GRAND JURY SCORES PARRISH AND ZIEGLER

Private Concern Would Have Dismissed Doctors, Report.

DEATH OF TUCK DEPLORED

Dr. O. A. Hess Charged With Slow Response When Prisoner Is Reported in Dying Condition.

Summary dismissal of City Health Officer Parrish and City Physician Ziegler would have resulted if the doctors had been in the employ of a private corporation and had given "the same inefficient service" as was displayed in the case of Eugene Tuck, who died at the county jail after having been sent there in a critical condition from the city jail, in the opinion of the Multnomah county grand jurors for the May term, expressed in their final report submitted yesterday to Presiding Judge Stapleton.

Dr. Parrish Not Disturbes.

Dr. Parrish Not Disturbed.

Dr. Parrish has been in the city health bureau for two years and Dr. Zlegler has been with the city for 12 years, and the Tuck case is the first in which any negligence has been charged against them. The report of the special jury selected by Mayor Baker, while condemning the system of record-keeping at the city emergency hospital, was not nearly as severe in its criticism of the health officer as the grand jury.

"In view of the verdict of men selected by the leading civic clubs of our city, after a full hearing in the open, the public and press being present, the secret hearing of the grand jury does not disturb me," said Dr. Parrish last night. "The public can draw its own conclusion." Dr. Parrish Not Disturbed.

The report was concise, and had none of the earmarks of a whitewash. No mention is made of the large number of witnesses called before the grand jury or deductions pointed out from their evidence. The report merely states the conclusions reached after a seven-day investigation. Dr. Parrish Blamed.

Dr. O. A. Hess, assistant county physician, and Andy Cameron, night deputy on duty at the county jall, are not exculpated but also are held to have been culpated but also are held to have been negligent. The chief blame, however, was placed on the shoulders of the physicians in the employ of the city. "Dr. Parrish was negligent when, on seeing Eugene Tuck on Monday and knowing he had a temperature of 102 degrees, he did not take the trouble of even examining him and also in not putting the deceased in the emergency hospital instead of a ceil." reads the report. Further, it holds that Dr. Parrish should not have permitted Tuck to be removed to the county jail in to be removed to the county jail in such a weak condition. The system of reporting sick patients

to the incoming doctor in the emer-gency hospital used by Dr. Parrish was found "inadequate and inefficient."

Inefficiency Is Charged.

weuld be immediately replaced," reads the report.

The grand jury finds that Jaller Cameron should have called in other doctors, also in the employ of the county, when Dr. Hess did not respond at once and that he should have been emphatic in informing Dr. Hess that it was Eugene Tuck who was sick. Cameron had told the physician that there was a very sick man at the jail who was held for murder and Dr. Hess had testified that he had thought the jailer referred to Foster, another murderer who had been receiving attention at the

The matter was investigated on the order of District Attorney Evans, following the report of John A. Collier, attorney for Tuck, that his client had died of neglect. Collier declared that Tuck had received scant attention at the city fall, that his physicial examination by Dr. Parrish and Dr. Ziegler had been a farce, that he had been compelled to sleep in a jall cell instead of being placed in the emergency hospital in the same building; and that he had been taken to the county jail in a dying condition. Death was from lobar pneumonia.

Riame Emphatically Placed.

Blame Emphatically Placed.

Blame Emphatically Placed.

The signatures on the grand jury report were: Henry Dickson, foreman; Thomas C. Luke, secretary; W. H. Hardy, Fred Meuller, Frank M. Haight, F. P. David and Charles H. Latorell, The jury during the May term examined evidence in 50 cases, returned and indictments, 12 not true bills and referred two cases to the incoming grand ferred two cases to the incoming grand

ferred two cases to the first provided in the Tuck case began before the city investigation ordered by Mayor Baker and continued simultaneously. The reports are much in common in the conclusions reached, although the grand jury states its findings more briefly and is somewhat more emphatic in placing the burden of blame on Dr. Parrish and Dr. Ziegler.

Attack Not Justified.

One mistake, if it may be called such, does not justify such an attack on a public official. It amounts to an injustice that long hours of faithful service should so for naught because of an affair of this kind, for which Dr. Zlegler and myself were responsible in but slight degree."

Dr. Ziegler has been city physician for 12 years and has been highly thought of by friends and associates. This is the first blemish in his official record. In view of thist, he believes it is wajust that the unfortunate death of

OREGON ARMY OFFICER PROMOTED IN FRANCE.

MAJOR CHARLES A. MURPHEY OF CORVALLIS.

Tuck should be attributed to his lack of care when the man was attended carefully and when every indication was that he could not have recovered, no matter what care he received.

One phase of the grand jury's report was criticized in particular by Dr. Parrish. That was where he was accused of allowing the man to be moved to the county jail in such serious condition. Dr. Parrish pointed out that he did not know that Tuck was being moved, nor did Dr. Zeigler, as it was done on order of the municipal court.

Indians Deplore Paying Taxes on Land.

Siletz Braves Seek Way to Enhance Profits From Farms.

NEWPORT, Or., May 31.—(Special.)

That some of the old Indians who have been government wards on "Dr. Ziegier should have made a complete examination of Eugene Tuck instead merely of looking at him and guessing at his lilness," the grand jurors find.

"It is this jury's opinion that if Dr. Parrish and Dr. Ziegier were in the employ of a private corporation and gave the same inefficient service they would be immediately replaced," reads and and will have to pay taxes, which

The Indians on the Siletz reserva-tion decided to avenge Shasta John's death and planned to grasp the sol-diers' rifles at meal time when they were stacked in a barracks house. This was in 1859 when Phil Sheridan was in command of the forces. Tyee Joe de-plored the killing of all the whites, settlers and soldlers, among whom he had friends, and exposed the plot to Sheridan. The young officer punished the guilty and never forgot Tyee Joe's kindness, often referring to him in later life.

NEW EXHIBITORS EXPECTED

Changes in Rose Show Plans Assure

Liberal Display.

The grand jury probe in the Tuck case began before the city investigation ordered by Mayor Baker and continued simultaneously. The reports are much in common in the conclusions reached, although the grand jury states its findings more briefly and is somewhat more emphatic in placing the burden of blame on Dr. Parrish and Dr. Ziegler.

Official Describes Work.

Dr. Parrish was appointed city health officer in Juns. 1917, and has been one of the busiest officials in the employ of the city. His shortest day in that time, he says, was 13 hours, including Saturdays.

"When the government started to cleanup disease conditions," said the physician last night, "I spent from four to five hours a day in the examination of women brought up for investigation. In one day I examined 103 such cases.

"During the "He' epidemic, for 30 consecutive days I never worked less than 15 hours a day, sometimes 24. I was always on hand during the relief at the auditorium between 7:39 and 7:45 every morning and there again at midnight during the relief period.

CORVALLIS MAN PROMOTED

CHARLES A. MURPHEY MADE MAJOR IN FRANCE.

Captaincy Won on Mexican Border; Military Service Begun in Iowa 19 Years Ago.

CORVALLIS, Or., May \$1.—(Special)—A cablegram from Paris today informed Mrs. Charles A. Murphey of this city that her husband, Charles A. Murphey, has been promoted from the rank of captain to that of major. Cap-tain Murphey was recommended for promotion last September, but before all finla papers were returned the ermistice was signed.

Major Murphey's military service be-gan 19 years ago when he served in the cadet corps of the Iowa University for three years. In 1903 he enlisted in Company F of the fifty-fifth Infanty of the Iowa National guard. He was

of the lowa National guard. He was made sergeant major in 1964 with which rank he was honorably discharged in 1906.

After coming to Oregon he was commissioned a captain of the Third Infantry, Oregon National guard in January, 1912, and assigned to the command of Company D, afterwards Company K, of this city. His company served on the Mexican border in the summer of 1916, and had the distinction of being the only company in the regiment, all of whose members took the federal oath.

The company was called to the col-

 \mathbf{Bad} leeth Are Worse than Booze

-Death lurks in the mouth. Decayed teeth erect more tombstones than old John Barleycorn ever did. Yet millions of dollars have been spent annually to eliminate the drunkard's grave. Every evil effect of alcohol is diligently sought, highly magnified and righteously condemned.

-Less than 1 per cent of the human family are confirmed drunkards. Eighty per cent neglect their teeth. Every decayed tooth is an enemy to health. No one derives benefit from a pus-infected mouth. -There are 100,000,000 human beings in the United States. Less

than 15,000,000 think enough of their teeth to visit the dentist with any degree of regularity. Few of those who visit the dentist regularly do so because they sincerely believe that good teeth conduce to longevity. Many people visit the dentist as a matter of pride and only have those teeth fixed that show. -There is a direct relationship between a clean mouth and good teeth and good health.

"Dental Shopping" Is Seldom Satisfactory and Sometimes Quite Confusing, so You May as Well Come Here First

Out-of-Town Patients

I have a special service for you, as I realize you must have your work done quickly. Operating my own large laboratories makes it possible for me to complete the largest and most difficult cases in from one to three days. The quality is far superior to that given by the smaller town dentist.
