Criticism of Administration for Ruling Stirs Capital.

OLD POLITICS IS CHARGED

Leading Republican Paper Scents Maneuver to Give Places to Eager Office Hunters.

BOISE, Idaho, Sept. 6.—(Special.)—What is classed as a covert attack by the Statesman, leading republican paper of the state, on the present republican administration, the ruling that all dem-ocrats remaining in the statehouse must

administration, the relling that all democrats remaining in the statehouse must be ousted and the attack of Mayor Eagleson of Boise on the Southern Idaho Power cominany in connection with the proposed irrigation of the Bistin Idaho's capital this week.

The Big Bruneau is considered one of the most feasible irrigation projects but millions of dollars will be required to handle it. Capital is reported interested, but the deal has not been definitely closed. Mayor Eagleson, who is a civil engineer by profession: and at one time of irrigation projects and at one time of irrigation projects and at one time of irrigation projects and at one time obtained the withdrawal and held prince has been interested in the development of irrigation projects and at one time obtained the withdrawal and held prince has been interested in the development in the best of irrigation projects and at one time obtained the withdrawal and held prince has been interested in the development of irrigation projects and at one time obtained the withdrawal and held prince has been interested in the development the mountains to tap Red Fish lake. The project did not develop and the inner reversed to the government.

Power Company Attacked.

In a Labor day address before representative labor men of this section of Idaho Mayor Eagleson directly charged that the Idaho Power company was but a branch of the General Electric company and was accelling to obtain control of all power sites and electric sained.

Grades in Junior high school building—tric company and was accelling to obtain control of all power sites and electric size.

Figure 20 of all power sites and electric company and was accelling to obtain control of all power sites and electric company and was accelling to obtain control of all power sites and electric company and was accelling to obtain control of all power sites and electric company and was accelling to obtain control of all power sites and electric company and was accelling to obtain control of all power sites and electric compa

charged that the Idaho Power company was but a branch of the General Electric company and was seeking to obtain control of all power sites and electric plants; that E. T. Meredith of Des Mohes, Ia. who proposed to reclaim the Bruneau project through the use of water from the Yellowstone lake in Yellowstone national park, represented the General Electric company to get toontrol of irrigation in Idaho and that, in company with I. B. Perrine, who made a success of the South Side Twin Palls project, Meredith recently held a conference with the secretary of the interior.

The Uniho Power company recently gained control of the various large operating electric power companies in the southern part of this state, one or two of which were then in the hands of a receiver.

John W. Engleson, state treasurer, is s brother of Mayor Engleson and is now serving his third term in that

Unusual interest has been attracted in statchouse circles here and among party leaders by the charge made that the present administration proposes to weed out all democratic holdover apintees and turn their positions over

Attack on Republicans Scented.

The Stateman editorially made an indirect attack on the administration, at least that is a view taken by party

are to employ them during the tim in some curious hand-to-mouth fashion and wait-just walf for the fortunes of the names of three men from which the aenate may choose a new provisional senate may choose a new provisional governor of Tamaulipas. This section, according to senate leaders, will end the country—the professional tax-cating class."

Professor Andrew Osuna, named provisional covernor of Tamaulipas should be adjusted that the governor of Tamaulipas should be adjusted that the governor of Tamaulipas should be adjusted to the country of the country of

demand of party politicians and place the accusations were part of a politi-them in public positions.

The last legislature created a cabinet

change in government for Idaho and the editorial is viewed by party leaders as a direct slap at the law and the action of the governor in filling the cabinet positions.

#### PHONE TOLL HEARING NEAR

Medford-Jacksonville Rate to Be Considered Tomorrow.

MEDFORD, Or. Sept. 6 .- (Special.)-Fred Williams, of the state public service commission, is expected to arrive tonight and prepare for the public hearing to be held Monday on the recent rise in telephone rates in Jackson county. Local interest centers mainly in the toll charge between Medford and Jacksonville, the county seat.
Medford lawyers are up in

Mediord lawyers are up in arms sgainst the toll charges, as most of their business' is centered in the Jackson-ville courthouse, while they maintain offices here. A large delegation from Jacksonville also will be on hand to protest against the charge. Although Jacksonville is six miles from Medford there has never been a toll charge sus-tained by the public service commis-sion, although the telephone company several times has tried to establish one.

## MARBLE TABLET ERECTED

Building Marked in Memory of 25

Tenants Killed During War. PARIS, Aug. 20 .- There has just been placed on the wall of a building at 212 rue Saint-Maur a marble tablet to the memory of 25 of its former tenants who died on the pattlefield. Of 189 workingmen who lived in the tenement \$5 went to war and only 60 returned. "Never forget those who fell as heroes for the defense of the father-land and the liberty of the peoples." land and the liberty of the peoples," says the inscription on the tablet. The names of the 25 dead follow, beginning with Corporal Charles Bonnet, the first to fall, on September 21, 1914, and ending with Andre Labainville, killed on November 11, 1918, the very last day of hostilities. Under the tablet there is a palm with this dedication: "To the boys of 212 rue Saint-Maur, who died for France."

#### RED LEADER SPECTACULAR

Hungarian Bolshevik Killed While Fleeing Across Austrian Frontier.

BUDAPEST, Aug. 12.—(Correspond-ence of the Associated Press.)—"Comence of the Associated Fress. — Com-rade" Scramuell, one of the organizers of the red army, who was shot while attempting to cross the Austrian fron-tier after the fail of Be's Kun, was one of the most spectacular figures in the brief but sanguinary reign of the Hungarian bolshevik! garian bolsheviki.

of a small land owner. He worked on the Budapest radical newspaper. Nepsave, and was rather an obscure member of the left wing of the social democratic party. He entered the army, and was among the officers captured by the Russians in 1915. They sent him to a Stherian prison camp, where he remained until the bolsheviki revolution, when he went to Moscow. Here he took a leading part among the agitation of the prisoners of war, and became interested in the bolshevik movement.

Returning to Hungary after the

Bolishevik movement.
Returning to Hungary after the downfall of the Hapsburgs, he worked unceasingly in preparation for the bolishevik coup de tat, enjoying great popularity among the soldiers.

After the soviet government was set up. Scramuell entered the govern-ment as a member of the war college, and passed much of his time organizing the Hungarian red army. He took a personal part in resisting the Rou-manian advance.

COLOGNE, Sept. 6 .- The great Krupp firm of armament manufacturers has egun to center its attention on preparations for government contracts for the construction of locomotives and

they are out of their political jobs. For the most part they do not establish desirable commercial relations, but live has asked President Carranza to submit

The editorial holds that the governorelect is confronted with these job and a year ago, recently was accused of appointment hunters and if he expects to be re-elected he must bow to the fighting removal on the ground that

His Hearing Restored.

The invisible antiseptic ear drum invented by Mr. A. O. Leonard, which is in reality a miniature megaphone, fitting inside the ear and entirely out of sight, is restoring the hearing of liter-ally hundreds of people in New York city. Mr. Leonard invented this remarkable drum to relieve himself of deafness and head noises, and it does this so suc-cessfully that no one could tell that he is a deaf man. This ear drum is effec-tive when deafness is caused by catarrh or by perforated, partially or wholly destroyed natural drums. A request for information addressed to A. O. Leonard. Suite 113, 70 5th ave., New York City,

EVERYBODY BRUSHING UP

Vancouver Is Preparing to Entertain Prince of Wales and Everybody Would Avoid Blunders.

VANCOUVER, B. C., Sept. 6 .- (Speclal.)-Western Canada is nervous and excited. It is experiencing all the joys and fears of a young lady anticipating her debut, or of a youth about to make

a few things that stand out promi-nently. It is one thing to entertain a passing earl, or duke, or even a governor-eral, but when it comes to doing proper" to the prince-it is a matter

of great seriousness and for the ever-lasting honor of the nation and the glory and dignity of the British crown, there must be no mistakes or mishaps such as have featured similar events in other onys.

So vividly have these memories been impressed on the minds of citizens of the west that they have whole-heart-edly supported the democratic move to abolish titles in the dominion.

Now the west is brushing up on its manners, for while they may be laughed at and excused in the entertainment of a governor-general, or even a duke, it would be scandalous to have them repeated during the visit of the prince -the future king. Despite its demo-eratic ideas the west could not tolerate any mistakes in the entertainment of the helr apparent. But those who have had the oppor-

the construction of locomotives and railway cars, according to German trade journals. The firm has agreed to give the government part control of the superintending. One of the first contracts calls for 100 locomotives and 2000 cars.

Directors of the Krupp works are least that is a view taken by party leaders. Commenting on the decision reached to make the democrats walk the plank, the Statesman says, among other things:

"To the general public there may seem to be something cynical in the announcement made that all of the democratic still employed in the state-house would soon be made to walk the plank. Here we see the political job seeker and job holders come and go according to which party may have the power to give out jobs. Few persons are to employ them during the time.

2000 cars.

Directors of the Krupp works are also endeavoring to obtain contracts from that which the west is planning for his reception. In this he is not to be indulged, for western Canada is going to show off, and do it according to page and paragraph of the book.

So it is that every one is excited. Everyone is planning clothes and brushing up on manners. But the cynics are betting that despite all preparations the prince will enjoy many a quiet smile as a result of the efforts of the west to restrain the warmth of its welcome to the narrow channels of precedent and European customs.
