

VIRGIN ISLANDS ARE BEING AMERICANIZED

Friendship of Inhabitants Is Already Aim.

PUBLIC WORKS ARE BUILT

Islanders Looking Forward With Great Hopes to Future Developments in St. Thomas Harbor.

ST. THOMAS, Virgin Islands, July 5.—(Correspondence of the Associated Press.)—These islands have been recently developed in some ways since they were purchased by the United States from Denmark less than two years ago. Now that peace has come the islanders are looking forward with great hopes to further developments in the future especially with regard to the harbor of St. Thomas.

The islands are under the control of the navy department and the administration of the naval officers and their relations with the local legislature, called the colonial council, have won the friendship of the inhabitants. The revenues of the islands are not sufficient to meet their requirements and the navy department has appropriated annually \$200,000 for public works and the general upkeep of affairs. Coupled with the frequent visits of American men-of-war and the spending of much money by the forces stationed on the islands, the naval authorities have endeavored to give the islands an Americanization is going on.

Natives fill public positions where possible and many are studying and preparing for any other opportunities that may offer. The hospitals have been improved and remodeled by officers of the navy medical corps and the American Red Cross has provided furniture and fixtures. Young native girls are being trained as nurses. A start has been made in teaching useful professions to pupils of the public schools. Better sanitary conditions and a proper water supply are being furnished.

The present governor, Admiral W. Oman, has held receptions to which all classes have attended. The people have Americanized and the national game of baseball has supplanted the English game of cricket. There are three bands composed solely of natives. War-time prohibition is in force.

Lively Interest Is Shown.

Generally the islanders are showing a lively interest in American ideas and customs. The celebration of the enthusiastic celebration of such national holidays as Decoration day and Independence day, when the people join with the authorities in patriotic exercises such as saluting the flag, parades and other celebrations unknown here before.

The same laws and methods of governing the islands as under the Danish regime still exist. Lack of change in this respect is attributed to the war. There is some dissatisfaction and agitation among local political aspirants who want American laws and customs to be extended to the islands. More conservative men do not share in this agitation but trust that the necessary changes will be made in time, when congress has decided what form of government the islands shall have.

FASTER CABLE IS WANTED

Honolulu Complains of Many Delays in Pacific Service.

HONOLULU, T. H., July 14.—(Special.)—Talk of the possibility of a new trans-Pacific cable has uncovered the long-standing grievance of local stock brokers and business men against the poor service of the cable. This line increased to 30 hours, then to 36 hours, and recently the messages have been two and three days late.

The stock brokers and business men will undoubtedly support any project that will insure better and quicker connection with the coast. Considerable interest is felt locally in the statement that E. P. Thomas, steel king, would work for better trans-Pacific service.

Condensed News.

National.

A new credit of \$157,545,000 for France was established Saturday by the treasury, making a total of \$3,010,026,889 advanced to that country. The total of \$3,415,490,927 advanced to the allies.

Plans approved by Secretary Daniels call for erection at Lakeland, N. Y., of one of the largest dirigible hangars in the world. Construction will be started immediately.

Considerable progress on the senate prohibition enforcement bill has been made by the judiciary sub-committee. Pending action by congress toward a permanent policy on distilling and a statute permitting traffic in German products.

The senate judiciary committee has begun consideration of the mass of testimony taken during the investigation of the disease of Attorney-General A. Mitchell Palmer to hold office.

Democratic members of the house were investigating committee today are preparing the minority report on the recent inquiry into the delay by the war department in disposing of its large surplus of army foodstuffs.

The special house committee to investigate operations and expense of the shipping board and emergency fleet corporation, appointed by Speaker Gillett, comprises Representatives Walsh, Massachusetts; Kelly, Michigan; Hadley, Washington; Foster, Ohio; republicans, and Representatives Steubens, Pennsylvania, and Connally, Texas, democrats.

Domestic.

Mrs. Anna Gump, a widow, and four children were suffocated in a fire in their home in Milwaukee, Wis. Two other children were rescued.

The constitutionality of the recent act granting woman suffrage in municipal and presidential elections in Tennessee was upheld by the state supreme court.

Major-General Enoch H. Crowder, who went to Cuba to draft new election laws, will return to Washington August 7. General Crowder has drafted a census law, an election law and a statute controlling executive pardoning powers.

No further effort has been made by officers at Fort Leavenworth to put to work the 2500 prisoners who have been under guard in their cells since last Tuesday.

To obtain a new air for the Yale anthem, "Bright College Years," which now is sung to the tune of "The Watch

on the Rhine," the class of 1899 has offered \$1000 as a prize.

Refusing to recognize the union or to grant women equal pay for identical work, the Columbia Graphophone company has offered its striking employees the 48-hour week with the same wages as for the present 48-hour week.

Sweeping investigation of food prices in every county in Ohio is requested in a communication sent by Governor James M. Cox to State Attorney-General John G. Price. Grand jury investigations are recommended.

Salaries of many assistant instructors and some instructors at Harvard university are lower than wages paid to street-car men, according to figures made public.

A housing survey of a block in East Thirty-third street, New York, made for the state reconstruction commission, shows one habitant in 43 tenement houses in which live 1700 persons. It is the property of a saloonkeeper, and comparatively few of the other 481 families on the block have ever seen it.

Foreign.

Fourteen senators and 24 deputies from Alsace-Lorraine will sit in the French parliament.

Appeal has been made to American bankers for financial aid for Italy to the extent of \$1,000,000,000.

The Bulgarian peace delegation has arrived at Paris.

The supreme council of the peace conference has decided to send a commission to the Hungarian people, advising them that if they eject the Bela Kun government and institute a government with which the conference can deal, the blockade will be lifted and food provided.

The members of the patents section of the international bureau for the protection of inventors.

SOLDIERS' FRIENDS WORK

ELKS PLAN TO ASSIST CRIPPLED MEN IS INAUGURATED.

San Francisco Contrasted With Patriotic Portland in Caring for Wounded Service Men.

When 150 soldiers from overseas, some armless, some legless, some blind and others with a variety of injuries, were fed at a banquet at the Palace hotel in San Francisco last Thursday and taken through San Francisco on a sight-seeing trip, the work of the Soldiers' Friend committee began.

Representatives of the Portland and Seaside lodges of Elks are responsible for the idea and its eventual beginning, which is expected to become nationwide through the efforts of all Elks lodges in this country.

Julius J. Berg, exalted ruler of Portland lodge and Geo. O. Brandenburg, chairman of the Elks committee of the state Elks association, were Portland's representatives at the meeting at which the authority of the Elks for Mr. Brandenburg reminded in San Francisco and attended the banquet held for the wounded boys who were receiving treatment at the Letterman General Hospital.

While Mr. Brandenburg was on San Francisco he received word from the Portland lodge that a position for one of the boys was available and a young man who could fill the job was found, which is a relief indeed, according to Mr. Brandenburg, who will report in Portland this week for his new work.

Incidentally, San Francisco is charged with lack of patriotic interest. "When we reached the hospital," said Mr. Brandenburg, "we found 50 wounded men sitting on the lawn waiting to be taken to the hotel. Seven cars were inadequate and as a result we were delayed for several hours. The appeal had been made in Portland we would have received twice as many cars as we asked for."

Mr. Brandenburg will outline the plans of the Soldiers' Friend committee to the delegates in attendance at the annual convention of the Oregon State Elks association in Klamath Falls, August 14, 15 and 16.

HAWAII PERMANENTLY DRY

Attorney-General Sees Little Hope for Change in Islands.

HONOLULU, T. H., July 18.—(Special.)—The possibility of Hawaii becoming "wet" again, that is, legally "wet" in the islands, has become a "wet" to the extent of beer and light wine until the constitutional amendment which the islands have become "dry" provides that two years subsequent to the signing of the treaty of peace 20 per cent of the voters may petition for a repeal of the measure.

Attorney-General Irwin believes that the two-year clause became null and void when three-fourths of the states of the Union ratified the constitutional amendment for national prohibition after the first of the year. There is a possibility the Hawaii may become "wet" to the extent of beer and light wine until the constitutional amendment which the islands have become "dry" provides that two years subsequent to the signing of the treaty of peace 20 per cent of the voters may petition for a repeal of the measure.

COTTAGE GROVE BELT SAFE

Standing Timber Escapes Damage by Forest Fires.

COTTAGE GROVE, Or., July 25.—(Special.)—With its some 20,000,000,000 feet of timber in tributary territory, Cottage Grove has been peculiarly fortunate this year in regard to forest fires. While destructive conflagrations have been raging elsewhere, very little of the woodlands of standing timber in this section has been threatened.

The only bad fire has been in the Bohemian district where every star lightning sets the woods afire. Only in the past day or two have the flames reached the tops of the trees, which is necessary before damage results. Forest Ranger Holderman has a crew of 35 men who are keeping the flames under control.

Stellacoom Fugitive Captured.

SALEM, Or., July 25.—(Special.)—Charles Haverst, who says that he escaped from the Washington state hospital at Stellacoom, was picked up by the officers at Brook's yesterday and brought to the sheriff's office here. Haverst was examined by the Marion county jury board and committed to the state hospital here.

Vancouver Accepts Invitation.

VANCOUVER, Wash., July 26.—(Special.)—Grocers and butchers of this city have accepted the invitation of the grocers' association of Portland to attend the picnic which is to be held at Bonneville August 8. Those going will take trains from Portland. A programme has been arranged by the Portland grocers and butchers.

STREAMS SALES MEN BURNING FOREST

Flames Pass Over 70 in Water, Neck Deep.

MONTANA WANTS TROOPS

Supply of Fighters Is Rapidly Being Exhausted; Buildings in St. Ignace Are Destroyed.

MISSOULA, Mont., July 26.—A crew of nearly 70 men, fighting a fire in the Selway forest last Thursday, were trapped by the flames and saved themselves by leaping into a stream, where they remained up to their necks until the fire had passed.

One horse was lost and several badly injured, the saddles being burned from their backs. The men's camping equipment was destroyed.

HELENA, Mont., July 25.—The Montana state council of defense has issued an appeal for federal aid in fighting the forest fires, which, it is declared, have got beyond control in various parts of the state.

This action was taken at a meeting of the council today. Telegrams were sent last night by Governor S. V. Stewart to the commander of the western air division of the army at San Francisco and to Washington asking if federal troops could be sent in case of an emergency.

Governor Stewart also has telegraphed the Montana delegation in congress urging the members to cooperate with Governor S. V. Stewart, Idaho, who is in Washington, endeavoring to have troops sent to fight forest fires in that state.

Fires Fanned by Winds.

Forestry officials, both government and state, report that high winds the last two days have fanned the forest fires to a strength which makes their control by the present forces, tired out by weeks of constant duty, problematical.

The appeal by the council of defense is directed to the war department and asks that sufficient troops be sent to cope with the situation.

MISSOULA, Mont., July 25.—Damage of \$45,250 was done by a fire that destroyed nine buildings and a barn near here today. The fire, which started when E. T. Crowe, project engineer of the United States reclamation service, had turned on the water available that runs from the great reservoir nearby. With this supply the firefighters were able to stop the flames.

New Fires Exhaust Labor.

With new fires springing up everywhere and the supply of labor rapidly being drained, the forest fire situation in western Montana has reached a stage where, according to statements made by the forestry officials, the part of forest-fire officials.

Three new fires were reported today in the Lolo National forest, three in the Missoula forest and 12 in the Clearwater forest, while fires today continued to threaten.

The joining of the Cold Creek fire with the blaze coming down Long Gulch Creek in the Lolo forest caused a fire, which spread in three directions at a dangerous pace, although it was temporarily checked when it reached the old Black Tail burn.

Control Lines Are Jumped.

The Hughes Creek fire in the Bitter Root forest jumped the control lines several times. Although the flames were held in principle in his plan, the fire in the Hughes creek this is one of the biggest fires of the district and is considered very dangerous.

The Running Creek fire has cleared the Salmon mountains, jumped into Montana and now is burning over a large area. Large crews are being sent to the Elvoro fire and are holding the blaze on the west side, although it is spreading rapidly and is considered serious.

It was expected a complete fire line would be thrown around the dangerous Rattlesnake fire this afternoon. This fire has burned over 5000 acres.

The Cabinet reserve has two new fires, the larger one 300 acres in extent, one at Glidden Creek and another at Blue Creek.

The Klamath forest has several fires burning badly. The fire east of Elk City in the Nez Perce forest is very bad, with 115 men fighting it.

WEATHER AIDS FIRE FIGHTERS

Situation in Northern Idaho Is Considered Improved.

SPOKANE, July 26.—With the exception of a fire on Bear creek, near Enaville, Idaho, which was burning over 1500 acres, and perhaps two or three other blazes, the fire situation in northern Idaho continued to show improvement today. Cool weather was helping the fire fighters to hold the flames in check, although high winds were reported from several sections.

To the 150 men fighting the Bear creek fire to keep it from turning back on Enaville and the Couer d'Alene valley, were added 50 more from here today. Supervisor Ryan of the Bend Oreille forest today expressed the hope that within a few days the big Pack river fire might be halted, with continuing favorable weather.

A fire in Stevens county, Washington, southeast of Colville, today has spread into Pend Oreille county and was burning over an area of 30 square miles. Although it is in good timber, it is moving slowly.

The fires in the Klamath forest were burning slowly today and numerous other fires in northern Idaho were reported under control.

Official Casualty Report.

PRICE-FIXING DEMANDED

REMEDY FOR PROFITEERING IS OFFERED BY W. H. BLACK.

Sky Rocket Cost of Living Regarded as Most Pressing Problem. Breaking Point Nearer.

NEW YORK, July 26.—Price-fixing commissions by the government are the only remedy for profiteering in the necessities of life, in the opinion of William Harmon Black, formerly vice-chairman of the war labor board, who declared today for England and France. He declared that even men who intended to be fair had been forced into exactions not warranted by the situation.

"The pressing problem," he said, "is the skyrocket cost of living. It is all paid by the ultimate consumer. The country believes that nearly everybody who can is profiteering. Nearly every man is raising the price of everything he sells. If nothing is done to check this abnormal inflation in prices, the stage will finally be reached where there will be a breaking point to relieve the tension."

Suggesting the remedy of price-fixing commissions, Mr. Black said as far as the power of the government to create such a commission was concerned, "the supreme court which read the rule of reason into the Sherman act could read fair prices into a decision which would void an act creating a price-fixing commission."

He pointed out that the war labor board had fixed the prices of labor and that the price of wheat had been fixed and maintained that there was no difference in principle in his plan. If the federal government was found not to have jurisdiction over prices of production within the states, Mr. Black proposed that each commonwealth appoint a commission to regulate prices within its borders.

As to the composition of such commissions, Mr. Black held that the unorganized consumer should be represented, especially that part of the consumers who do not produce and who have most bitterly felt the pinch. He suggested that each commission should be composed of a laborer, a capitalist, a railroad man, a steamship man, a farmer or miner, a manufacturer and a consumer and should include one woman member.

Mr. Black did not say whether he had submitted his plan to the president.

Bolshevist Warning Issued.

SOUTH BEND, Wash., July 26.—(Special.)—Very Reverend D. Hanley, vicar general of the diocese of Seattle, in an address before the South Bend Commercial club this week, warned against the danger of Bolshevism, which was attempting to sweep away democracy and substitute for it the doctrine of socialism.

Fire Precautions Taken.

SOUTH BEND, Wash., July 26.—(Special.)—To prevent a repetition of the threatening fire of last Sunday, Tokeland has taken steps to further protect the fire area. Making it a heavy penalty to build camp fires where it will have contact with the driftwood.

Who ever heard of a genuine Pearl Necklace for \$10?

THE Add-a-pearl NECKLACE

The perfect gift for the baby, the girl, the young lady, the bride—

The Add-a-pearl Necklace consists of a group of genuine pearls strung on silk and inserted in a fine gold neck-chain, with provision to add a pearl as occasion demands. The most fascinating way of assembling a pearl necklace.

Pearls as an investment

The same amount invested in pearls is denoted in stock means. It would today show the pearls a 25% profit on investment. This will always be true.

Come in and let us explain this new gift idea

REGULATIONS MISUNDERSTOOD; NO CHARGES FILED.

MARRIAGES TO BE PROHIBITED BY AMERICAN ORDER EVEN AFTER TREATY IS RATIFIED, IS REPORT.

COBLENZ, July 26.—(By the Associated Press.)—Reports of marriages between American soldiers and German girls have been received at headquarters from various parts of the occupied area during the past few days, but as yet no charges have been filed against any of the men. It is believed most of the marriages were due to misunderstandings regarding the anti-fraternization regulations.

A week before the treaty was signed, several of the chaplains through a misunderstanding, informed the soldiers that marriages were permissible as soon as the German accepted the peace terms. Officers say that a number of marriages took place before this belief was corrected by a special order from headquarters calling attention of officers and men to the fact that until the United States ratified the treaty Germany and America technically were at war and the regulation prohibiting fraternization was still in force.

At headquarters it is said that even after the United States ratifies the

ing at the time he married Mrs. Franklin last September, is to be returned to Vancouver by federal officers for prosecution, according to statements made by army officers at Vancouver barracks. Franklin was recently arrested at Jacksonville, Fla.

A Berkshire, Mass., farmer set up a scarecrow in his cornfield, near the railroad, and the trainmen pelted it with chunks of coal that the farmer got more than two tons of coal out of it.
