The Gaiety of Spring

Is reflected in the surpassing charm of the new Wonder Millinery spring hats. All the chic of Paris, all the verse of America have been caught in those beautiful creations of master designs.

The materials are worthy of the styles. Truly exquisite in their softness and lovely draping qualities—and the color range is unusually wide, including every variation favored by fashion.

The Wonder Millinery hats are known, admired and worn by fashion-conscious women.

Though moderately priced, they have the character and distinction of exclusiveness.

Spring Furs

Every piece is absolutely new, the styles show distinct novelty and originality and the pelts are those favored by fashion.

The quality of both skins and workmanship conforms to our usual high standard.
