

## ARMISTICE SESSIONS WILL BE RESUMED

Meetings to Be Shifted From Spa Into Belgium.

## LAIBACH CLASH IS PROBABLE

Inquiry Being Made Into Recent Contention Between Italians and Forces of Jugo-Slavs.

PARIS, March 8.—(By the Associated Press.)—The supreme council reached a decision tonight whereby the negotiations interrupted at Spa immediately will be resumed at another point, presumably somewhere in Belgium.

The peace conference commission on Belgian claims, it is reported, has agreed in principle to the Belgian demand for Malmédy and the surrounding district. In Belgian circles it is expected that this will result in the peace conference approving the handing over of this region to Belgium. The Malmédy district is just east of the Belgian frontier and has been under German domination for a number of years.

**Inquiry Will Be Made.**  
The supreme council today appointed a commission to go to Laibach to investigate recent incidents there between the Italians and the Jugo-Slavs. The commission is composed of Major-General C. G. Treat of the American army, Major-General Gordon, Great Britain, Major-General Sarrailh, France, and Major-General Segre, Italy.

The report of the commission on Belgian claims which was in favor of a revision of the treaty of 1839 was adopted by the council.

**Payment Question Studied.**  
The supreme council, it is understood, will appoint an inter-allied committee of four members to investigate methods by which the states of the former Austro-Hungarian empire can pay for the food sent them by the allied powers.

Among the incidental matters under consideration by the council is some method for the improvement of ports and railway and telegraph systems in Austria, eastern Germany and parts of Russia. The council probably will recommend that the allies supply essential materials for this work to the amount of approximately \$100,000,000. The proposition made to the supreme council yesterday by Premier Lloyd-George for a clause in the peace treaty for reducing the German army much below the size previously proposed, definitely requires Germany to reduce her army to 15 divisions, according to information from French sources. The divisions would be formed of volunteers enlisting for 12 years.

**Railway Problem Important.**  
The council accepted the proposition in principle, referring it to a committee to draft the text which would be submitted to the council on Monday.

The question of the internationalization of railways and international waterways has come into sudden importance through the report made today to the commission on waterways, ports and railways of the peace conference by its drafting sub-committee. After discussion, the report went over until tomorrow.

The British desire to have the waterways used without discrimination, while the Americans, realizing the effect the application of this principle might have upon their great railway systems, are insistent upon confining the application of the principle of international use of such communications to special cases to be enumerated and especially to new states.

The Czechs-Slovaks and the Poles are disposed to resist the international use of their communications unless reciprocal privileges are allowed them.

The supreme council has appointed a commission to investigate the question of the German cables, a proposal concerning which was submitted to the council Friday by Secretary of State Lansing.

The commission, according to the Times, will decide whether the cables can be treated as prizes of war, and, if so, to whom they are to be distributed.

## EDUCATOR IS UNDER FIRE

Dismissal of Charles Neiderhauser Recommended by Board.

SEATTLE, Wash., March 8.—(Special.)—"That it is in the best interests of the schools that his engagement terminate," was part of the wording of the resolution adopted tonight by the Seattle school board in dismissing Charles H. Neiderhauser, teacher of history and economics in the West Seattle high school, who has been under investigation on charges of disloyalty and anti-Americanism.

The resolution was adopted with President Nathan Eckstein, Directors E. Shorrock, H. R. King and W. J. Santmyer voting in favor of it and with Judge Richard Winsor voting against it.

**People's Right to Decide Asserted.**  
"I am firmly of the opinion that the people of the state should have a right to select my successor at the general election in November, 1920," he stated there is some doubt as to just when my present term of office as governor expires but it has been my thought, and still is my thought, that the people should have the right to determine the matter at the earliest opportunity offered. I have had no idea other than that this right should be given to them to exercise at the first general election."

**Governor Olcott Had Planned on Issuing This Week a Summary of the more important policies which he would pursue in the executive office. Due to the stress of business attendant upon his sudden accession to his new duties, this statement will be issued some time during the coming week.**

had heard the Red Cross representative referred to as the "mouthpiece of America" and the reference became so frequent that he was obliged to issue a public notice saying that he represented the American government, and statements coming from any other source were unauthorized. Mr. Francis declared that Colonel Robbins wanted him to "follow the bolshevik government to Moscow" when it moved there from Petrograd.

The Red Cross representative was said by the ambassador to have had every facility placed at his disposal by the bolsheviks, with whom he was persona grata. He said when Colonel Robbins traveled the bolsheviks telegraphed ahead to help him in every way and that he even had authorization to have what telegrams he sent put ahead of all other messages, such privileges being denied to the ambassador.

## WOMAN STRUCK BY AUTO

Mrs. Ernest Pruitt, of Medford, Suffers Serious Injuries.

MEDFORD, Or., March 8.—(Special.)—Mrs. Ernest Pruitt, 25, was run down by a car driven by W. A. Crane here this afternoon and received injuries from which it is feared she will not recover. Mrs. Pruitt was crossing the street during a severe rain storm and passed in front of the auto, which came to a stop. Hurrying on, Mrs. Pruitt caught sight of another machine turning the corner from the other direction, and, apparently bewildered, she darted back directly in front of the first car, which had moved slowly on its way. The front wheels passed over the woman's body and dragged her 20 feet. She was taken at once to the Medford hospital, where an operation was performed.

Tonight doctors in attendance stated there was a slight chance of recovery. Mrs. Pruitt's husband, a member of the automobile firm of Pruitt & Hutton of this city.

## Arbitration Treaties Extended.

WASHINGTON, March 8.—Acting Secretary of State Polk, with the Spanish ambassador and the minister of The Netherlands, signed today five-year extensions of the general arbitration treaties between the United States and Spain and Holland.

My Special \$50 and \$100 Diamond Rings Have No Equal

## Selling Diamonds, Like Banking, Requires the Utmost Honesty

When folks deposit money in a bank they first must feel confident that the people who run the bank are responsible and honest. The same is true when one invests money in a diamond. For more than 18 years I have sold diamonds and am free to say that I have conscientiously given full value in every diamond we have ever sold. This, I believe, is fully borne out by the confidence with which buyers of good diamonds ask our advice on these gems. We shall be glad to show you a diamond at any time.

Prices range from \$10 to \$1650.

CONVENIENT TERMS  
Without Extra Charge.
