

BUYERS' WEEK

125 FIRMS ARE TO KEEP BUYERS' WEEK

Number of Participants More Than Ever Before.

BIG DEALERS ARE INCLUDED

Visiting Merchants Who Buy \$500 and More of Goods to Have Traveling Expenses Refunded.

One hundred and twenty-five Portland manufacturers and jobbers will take part in Victory Buyers' week, which opens in this city tomorrow, the number of participants being more than ever before and including all the larger wholesale dealers and manufacturers of the city.

Under the regulations issued for Buyers' week each visiting merchant who purchases goods totaling \$500 or more during the week from the participating Portland firms will have his traveling expenses to Portland refunded. This offer will hold good whether he comes by train, boat or automobile. A list of goods purchased from each firm is retained and at the end of the week purchases are totaled to determine what buyers are entitled to the refund.

Regulations Are Issued.

The only regulation which is to be observed in this respect is that the goods in question must have been purchased from one of the 125 business houses here which have banded together to make Victory Buyers' week a success. Goods purchased at other Portland houses cannot be counted in the total. Practically all the large jobbing firms and manufacturers have joined the Buyers' week forces this year, however.

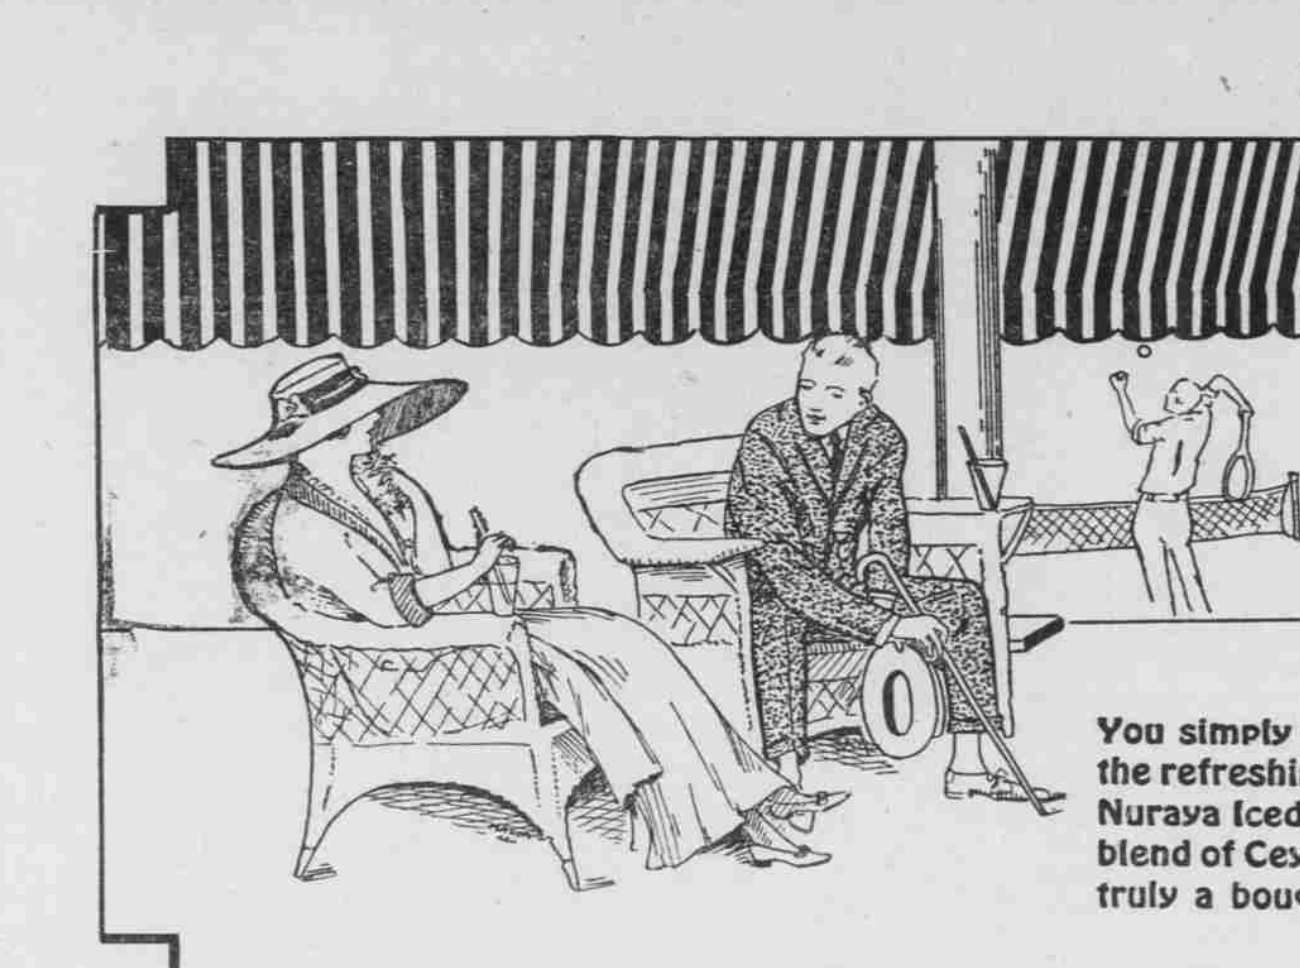

Goods of almost every description can be purchased in Portland this week by visiting merchants, so large and varied is the stock which will be offered. Proprietors of clothing stores will find probably the largest line of these goods here of any point on the coast, while representatives of druggist firms, grocery houses, hardware concerns and general stores will be equally favored with large and varied stocks to look over. Bathing suits, tobacco, musical instruments and candy are among the supplies offered by the jobbers here in wholesale quantities. In fact, in looking over the list one comes to the conclusion that there is scarcely any salable article which cannot be found in wholesale lots among the Portland jobbers.
