

The "Vibrophone" Is Here

We are sole Oregon agents for the "Vibrophone," an instrument used on the mouthpiece of the telephone. It not only acts as a disinfectant, but it greatly intensifies the sound of the voice speaking through the phone and makes hearing much easier. These instruments, though very recently introduced, are finding great favor—numbers have already been installed in some of the city's largest institutions. Each \$1; dozen \$10. —Meier & Frank's; Drug Shop, Main Floor. (Mail Orders Filled.)

The Universal Combination Range

A range your friends will admire—your family enjoy. You will take pride in showing the famous Universal Combination range to your friends and best part of it is that the

Universal Combination

is just as practical and serviceable as it is beautiful. The great outstanding advantage of this range is its perfection as a gas or as a wood and coal range and the simplicity with which it can be converted from one into the other.

Just a Turn of the Key

is all there is to do when you want to change from gas to coal or vice versa. No heavy parts to change. Both fuels may be used at the same time if desired. This is only one of countless reasons why the Universal Combination is the range you should have in your home.

If Desired—Make Your Own Terms in Reason.
