This Actually Removes Superfluous Hair Roots
(Entirely New and Instantaneous Method)

By the introduction in this country of what is known as the "phelaetina process," any woman can now rid herself completely of annoying superfluous hair or fuzz. The process is entirely new, different from all others, and far better—because it actually removes the roots, as well as the surface hair! It is instantaneous, perfectly harmless, odorless and non-irritating. Just get a stick of phelaetina from your druggist, follow the simple directions—and see the hair roots come out, with your own eyes! No depilatory or electrical treatment can produce this result. The skin is left soft, smooth and hairless as a child's. Phelaetina can be used with absolute safety—one could even eat it with impunity.—Adv.
