TODAY and All Week

TODAY and All Week

Captain November Jones, U. S. A., was a regular hero, with medals 'n everything, but he preferred the blaze of battle to the blaze of glory awaiting him in his home town. He tried to be a coward—thereby hangs the tale, and a big bundle of thrills and excitement tied with a string of laughs.

ADDED ATTRACTION!!

The Great Musicians' Joy Strike

(which we are forced to play whether we want it or not). The absurd ultimatum of the Musicians' Union goes into effect in the morning. They say we HAVE to employ eight more musicians—whom we need about as much as we need eight Eskimos and a dog team.

Meeting their demands means a raise in admission which we don't want and YOU don't want, so we intend to amble along at the same old price in the same old way. Everything else has been raised on YOU, the public, so here's a chance for you to keep your amusement prices where they are—GO TO A MOVIE EVERY CHANGE OF PICTURES.

11 A.M. to 11 P.M.

PROFITEERING IS FINE ART

SIBERIAN SPECULATORS TAKE 100 TO 1000 PER CENT PROFIT.

Traders, Many of Them Smugglers, Obtaining Foreign-Made Products, Reap Rich Harvest.

OMSK, Siberia, July 19.—(Correspondence of the Associated Press).—Profiteering has reached its apex as "a fine art" throughout central and western Siberia, where no speculator is satisfied with less than 100 per cent profit and often gouges as much as 1000 per cent out of his hapless customers, according to stories coming in here.

These traders, many of them smugglers, who, taking advantage of the shortage of everything except the products of the country, the unstable value of the ruble and the difficulties of transportation, contrive to get through with a few pairs of shoes, particularly ladies' shoes, a few bolts of silk or dress goods, a few cases of tinned fruits, or, in fact, any foreign-made product whatsoever, reap rich harvests.

Before a regular express service was inaugurated the many special trains coming up from Vladivostok and Harbin were the targets of the speculators. By connivance with the porters and unknown to the other occupants, nearly every special brought in its complement of merchandise stowed away under berths and in obscure corners, to be handed over upon arrival at some designated point.

The Red Cross has had its difficulties side-stepping the dealers of this gentry from time to time. On one occasion, it is related, a Red Cross representative in Irkutsk was approached with an offer of a hundred pairs of shoes as a gift for the good of the cause. In due time they arrived, from Dalren, but in place of one hundred pairs there were one thousand. They had passed the customs free of charge, being consigned to the Red Cross, and it was the owner's expectation that the extra 900 would be delivered to him. They were all bundled off to Dalren.

The speculators' day will have gone, however, it is said, as soon as the traffic is readjusted under the inter-allied committee management and legitimate commerce is resumed. Many of the abuses have already been corrected through closer government inspection at the frontiers, but in spite of all efforts to check it, the speculation evil still persists.

CAMPANILE TO COME DOWN

Stones to Be Removed One by One, Ready for Restoration.

CAMBRAI, France, Aug. 12.—The beautiful campanile of the Cambrai cathedral, with one of its corner columns badly breached by shells, condemned to destruction by the engineering corps of the army as a menace to public safety, was to have been brought down yesterday by dynamite. It was saved from immediate destruction by an eleventh hour intervention on the part of friends of art.

The campanile will be taken down stone by stone, the material being classified and laid aside to be put in place again when the cathedral is restored.

GERMANS TO PAY LOSSES

National Assembly Proposes to Reimburse for Revolution.

WEIMAR, Aug. 17.—The national assembly has received a bill covering reimbursement for personal injury or property losses, incurred since the revolution. It provides that those who have suffered losses, injury and death have a right to recover from the government. Money claims are limited in the measure to amounts necessary to replace damaged property to actual expenses in case of personal injury and to grants for loss of labor and for death. The national government, the state and the community are each to bear one-third of the costs.

GERMAN PRICES STAY HIGH

Conditions Adjust Themselves as Result of Lifting of Blockade.

COBLENZ, Aug. 23.—(Correspondence of the Associated Press).—Living conditions in the interior of Germany are rapidly adjusting themselves as a result of the lifting of the blockade. However, according to the German newspapers, it may be years before food prices become normal or virtually the same as before the war. Some German editorial writers, complaining of

high prices at the present time and during the war, contend with bitterness that the low cost of living enjoyed by Germany for so many years is gone forever.

As an indication of improvement in the food situation in one German city the Kolonialwaren Zeitung of Leipzig says:

"Profiteering trade prices plainly show a falling off, since the lifting of the blockade. The overcharges on pork have long since been removed and the fat shortage has ceased. To be sure the demand for fresh meat is as great now as before in consequence of the cessation of domestic slaughtering. This need, however, is covered in the main by the restoration. Everywhere one finds, in the eating places, beef, veal and pork meat without limit and at reasonable prices. One can once more eat at noon in Cologne for 4.50 marks and in a wine restaurant for 5.50 marks; therefore, it appears as if conditions are coming which are acceptable."

CREW, DRUNK, HURL BOMBS

400 Bottles of Stolen Whisky Sets Sailors to Celebrating.

(Copyright by the New York World. Published by arrangement.)
LONDON, Sept. 6.—(Special Cable).—Seventeen of the crew of the British steamship War Magpie, bound for Russia with stores, stole 400 bottles of whisky, brandy and port from the vessel's hold while she was at anchor in the Mersey, says a Liverpool dispatch to the Daily News. In their drunken orgy the sailors threw bombs about, endangering the War Magpie and other shipping.

In police court today the men were charged with theft and the story of their amazing escapade was told. It was testified that there was petrol aboard the War Magpie, involving great danger of that ship's being blown up with others in the port. All of the party, except the ship's boy, were incapable of working.

The boatswain was sentenced to four months at hard labor and the 16 others to three months.

SERVICE RISE IS SOUGHT

Hoquiam Companies Ask Right to Increase Water and Gas Rates.

HOQUIAM, Sept. 6.—(Special).—Declaring they have been forced to the step by recent increases made to their employees and to the rise in the price of fuel, machinery and general operating necessities, the North Pacific Service

company, which controls the gas service for Hoquiam and Aberdeen, and the Hoquiam Water company, have notified the city commission they have applied to the state public service corporation for permission to increase their rates. The gas company would establish a minimum rate of \$1 per month, with an increase of 10 cents per 1000 cubic feet.

FROM the mystic lands of the orient—from Persia, from Turkey, from China, from India—come these wondrously alluring and beautiful

Oriental Rugs

You will feel a just pride in the ownership of one of these. Each rug has a meaning, for into each the patient weaver has woven the epic of her life!

Changed conditions in the orient will necessitate an early advance in the prices of rugs. We deem your early selection highly desirable.
