Following the usual procedure of
Oregon's participation in State and
county expositions, the State of
Oregon is sending a wealth of
pictures, pictures, pictures, for
the enjoyment of the American
people, who are not able to attend
this great event.

AND in it they can rest secure and
not forgotten. Upon request they
will be privately removed to sleep
forever in niches or marble vaults,
tenderly protected. It is, incom-
parably, the better way.

VACUUM CLEANER
Without any obligation, let us demonstrate a Regina, the
words of which will convince you that you cannot be
without one.

We can express our enthusiasm even in cold type,
because we know of the high-grade workmanship, and
care of the mechanics involved in the manufacture
of the Regina. But print has never yet been able to do
the talking. The Regina proves its worth by actual
working; have the big features explained, see the convenience,
the time saved in house cleaning, the improved sanitary
conditions of your rooms and numerous other little
but valuable points.

The Regina is the only machine with a positive
gear-driven brush included in a shut-up case.
The suction not only draws up germs, dust, but
with the gear-driven brush, it sweeps up all litter and
threads.

A demonstration will prove conclusively and quickly
the wonderful cleaning power it has without injuring the
best rugs, upholstery, fabric, etc.

Terms of payment are arranged so as to fit the conven-
cience of all bank customers.

$5.00 deposit and the balance in monthly in-
stallments will keep the machine in your home.

Just Grown-
Up Children

Most of us are mendacious children
not to grow up at all. This fact is
proved in the following extract:

"We cannot keep the little ones
from being little," said the
mother, "we can only hope they
will grow up at all.

John Green, who is bound to
Underwood's, a printer, said:

"I have a little one who is
bound to be a printer, but I
hope he will grow up.

In the meantime, we shall
continue to print for the
children, who are not yet
grown up.
