The shoot will be started about 9:30 o'clock this morning according to Felix Friedlander, president, and he wants it known that everyone, whether or not they are members of the club, is invited to participate in giving Mr. Clemson this testimonial of appreciation for what he has done for trapshooting.

Besides the silver prizes ten dozen doughnuts will be given to the shooters who qualify in various positions, to be announced at the gathering. The added bird system will be used in counting.

The handicaps will be arranged by A. K. Downs, H. B. Newland and Eddie H. Keller, all experienced in that line and able to make the handicaps without incurring the chances of any contestant. are considered the natural commercial outlets to the sea for Czechoslovakia, according to W. Thomas of Seattle, by the commission on the international regime of waterways, ports and railways. This action, which grants the demands of the Czechoslovak delegates to the peace conference, would provide, if finally approved, that the new republic enjoy every privilege as to foreign commerce as by treaty as if they actually belonged to it.

Czechoslovak trade would reach Hamburg and Stettin through the Elbe and Oder rivers on board vessels of Czechoslovak colors. In addition to these craft, the republic would be allowed to possess a merchant sea fleet. The same privilege would be extended to Switzerland regarding navigation of the Rhine and the operation of merchant vessels.

The council of foreign secretaries and foreign ministers, organized Friday, did not meet today, but it was announced that it will meet Tuesday to hear in report of the peace conference commission on Czechoslovak affairs.

Paul Dutasta, the general secretary of the peace conference, went to Versailles today to arrange details for the signing of the preliminary treaty.
