So That All Women May Know The New Way to Sew

**A Demonstration and
Special Featuring of**

**The "Western Electric"
Portable Sewing Machine
—This Week**

is to be held on our Street Floor—just in
front of the elevators. You will see how
pleasant sewing can be made. How it will
be possible for you to sit on the porch and
sew this summer.

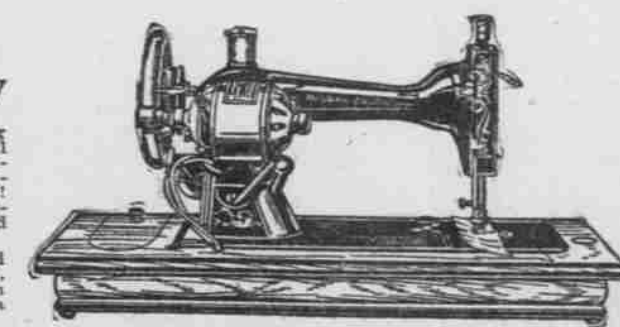

**Send in Your Old Machine and Use the Allowance
We Make as a First Payment on a New One**

that will make sewing a pleasure. You can put your foot on the pedal and sing as you sew,
letting electricity do the work.

**This Machine
\$1 Down, \$1 Weekly**

is the rotary type, with rotating
bobbin and automatic tension. It will
sew any fabric—from sheers to chif-
fon to heaviest woolens, and the ten-
sion will adjust itself automatically!
It is free from vibration, silent, effi-
cient and high-grade. Come in and
see.

—Other types being demonstrated
are the Automatic type, known, too,
as the single-thread machine which
produces chain stitch without a
bobbin.
—Another type is the two-spool
machine, which substitutes a spool
for a bobbin. It operates on a bob-
bin principle and sews direct from
two spools.

—All these machines are sold on the easiest terms we
have known to be quoted—\$1 down—\$1 weekly—with
liberal allowance for your old machine.
