practise cleanliness. Remember a clean mouth, a clean skin, and clean bowels are a protecting armor against disease. To keep the liver and bowels regular and to carry away the poisons within, it is best to take a vegetable pill every other day, made up of May-apple, aloes, jalap, and sugar-coated, to be had at most drug stores, known as Dr. Pierce's Pleasant Pellets. If there is a sudden onset of what appears like a hard cold, one should go to bed, wrap warm, take a hot mustard foot-bath and drink copiously of hot lemonade. If pain develops in head or back, ask the druggist for Anuric (anti-uric) tab-

MORMONISM A Distinctive Religious System By Dr. JAMES E. TALMAGE Of the Council of the Twelve, Church of Jesus Christ of Latter-day Saints; Salt Lake City, Utah.

In the popular classification of religions hordes the Church of Jesus Christ of Latter-day Saints if included at all is generally given mention apart from churches and sectarian institutions in general. The segregation is eminently proper for this Church is strictly unique.

At this point it is well to consider the fact that toleration in religious belief and practice is a fundamental tenet of "Mormonism." This is set forth in one of the formulated Articles of Faith: "We claim the privilege of worshipping Almighty God according to the dictates of our own conscience and allow all men the same privilege let them worship how where or what they may."

SMITH RELIEVED OF HIS TROUBLES Portland Man Enjoys Best of Health Since Taking Tanlac.

"One by one my troubles have gradually disappeared since I began taking Tanlac," said Henry Smith, a well-known carpenter who lives at 611 Eighty-second street, Portland, while in conversation with a Tanlac representative the other day. "About two years ago," continued Mr. Smith, "my health seemed to break down all at once. Prior to that time I had always been full of life and energy, but it all seemed to leave me, and I had a tired, dragging feeling all the time. I suffered terribly from indigestion, and every time I ate anything my food would sour on my stomach and cause gas to form, which would make me perfectly miserable for two or three hours after meals. My appetite was very poor, and for a year or more before I commenced taking Tanlac I couldn't eat a bite of breakfast. My stomach was in such a bad condition that if I ate the lightest kind of supper I would not sleep at all and would get up in the morning feeling awful. In spite of the fact that I took a great many different kinds of medicine, the condition of my stomach kept getting worse all the time. "I read in the papers where Tanlac had relieved a good many people of the same kind of trouble that I had, and I saw no reason why it wouldn't help me. I must say that I didn't get any relief from the first bottle, but by the time I had finished the second bottle I was feeling a great deal better and could see that Tanlac was going to do the work for me. Well, sir, I am actually hungry and go to the table and eat a hearty breakfast, and when the other meal times roll around I am right there, ready to eat anything and in fact I never suffer from indigestion or sour stomach now, and I eat all kinds of meats and vegetables. I am as full of life and energy as I ever was and can do my work without the least trouble. I am telling all my friends about Tanlac, and am ready to speak a good word for it any time." Tanlac is sold in Portland by the Owl Drug Co.—Adv.
