The DUO ART

The Piano You Can Play
The Piano That Will Play for You

When you buy the Duo-Art Pianola Piano, you buy two almost priceless privileges: The ability to play the piano; the power to command the services of the world's greatest pianists to play for you.

This is what the name "Duo Art" means—your art, and the art of others.

The regular Pianola music roll makes you a master of the piano's keyboard—gives you the technical ability to play any composition ever written. The roll supplies the technique. You supply the expression. You can become a genuine artist playing the Piano. Every emotion you wish to express, every subtle shade of meaning you wish to put into the music—is possible to you through the exclusive and vital expression devices of the Pianola.

Through the Duo Art Piano's

reproducing feature, you possess an autocratic command of the world's greatest pianists by means of the special Duo Art rolls they have made—Paderewski, Hofmann, Bauer, Gabilovitch, Ganz, Grainger and scores of other great pianists—will play for you. Whenever you wish you can summon them to your home to play your piano. And the playing of the different pianists is not merely imitated; it is their actual performance. By playing on a recording piano, the artist makes the roll. This roll placed in the Duo Art repeats the performance. Nothing is changed, nothing is lacking. Every shade of tone, every subtlety of touch, of nuance, of phrasing and pedaling is there. The Duo Art is truly the most extraordinary and important invention in the history of music.
