OREGON TENNIS MEET TO OPEN TOMORROW

Nearly 100 Entrants to Vie for Championship Honors.

SEATTLE TEAM IS STRONG

Phil Neer, State Junior Champion, Has Bright Prospects to Win Northwest Junior Title.

With a number of entries yet to come in Leonard C. Wilson, chairman of the tennis committee at the Laurelhurst club, estimates that nearly 100 racquet wielders will participate in the 1919 Oregon state tennis championship event which will start tomorrow on the courts of the Laurelhurst club.

Another spell of weather like the past seven days will mean ideal tennis conditions and with such a brilliant array of talent entered the 1919 championships should be a tournament long to be remembered.

Close competition is evident in the play for all titles—the men's singles, men's doubles, women's singles, women's doubles and mixed doubles.

Seattle will be represented by a stronger team this year than in many seasons and although the complete list of entries from the Puget sound city was not received up to last night by Chairman Wilson, a number of the greatest players of Washington have signified their intentions to compete and if on hand they will tend to make the race even closer than predicted.

Elmer Griffin, one of the famous trio of California net stars, is one of the latest additions to the Seattle tennis colony. Griffin, who is a summer resident of Seattle, is only slightly less famous as a tennis player than his brothers, "Peck" and Mervyn. Griffin will take part in the Oregon championships if he can possibly make the trip and friends here received word last week that he would enter.

Miss McDonald Holds Title.

Miss Mayme McDonald of Seattle, who is the present holder of the women's singles championship of Oregon, will be hard to defeat this year. Portland is depending on Miss Stella Fording and Mrs. W. I. Northup to bring the title here again. Mrs. Cushing, prominent Oakland, Cal., tennis player who starred in last year's state championships is again entered this year and will be a formidable contender.

Walter A. Goss, present men's singles championship, Phil Neer, Junior championship of Oregon and Catlin Wolford, 1917 state champion, are rated to have the best chance to win the title this year. A. B. McAlpin president of the Portland Lawn Tennis association and veteran tennis player, will referee the state tournament.

The Northwest Boys' and Junior championship which will be staged in conjunction with the state meet promises to be as closely contested as the big affair. Spokane, Seattle, Tacoma and Portland center championship winners will compete for the Northwest championship, the winner of the Junior title to be rewarded with a trip to New York to compete in the national championship next month.

Phil Neer, junior champion of Oregon and winner in the Portland center championship tournament completed recently, will make any player in the Northwest work hard. He has an excellent chance to win the Junior championship of the northwest. Two of the best players whom Neer will have to contend with will be Jack Wright, winner of the Inland Empire junior title, and Herbert S. Little, who won the Seattle center championship last week.

Many Events Listed.

Isadore Westerman won the Portland boys' center championship and will strive to defeat the other Northwest center winners. The list of events in the Oregon state championship follow:

P. J. Lee, Tacoma, Wash.—There was no column in issue of June 29, and consequently the Weekly that reached you July 5 contained no column.

In the next issue there will be some valuable contributions from N. Sanfield, William Lockhart and George Robinson.

J. Rathbone, 13 Baxter street, New York—Have returned the money and written. Will look over old files to aid you in supplying missing numbers.

George Robinson writes that the Vancouver Checker club is entirely separate from the chess club and that they have nothing to do with each other. Excuse the editor for mixing the Jeffreys checker challenge for one hundred bucks a side with the chess news.

Game No. 837—At the 34th move a play was omitted, i. e., 24-19 for the whites.

N. Sanfield, Centralia, Wash.—Those clippings from the Herald will aid us and are duly appreciated. The problem will be diagrammed next issue. Mr. Sanfield gives the Almo-Dewar, a stempster cracker-jack, thus: 11-15, 22-18, 8-11, 22-17, 3-8, 25-22, 11-16, 26-23, 7-11, 23-18(x, 16-23, 17-13, 10-14, 29-25, 14-17(y, 21-14, 11-16, 18-11, 9-18, 22-15, 16-20, 27-18, 20-27, 31-24, 6-10, 15-6, 8-29, B. wins. GAME NO. 864.

Mr. D. Bryant, secretary of the International Correspondence Tourney, contributes the following pretty game. Students study this play very carefully. Black, W. Thomson. White, K. (A) A tricky line of the Bristol presenting scoring opportunities to both sides. An acquaintance with the line is desirable if the pitfalls well known to a past generation of players are to be avoided. Kears encyclopedia gives 10-14 as the trunk line. (B) The work mentioned quotes a Wyllie-Rennie game leading to a white win after this move. The accepted play is by 2-6, 16-12, 4-8, 19-15, 11-18, 25-22, 17-26, 30-14, 6-9, etc. Drawn.—Lees. Var. I. B—8-12 would have won here, but we were sure friend Starkweather would play 16-12 and allow this cute catch to catch him: Black, 1, 6, 7, 8, 10, 14, 15, 20. White, 12, 13, 21, 22, 26, 27, 28, 32. Black to win: 15-19, 12-3, 19-24, 28-19, 14-17, 21-14, 10-17, 3-10, 6-31. Black wins.

L. P. Futerbaugh, Yakima, Wash.—That fine analysis by the old-time expert will be published without fail in next issue. Pardon delay.

D. R. Davies, Portland, sent in a correct solution to the George Robinson problem, No. 873, also to Nos. 869, 870, and his solution to 871 is exhaustive and complete. Mr. Davies, 380½ Morrison street, remarks that he is greatly pleased with it and thanks the editor for presenting it. Valuable contributions from Vancouver, B. C., will have to be held over.

Mr. Frickers' contributions from Plymouth, England, are very valuable and will be appreciated by enthusiasts.

A. K. Hanson, Roslyn, Wash.—Will publish soon and give the players a chance at it. P. J. Lee of Tacoma, Wash., can probably be of much assistance in the solution. Have forwarded your money to publishers for Mitchell's "Checkers."

SOLDIER GOLFERS GOOD

PLAYERS PROVE WAR HAS NOT SPOILED THEIR SKILL.

Returning Troops Hang Up Fine Scores and Indications Are Leaders Will Meet Skill.

NEW YORK, July 12.—(Special.)—There are many pessimistic individuals who believe that homecoming soldier golfers would have lost all their delicacy of touch when they finished fighting, but if those who have thus far returned are an example of what is to come—well, even the "champs" will have to look out. For instance, there is John N. Searns III of Nassau, who upon his return from France went to Pinehurst and wrought havoc among the contestants there.

Then there is Hamilton K. Kerr of Greenwich, who had been serving on a submarine chaser since the beginning of the war. He made considerable "splash" the first time he appeared at Belleair, wining the qualifying round and going through to the final in match play in one tournament. Henry J. Topping of Greenwich is another who did well in the south after being overseas for close to two years. As yet, however, Topping has not gotten into his old stride in the northern tournaments, but the season is young.

Topping won the medal in the qualifying round at Greenbrier not so long ago, finishing three strokes better than Oswald Kirby, metropolitan and New Jersey champion. Kirkby, incidentally, won the tournament, defeating Rodman Griscom in the final.

It only goes to show that these men are back with a razor-like keenness for the game, from which for a long time they have had an enforced absence. Others are soon to follow who will be just as anxious to get back on the tee and the putting green.

Sidelights and Satire.

WHILE everyone is spreading the bouquets around Jack Dempsey it is not amiss to throw a few posies at Jack Kearns. Until Kearns gathered Dempsey under his managerial arm Dempsey looked to have about as much chance to become champion as the crown prince has to become mayor of Paris.

• • •

Dempsey's victory in sport circles was just as popular as was the win of the Marines at Chateau-Thierry.

• • •

It's considered bum table manners to fire Irish confetti at a yapp who's so low, physically speaking, that he needs an elevator to reach the devil's domain. When a guy's mopping up the pavilion with himself in his 1910 uniform it's not considered commendable to sink a boot in his anatomy. Which proves that there isn't much sportsmanship in baseball. Lamp the way seven teams in the Coast league pick on Bill Clymer and his Purple Sox.

Anyhow, with those hundred thousand berries to keep him company, Jess Willard will not be lonely for a long time, even if the fight followers do happen to desert him.

• • •

Old Ed Walsh, whose renowned starboard wing has been the innocent cause of his drawing recompense from the Milwaukee troupe of the American association, is due for the exit. Ed probably hasn't offered any objections—in fact, he's probably welcoming his passport like William Jennings Bryan did July 1. Why should any one want to stick in Milwaukee now?

In August the great chess "victory tournament" will be held in Hastings, England, from the 11th to the 24th. Every arrangement has been made and the programme completed by the British Chess federation. Twelve leading players will be selected for the highest prizes. Jose R. Capablanca and Boris Kostich are expected to be present and take an active part. We regret that our popular champion will not take part this year, as the committee refuses to allow him more than $250 for expenses. He demands that $1200 be sent. The prizes run: First, 60 pounds; second, 50; third, 40; fourth, 30, and two pounds for each game won by a non-prize winner. Minor class: First prize, 25 pounds; second, 15; third, 10, and fourth, 5.

The women's championship tournament, open to women who are British subjects, promises to be the most beautiful and enthusiastic ever held in the kingdom. Splendid prizes for the first, second and third class players have been arranged for. Entrance fee: Five shillings in the third; 10 shillings in the second and one pound in the first.

Problem composing and solving tourneys for two-move and three-move problems will be an added feature in both of these tournaments. The president of the federation is Sir John O. Thursby, Bart., and the treasurer is H. E. Debell, 21 Robertson street, Hastings.
