

### OCEAN AIRMEN FACE PECULIAR PROBLEMS

#### Flight Supreme Test of Man and Instruments.

### SPECIAL CHARTS REQUIRED

Location, Course and Speed Always Pressing Questions, Says Lieut. Brown, Now on Way Over.

ST. JOHNS, N. F., June 14.—By applying methods of marine navigation to an air flight, Lieutenant Arthur Whitten Brown expects to fly across the Atlantic in the Vimy bomber machine, piloted by Captain Jack Alcock, and to "make a landfall" within 20 or 30 miles of his objective in Ireland or England.

Lieutenant Brown was an American electrical engineer before he joined the British flying service in 1914. He has described in a statement which he has prepared for the Associated Press, an interesting description of the difficulties encountered in a trans-Atlantic flight and the methods by which he hopes to overcome them.

"In flying over large bodies of water, such as the Atlantic ocean, where the pilot may be for hours out of sight of any landmarks by which he could judge his position, it is to the methods of navigation which have been developed by the mariners that the pilot must turn to for aid. The location and the course to his destination is," writes Lieutenant Brown.

"Unfortunately difficulties arise from the start in applying these methods with accuracy. This is true because the airplane is at the mercy of the wind and appears to be blown in any direction in which the wind blows with the speed at which it is blown. In the second place the speed of the airplane from five to ten times that of the commercial vessel.

**Special Charts Necessary.**

"The high speed of the airplane renders it necessary to make frequent observations for position, and this in turn makes it undesirable to use the slow, albeit accurate, means of calculation ordinarily employed. In consequence, special charts have been devised for use with the sun or stars which enable the pilot to fix his position in a very short time, although in which some of the more thrilling engagements of the late war, and the part played by the stars and stripes, were described.

The programme opened with an organ solo by Ralph W. Hoyt, of Portland lodge, who responded to two emcees. The singing of the "Star-Spangled Banner" was a feature of the reviewing programme, as was the singing of Columbia, Gem of the Ocean," by R. L. Crane of the Portland police quartet, with Harry Thorn as accompanist. "Carry Me Back to Old Virginia" sung by Mrs. Mischa Pelz, with Mischa Pelz, accompanist, proved a most popular selection, which brought an enthusiastic encore.

Ruth St. Denis made a stirring appeal in behalf of the Salvation Army, reviewing briefly the great good that organization is doing. Captain Ince, "America" by the audience brought the exercises to a close.

### WATCHMAN IS SHOT BY SUPPOSED THIEF

#### R. L. Whiteside in Hospital; Lung May Be Punctured.

### ASSAILANT MAKES ESCAPE

Police Have No Clue to Identity of Man Who Did Shooting; Think Burglary Foiled.

Special Police Officer R. L. Whiteside was shot down and seriously wounded at 10:30 o'clock last night by a burglar in the driveway of the residence of E. A. King, 136 King street, as he was making his rounds of that district. The burglar aimed deliberately at the officer over a hedge which runs east and west on the south side of the residence, and as the officer approached down the driveway the highwayman called him a vile name and then discharged his revolver.

The bullet from a .32-caliber revolver went through the fleshy part of the officer's left arm and lodged in his right side. The stricken officer was taken to the St. Vincent hospital by the Arrow ambulance and at a late hour last night was resting easily, although the bullet has not been extracted from his shoulder. It may have penetrated the left lung, said the operating physician at the hospital.

**Neighbor Gives Alarm**

Judge L. B. Stearns, of 190 King street, heard the shot and rushed from the house. Judge Stearns said that he heard the stricken officer shout: "Help, I have been shot."

"When I rushed from the house I found the officer lying on the concrete driveway between my residence and Mr. King's, who is away from the city at present. I immediately did everything possible to assist the officer and called the police station," he said.

Judge Stearns took the wounded officer into his residence and Special Officer Ray King, whose uncle owns the house at which the shooting took place, drove from the police station with Inspectors Howell, La Salle, Pat Maloney, Tom Coleman, Joe Day, Niles and Thompson to the scene of the shooting and the attempted robbery.

**Motorcycle Officers Norene and Scott and Officers Huntington and Drapeau responded to the call. Captain Ince, in charge of the first night relief notified every patrolman in the city to be on the lookout for the suspected burglar and prowler.**

Officer Whiteside said last night at the hospital as he was on the way to the surgery that he did not see the burglar until after he had been shot. He said that he was making his nightly rounds and not noticing a light in the residence of Mr. King's house, had started to investigate and had walked down the driveway towards the rear of the premises.

"I had proceeded only a short distance," he said, "when I heard myself called a vile name and was shot by the burglar. In the darkness he looked to be about 25 years of age, weight 150 pounds, about 5 feet 10 inches tall, slender build, dark coat and cap and sharp features."

Immediately south of the house and between it and the driveway a deep hedge runs. It is believed by the inspectors who investigated the robbery that the burglar hid in the hedge and himself behind the hedge and was a lookout for another prowler who was attempting to gain an entrance to the house.

Surprised by the sudden appearance of the officer, the burglar fired. The burglar then jumped a concrete wall on the north side of the house and ran east down an alley and out on Twenty-first street. They left no clue and the police could find no footprints last night, as the back yard is covered with a heavy lawn. No arrests have been made.

### ELKS PAY HONOR TO FLAG

#### DEPORTATION FOR RADICALS URGED AT AUDITORIUM.

Exercises Are Impressive, With Patriotism as Keynote of All Sections of Programme.

Deportation as the penalty for those who want to see the red flag of anarchy waving where Old Glory now flies was advocated last night by J. E. Gratke, past exalted ruler of A. A. E. U. lodge No. 130, who delivered the patriotic address at the annual flag day exercises of Portland lodge, No. 413, held in the Auditorium. The exercises commemorated the 142nd anniversary of the birth of the American flag, and were impressive throughout. The decorations with American flags and a large liberty bell of floral design, fashioned on the altar by officers of the lodge, was the center of an interesting ceremony.

Mr. Gratke declared that any man who enjoys the freedom of this country, but fails to become a citizen or to adopt the customs of America, is not entitled to the respect of honest men. He urged that foreigners who are endeavoring to foster a spirit of unrest in America be returned to the lands whence they came, that America might be purged of trouble-makers. He paid tribute to the men of the American Legion, saying the people of America hold them in the same reverence as they do members of the Grand army, and advocated prompt action to be taken against the returned soldiers "100 per cent men" as civilians by aiding in the reconstruction programme.

The Elks' tribute to the flag was delivered by C. E. Cochrane of Baker lodge, No. 325. Gus C. Moser, of Portland lodge, gave the history of the flag, in which some of the more thrilling engagements of the late war, and the part played by the stars and stripes, were described.

The programme opened with an organ solo by Ralph W. Hoyt, of Portland lodge, who responded to two emcees. The singing of the "Star-Spangled Banner" was a feature of the reviewing programme, as was the singing of Columbia, Gem of the Ocean," by R. L. Crane of the Portland police quartet, with Harry Thorn as accompanist. "Carry Me Back to Old Virginia" sung by Mrs. Mischa Pelz, with Mischa Pelz, accompanist, proved a most popular selection, which brought an enthusiastic encore.

Ruth St. Denis made a stirring appeal in behalf of the Salvation Army, reviewing briefly the great good that organization is doing. Captain Ince, "America" by the audience brought the exercises to a close.

### SEVEN ARE HURT IN CRASH

#### Grandstand at Seattle Collapses, 2 Women, 5 Children Injured.

SEATTLE, June 14.—With nearly 1000 adults and children in the seats, a temporary grandstand, erected in Woodland Park, collapsed late today, injuring two women and five children, none seriously. Due only to the fact that the stand virtually folded up as it tilted, instead of splintering, it is believed that no persons were seriously injured. Mrs. M. D. Foster suffered a broken leg, Mrs. P. O. Lee a broken arm and the children minor bruises and sprains.

The stand had been erected as part of the flag day picnic given more than 10,000 children of the city by a local lodge. It was only designed to accommodate 500 children, officials said.

### BIG PLANE OFF FOR IRELAND

#### (Continued From First Page.)

long distances, is part of the plane's equipment.

Captain Jack Alcock, the pilot, was among the British pioneers in aviation. He obtained his wings in 1912 and in 1913 and joined the royal air force immediately upon the outbreak of the war. He acted as an instructor at first, but was later sent to the Turkish front, where he held the record for long-distance bombing raids. He was later captured by the Turks and held prisoner until the armistice was signed.

**Brown Also War Veteran.**

Lieutenant Arthur Whitten Brown, navigator of the Vickers-Vimy plane, also is a veteran of the war, having served first as an infantry officer and later in the British aviation service until an accident to the machine in which he was an observer late in 1915 forced a descent in German territory where he was wounded and taken prisoner.

Lieutenant Brown was born in Glasgow, Scotland, but his parents are Americans, his father being a native of Schenectady, N. Y., and his mother of Pittsburgh, Pa. Young Brown registered as an American citizen upon coming of age.

**55-Mile Speed Expected.**

The Vimy bomber should reach Ireland at some point on the western coast about 3 o'clock tomorrow afternoon in the opinion of its skipper, Captain Alcock. He said that the weight of his fuel load would reduce the speed of his plane to 70 miles an hour during the early hours and he estimated that the average speed during the flight across would be 55 miles an hour. He expected that each of his 250-horse power engines would consume gasoline at the rate of 14.5 gallons an hour.

The machine in which Alcock and Brown are speeding to accomplish the first non-stop flight across the Atlantic is one of a type built to bomb Berlin.

### AVIATOR WELCOMES NIGHT

"Another hour passes, and it is time for another observation. This is taken in the same way as the first, and as the hours slowly pass, so the distance increases, and the data obtained from the observations pile up and give one increased faith in the instruments devised by man.

"Night comes on, and the stars begin to peep out. This is the best time for the navigator, for there are many stars and observation on two or three of them give him a more accurate position than he can obtain from the single observation afforded by the sun. It is too dark to see the surface of the ocean and the drift indicator cannot be used unless flares are thrown out, but frequent observations obviate the use of these.

"An accurate course is held until dawn, and the bearing of the sun is taken as accurately as possible as it rises above the horizon, giving the first fix for the day. Favorable winds have increased the speed and land should be sighted within three hours. Will it be the point for which the navigator is aiming? Now comes the great test of his accuracy and that of the instruments employed.

"Both pilot and navigator are on the alert, although tired after so many hours of strain and anxiety. Two hours away. We should now be in wireless touch with the land stations, from which messages have been received almost continuously since the departure.

"At last an answer is received ac-

### FORTIFY THE COMPLEXION AGAINST SUN AND WIND

MANY a lovely complexion has been marred through neglect of its owner to protect the skin against the changes wrought through unusual exposure to sun and wind. Now that the season of outdoor play and recreation is at hand, every woman should consistently use Santeptic Lotion, that delightful and indispensable toilet luxury, which affords absolute protection to the most delicate complexion. Summer sun and strong breezes have no terrors for the woman who uses Santeptic; it gives a complete protection from sunburn, windburn, tan and freckles; it keeps the skin soft and cool, imparting to it a wholesome, velvety texture. Santeptic also allays irritation and itching in cases of rash, prickly heat, mosquito or other insect bites; it is delightfully soothing and refreshing. It is prepared and unscented with powder in tint of white, flesh and brunette. Santeptic is easily procured at most drug and department stores. If you cannot secure it, send 50 cents, with dealer's name to the Santeptic Laboratories, Portland, Or., for a full-size bottle, postpaid.—Adv.

# SERVICE-WEAVE RUGS

9X12 FEET

Here You Are!

The kind that are closely woven and of the quality that will meet with your approval. That soft lustrous and soft color effect is foremost—they will hold firmly to the floor.

## Beautiful Room-Size Axminster Rugs \$42.50

\$5 Cash, \$1 Week, No Interest

**Sure Thing!**

The first impression of your home is usually a lasting one—have at least a rug in your living-room that will bespeak your good taste and cultured judgment. After going over the vast assortment of fine rugs displayed on the 2d floor of this big store—these elegant 9x12 Axminster Rugs with dignity and character were chosen for special display.

**Perfect Harmony!**

With your draperies and wall-tints can be had from new on—charmingly clever, two-tone effects, Golden Tans and Browns, Mixed Reds, Green, Blues and Old Rose. Designs with a degree of influence that captivate the critical eye—every one contains that rich, lustrous wool which adds durability and insures long wear and lasting relief to bare floors.

SEE 'EM THIS WEEK—IT WON'T BE LONG TILL THE BEST DESIGNS'LL BE GONE!

## Four-Room Outfit of Elegant Furniture—as Illustrated

Will Be Sent to Your Home by Edwards on the Small Cash Payment of Only

\$25

—This outfit is a choice yield from the furniture field; it may be possible that you don't need it all—then select any single piece or pieces.

—Easy weekly or monthly payments without any interest charges will be arranged to fit your individual requirement.

### Living-Room Suite of Solid Oak \$57.95

### Dining Suite, Also of Solid Oak \$46.70

—You'll be much elated with the beauty and size of these pieces. Table and two rockers are identical with illustration. The arm chair illustrated has been replaced by a beautiful rocker with leatherette upholstered seat.

—A big six-foot table and six fine saddle-seat chairs to match. Construction? Indeed, every detail has been looked after, even to metal braces under the chair seats. See this suite—you'll like it.

—Here's the suite they all admire. All pieces are well finished and have an exclusive touch of tone and refinement, from the delicate spray of moss roses and foliage that is all "Hand Laid."

### White Enamel Windsor Kitchen Set \$21.85

### Hand-Decorated Ivory Enamel Suite \$97.95

—It's left to you to decide if this is not the cleverest ever at the price. English Breakfast Table has white enamel base and golden polished top. The four chairs as illustrated are also in white enamel.

—Here's the suite they all admire. All pieces are well finished and have an exclusive touch of tone and refinement, from the delicate spray of moss roses and foliage that is all "Hand Laid."

### The Brunswick

Plays All Records at Their Best!

—All-wood Tone Amplifiers—a valuable aid to perfect tone production—in all the larger cabinet instruments.

—Then, too, the "Ultona" is a big feature; just a turn of the hand to play different makes of records. No more changing or (possibly) losing of parts.

—Oh, sure! You can buy a Brunswick at this store without being charged interest, even though you take a year to pay.

### Gibson - Peerless White Lined Refrigerators

All the walls contain an especially prepared non-conducting felt or charcoal sheathing, making it impossible for outer air to penetrate the box. Even with this superiority—only tasteful and odorless lumber is used. The outer cases are built of oak with that ever popular "Hand-Rubbed" Golden Wax Finish (the same as Edwards' popular outfit furniture).

SELECT A TOP, SIDE OR FRONT ICING STYLE—PAY THE EDWARDS WAY.

\$1.00 Weekly

### Indeed, a Phonograph Sensation

All Over Town Music Lovers Are Talking About the New Brunswick Method of Reproduction—Because

Metallic Sounds Have Been Banished Forever

### Behold--Your Credit Is Good as Gold

SELECT ONE SINGLE PIECE OR A HOUSEFULL —IT'S EASY-TO-PAY-TO-EDWARDS-WAY—

A GOOD PLACE TO TRADE

# EDWARDS CO

FIFTH—OAK STREETS

JUST TWO BLOCKS NORTH OF WASHINGTON.

### Monarch Ranges

"Vitreous Enamel Lining"—An added feature that prevents Monarchs from "rusting" on the inside.

"Pin-Front Water Heaters"—A water improvement over coils. Water is spread over a flat surface, and, naturally, it heats much quicker.

"Malleable Iron"—That's why Monarchs are riveted (no bolts or stove pipes), consequently they're absolutely tight.

"Duplex Drafts"—Even heat on the oven at all times—thus a beautiful baking, as the illustration shows.
